## Magic sparks new image

**A**bracadabra! Hocus Pocus! Like magic, Greenway took a new image to improve its already outstanding qualities. The magic touched clubs, sports, academics, and most of all the spirited students.

The magical sparkle was cast out on Greenway's buildings as the school underwent a new face lift.

Out of the magical hat came a change in the administrative staff with a new Dean of Students and a new Assistant Principal. New teachers also appeared to Green-

way's highly qualified staff.

Images turned and a new year opened with the touch of magic all around the campus. Everyone strived for the pride of Greenway's new outlook.

As if a magician had performed his greatest illusion, the magical touch of Greenway will forever be remembered as the students of '86 fulfill their dreams.

A new flare of hobbies, sports, classes, dating, and extracurricular activities made Student Life all the fun and excitement of going to school. As the school increased in numbers, so did the involvement of the student body.

Dating, or just going out with a few close friends, gave everyone something to look forward to along with any hobbies or activities they had planned for the upcoming weekend. Friday night games provided relaxation as well as enjoyment for students to get away from their academic pressures and the hustle and bustle of the previous schoolweek. There were dances after the home games so students could let loose and be themselves with friends.

But, with all this excitement, one must never forget the most important factors of Student Life. It was the classes that molded the students minds, the sports that built up their spirit, the clubs that involved the students, and all the other aspects that brought them all together. Through this one magical sweep Greenway's student body had a year to be excited about.

# Campus events lift spirit

**B**right and smiling faces were abundant as enthusiastic students became involved in campus activities. Demon pride was apparent in students who participated in all campus activities.

"The students at Greenway have great personalities and are willing to welcome newcomers," said Senior Stacey Newberry.

Many students agreed that classroom

activities were in most cases enjoyable and entertaining yet at the same time educational.

Demon spirit was infectious and everlasting. Students demonstrated their spirit at pep rallies, athletic games and dances.

Friday evenings were particularly popular with Freshman Boo Winsor, "My favorite activities on campus are the dances."

# Demons drop Homecoming to #3 team

**H**omecoming is the time when alumni return to their school and spirits among students run high. As the theme states, "Back to the Future," the festivities were no different than in past years as the stands were filled with anxious fans awaiting a climatic game against one of the top-ranked teams in the state.

Number three-ranked St. Mary's kicked off to start the game and the Demons marched down the field to score first. Senior Ed Barnes took the hand-off from Junior quarterback Gabe Arellano to score the first rush touchdown scored against the Knights in 1985. The Demons continued to play great football, yet dropped the heartbreaker 21-6, allowing St. Mary's to continue their undefeated streak.

Halftime remained the highlight of the evening as the royalty, selected by the student body, was announced. Ed Barnes and Kathy Whitaneis were chosen King and Queen to reign over the 1985 Homecoming Court. Each class also competed in the float competition. The Freshmen float won first place.

The night concluded with a Homecoming Dance in the gymnasium sponsored by the DECA club.

*By Mike Barnes*

# Timely twist brings GHS Spirit to life

The Homecoming tradition took on a timely twist as Greenway went "Back to the Future."

Preparations for the sixth annual parade began weeks before Homecoming day. Student Council put in many hours of planning and getting ready. Float building arose almost a month before the anticipated day.

On November 8, 1985 that day finally arrived for eager students and faculty. Nearly one-fourth of the population of Greenway participated in the actual march. The remaining three quarters of students burst out of the doors at 1:35 and jammed up along Greenway road to witness the floats, celebrities, and clowns proceeding toward the football field for the pep rally.

Student Body President Kort Miner led the way, followed by the Demon Band, class floats, Homecoming royalty, and sports teams, and the last but not least, the clowns. At the football field pom and cheer performed and celebrities such as Bill Mosley of Channel 3 News and "Sparky", the Arizona State University mascot, spoke. A couple of local radio DJ's also participated in the festivities.

The parade marked a big event in

Greenway's history for being the only school in the Glendale Union High School District to hold this type of activity.

The homecoming celebrations were also a time for last year's graduating class to come back and take a peek at what they left behind.

"It was like I was a stranger in a familiar place," said alumni Maria Hackett, "But it felt great to be back."

Homecoming was topped off by the crowning of royalty and the announcement of the best float winner. The order of awards went to Freshman float first, Senior second, and Junior float third.

Students brought school spirit to life by donating their time to creating an atmosphere of enchantment as Greenway went "Back to the Future."

## Juniors

*Julie Hodges  
and Tom Johnson*

**A**mong all the spectacular events that occurred during Homecoming week, one would have to agree that the crowning of the royalty was the most intriguing and everlasting.

During halftime at the homecoming game, everyone sat at the edge of their seats as the announcer slowly gave away the final answers to the questions everyone was asking. Who will be the lucky and deserving ones to be crowned?

Candidates were nominated a week ahead of time and everyone had the choice of voting for the candidate they thought best to win.

On the night of Nov. 8, 1985, the fol-

lowing candidates were crowned: Freshmen attendants were Matt Wiedmann and Sheri Ast, Wendy Grant and Robert Stephenson were crowned sophomore attendants, Tom Johnson and Julie Hodges were chosen as Junior attendants, and Senior attendants were Kristi Bergquist and Jeff Starr.

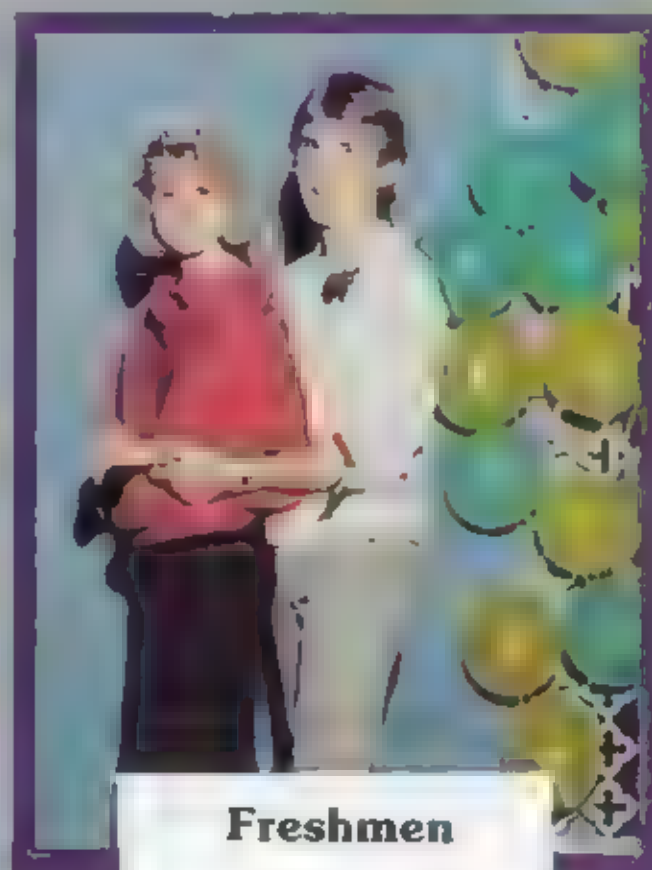

Last but not least, as the announcer paused a moment before announcing the winners of the most honorable positions, Ed Barnes and Kathy Whitaneis were announced as the 1985-86 Greenway High School Homecoming King and Queen!

# Magical excitement livens spirit week

Spirit week promoted energy and excitement in students and prepared them for the magical night of homecoming.

The week began with Ancient Day and students went back to the past by dressing up like those from the 20's and 50's. With a theme of coming "Back to the Future", the week ended with, of course, Future Day, and the ever traditional Green and Gold Day.

The classes showed their school spirit by working long hours on the floats in preparation for the annual homecoming parade down Greenway Road. After the parade, everyone gathered in the football stands for a speech by the Student Body President, Kort Miner, and the school spirit continued to climb.

*By Michelle DeRuiter and David Green*

# Miner an involved leader, mentor, and philosopher

**S**tudent Body President Kort Miner ran for Student Council because, "I saw that the school needed help and I thought I could do just that."

Kort made many of the Student Council decisions and carried a lot of responsibility. It was Kort's job to make sure that any activity passed by Student Council was carried through

However, Kort's position as President was not all work. "Student Council is fun and I am enjoying it a lot," he said

Some new Student Council activities included a student exchange program, a fund raiser that provided relief to Mexico, music trivia on the morning announcements, and more teacher-student events, according to Kort

"I feel everyone was closer. Students showed more pride all-around," said Kort

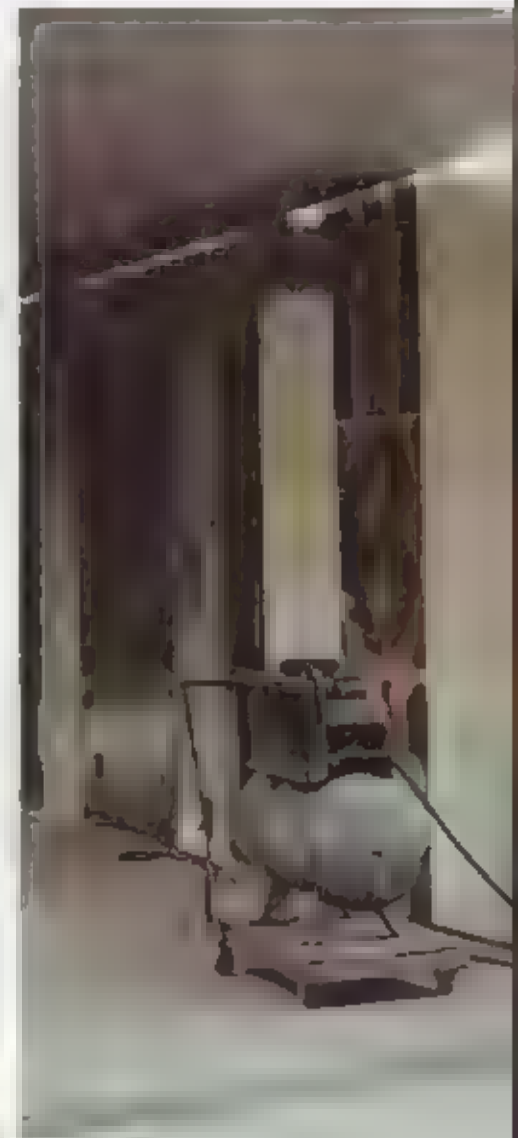

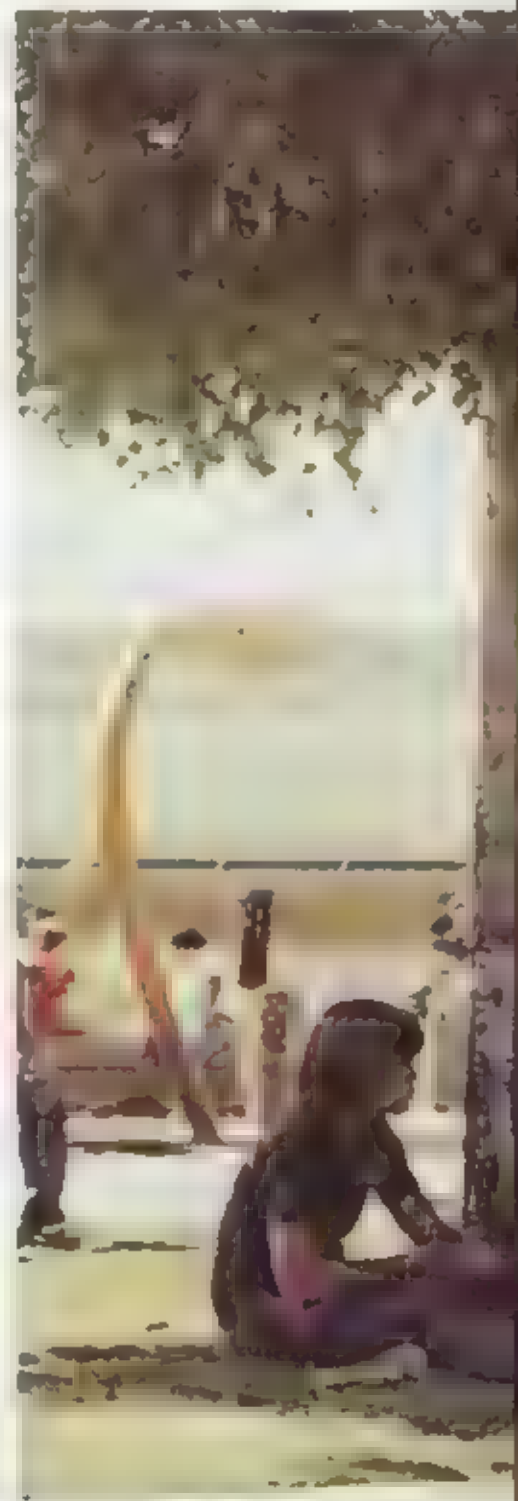

Kort also acted as a mentor and passed a bit of his philosophy on to students

through his poetry

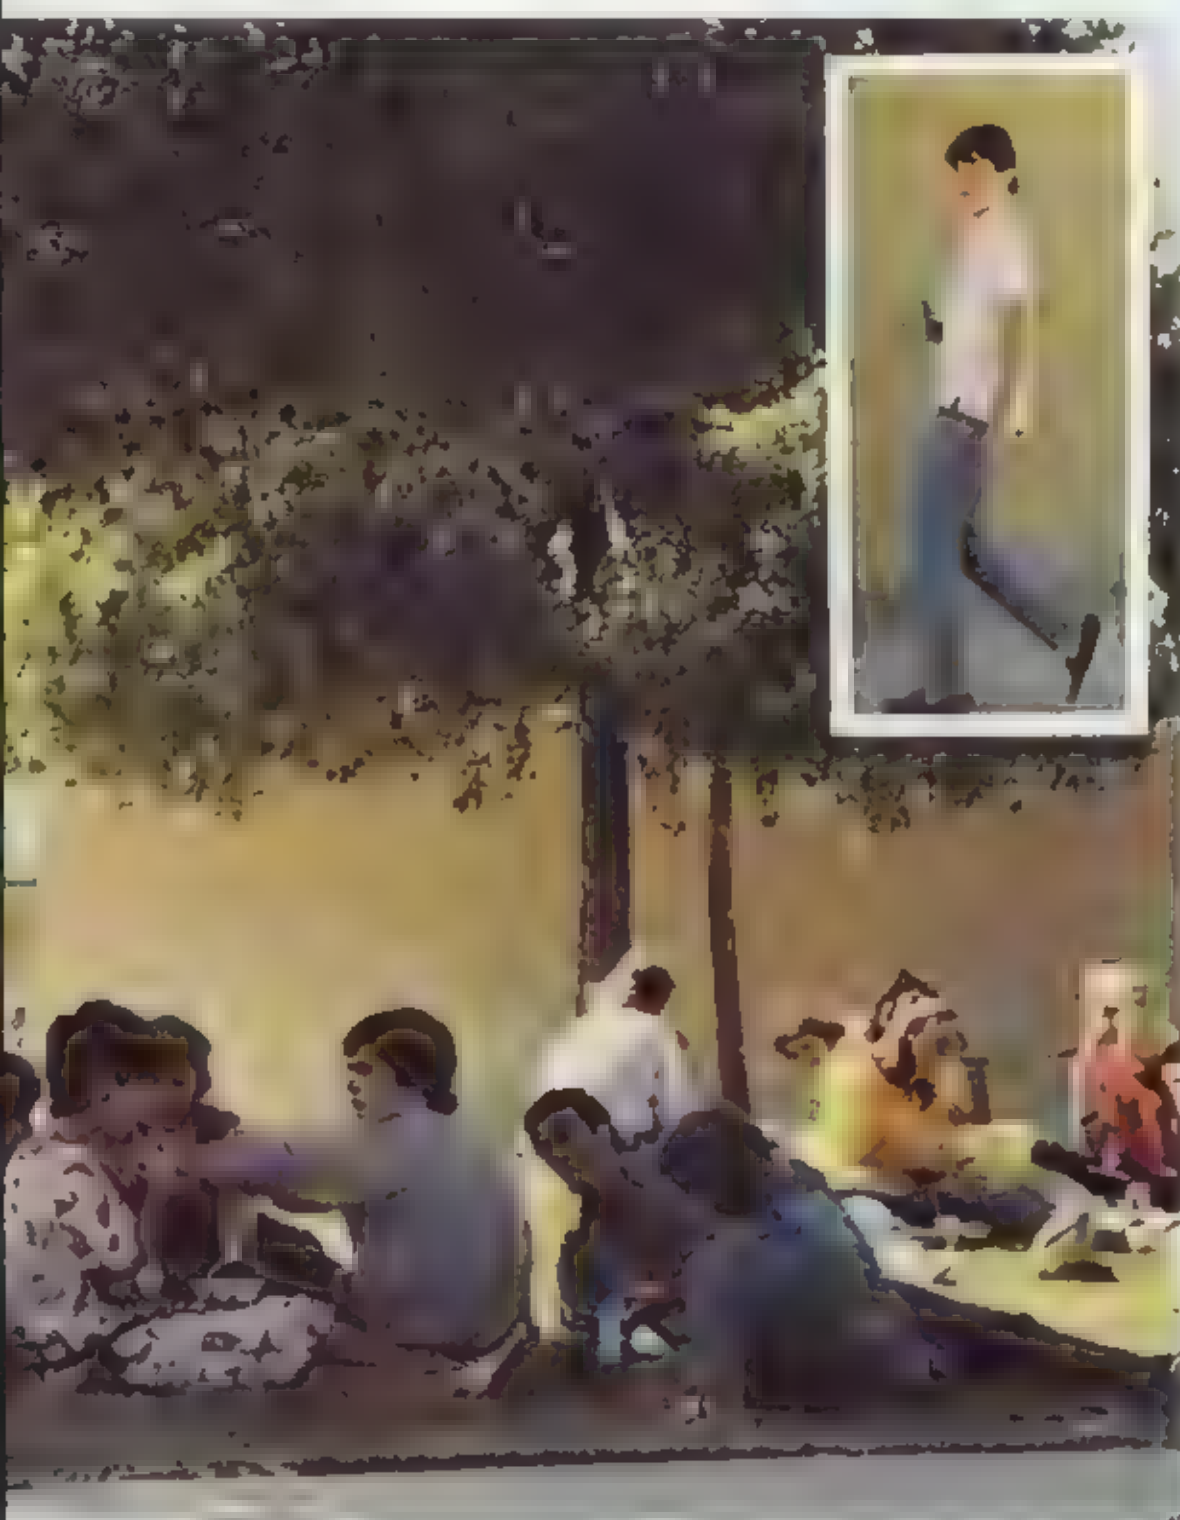

*You might have a lot of troubles  
And your joys very few  
Never give up your battles  
There's victory in store for you  
Even when the chips are down  
And no one is on your side  
You will always have something  
You will always have your pride  
And when your dreams turn to dust  
And the world blows them away  
There is always tomorrow  
Tomorrow is a brand new day  
So never think life is worthless  
Never think yourself poor  
For what lies in the future  
No one knows for sure*

Kort advised students to "Keep your head up, there is talent in everyone. Just find your talent, make use of it, and that will make you a better person."

*By Amy Bowling*

## Freshmen Sparkle

**T**hey've got spirit yes they do. The freshman class started the year with true Demon spirit. As a surprising 38 freshmen students ran for positions on Student Council, the largest number of freshmen that have ever run in the history of Greenway. "It was a challenge running for Student Council, everyone who ran was qualified," said Freshman Sharl Ast.

The freshmen showed their eagerness to get involved by joining various clubs and athletics around the campus. Freshmen girls made up over half of the girls swimming team, and approximately 50 freshmen boys participated in freshmen football.

"I met a lot of new people and made a lot of good friends through football," said Freshman Ron Stout.

Freshmen showed their own personal spirit at the sporting events and school assemblies. Freshman Tracy Leech said, "The freshmen really caught the Demon Fever."

*By Amy Bowling*

## Common scents — Aroma of wet paint in air

**S**tudents set foot on the campus the air had a unique scent to it. The aroma of wet paint.

One of the biggest events was having the school painted after 13 years.

"The school needed to be painted. The buildings were discoloring and they had graffiti and scratches in places," said Mr. Steve Knight, assistant principal of student activities.

For the past four years students were asked what improvements they would like to see around the school. The most requested response was that the color of the school

buildings be changed. A paint committee, consisting of students, teachers, staff members, parents, and administrators decided on the new colors and new design. The school was allowed \$15,000 for the paint and materials. A district crew was used because the cost of a licensed contractor would have been too high, according to Mr. Knight. Fifteen stationary buildings, and three portable buildings, and four locker shells were painted.

# Many magical moments

All over the United States, teens look forward to the weekend. Greenway students were no exception.

All week long students asked the question, "What are we going to do this weekend?" The response may have been "Let's go to the movies" or "Let's go to a party." But the most popular response was "Let's go dancing!"

The hot dance spots in the Valley were the teen nightclubs such as **Tommy's** and **Struts**, while the adult nightclubs, such as **Devil House** and **Graham Central Station**, offered one night a week just for teens.

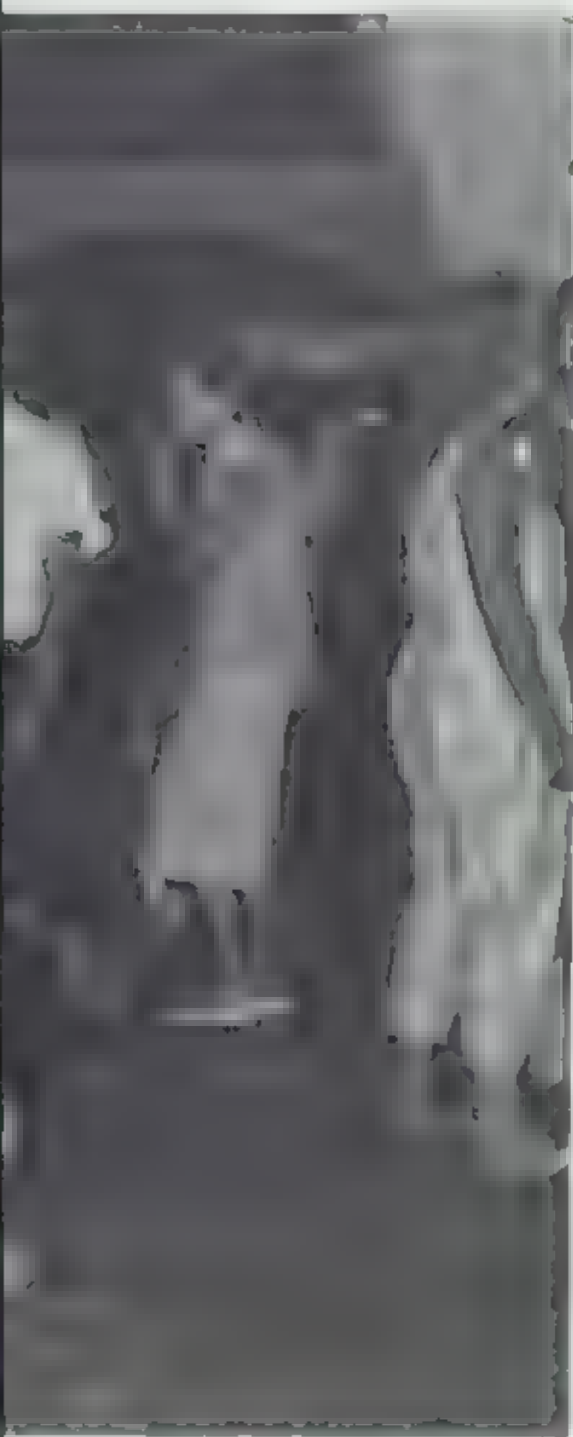

Another popular form of dating and nightlife was to go out to dinner and then

go back home to watch movies on the VCR. The more popular movie rentals were, **The Terminator**, **The Karate Kid** and **The Woman In Red**, according to a Tele-Vid employee.

All in all, the weekends provided a break from school, work, and other personal problems. It was a time for friends, boyfriends and girlfriends to get together and have a good time.

Phoenix used to be a hard place for teens to have fun, but with the new teen nightclubs, it's getting better, said Sophomores Cindy Sheehan, Jenny Mohn, Jen Olmstead, and Renee Gunnels.

**H**ealth and recreation involved many different things. One of the most popular items people did to stay healthy was to lift weights and run. Some of the more popular recreations people chose were water skiing and ATC riding.

Lifting weights was not only a man's sport but it was also a place for women. The guys in the weight room found themselves having to move over for the girls.

"Lifting definately helps for cheer, but I don't want to get massive, just toned," said Senior Kathy Whitaneis.

Getting in shape was not just running around a track or going into a weight room and lifting weights, it took constant day to day dedication. Most people lifted every other day, but most people that ran, ran everyday. This meant they had to watch what they ate all of the time.

Health foods played a major role in the

life of many active athletes. "Eating a lot of proteins makes you grow and gives you energy," commented Junior Gabriel Arelano.

Many people have different reasons for lifting. Girls tend to lift to tone up muscles or to lose weight, but guys had some different reasons; they lifted to get big and strong. Senior Karl Schumacher had really been tacking lifting seriously. He has been dedicated to lifting for five years.

Some popular forms of recreation throughout the summer were challenging the water at popular lakes, ATC riding across the unexplored desert, and hitting the hot spots across the Valley. Going to the lakes in Arizona was like going to the beaches in California, as far as students were concerned, commented Junior Juli Hodges. Many students also went to the sand dunes in Arizona, California, and Mexico.

Although health and recreation seem to be totally different areas, they weren't always. For some students, their way of being healthy was also a recreation.

# Teen jobs rake in bucks

**J**obs have always been a topic of interest to many, and teenagers certainly were not an exception. Reasons why teens worked varied as much as the types of jobs they held.

Some teens did not need the money but enjoyed working or simply wanted the experience. Volunteer work was usually a good alternative for that person.

"It's just fun to help people. I really like it," said Freshman Wendy Martin who volunteered for Boswell Memorial Hospital.

However, for some students a job was a necessity because of their own desire to buy a car.

"Even though I don't like my job, it's

given me great experience and responsibility. Besides, I need the money for my car," said Senior Mike Sampson who worked at Wendy's Restaurant.

Some people just enjoyed adding the extra money to their entertainment fund. "I don't really need the money, but the job is in the bag," said Senior Jim Sikes who worked as a carry-out at Gemco.

The most popular kinds of jobs ranged from fast food restaurants to day-care centers. Whatever the job, teens were taking on more responsibilities by working part-time.

Freshman Luisa Deanda looks on as pom and cheer performed in the quad. **Photo by Knack**

## School spirit sparked

**A**ssemblies and flag raising ceremonies lifted the spirit of students and gave support to various clubs and sports. Many students looked forward to the 7:30 a.m. ceremonies and dressed in school colors on Fridays. These ceremonies also promoted spirit for the varsity football that night. The band played the National Anthem while the flag was raised. Kort Miner, student body president, introduced speakers for the fall sports, while the pom and cheer performed in the quad. At the first flag raising before the Prescott game, Junior Brett Weaver spoke for the football team and said, "There's going to be blood on the field!" Of course there wasn't, but the crowd loved his enthusiasm.

At the beginning of the year, there was an assembly held to recognize the fall

sports. School spirit was sparked by all at the first assembly. The sports that were recognized in September were football, cross country, golf, badminton, volleyball, and swimming.

In December a second assembly opened the winter season. These sports were soccer, boys' basketball, wrestling and girls' softball.

Also in December, the Winter Wonderland Assembly entertained Greenway students. Held in the auditorium, highlights of the assembly included performances by the choir, drama, modern dance, and jazz band.

The assembly for the spring sports took place in March. Boys' basketball, track, tennis and girls' basketball were recognized.

*By Wendy Agner*

# Bright spots marred by Challenger tragedy

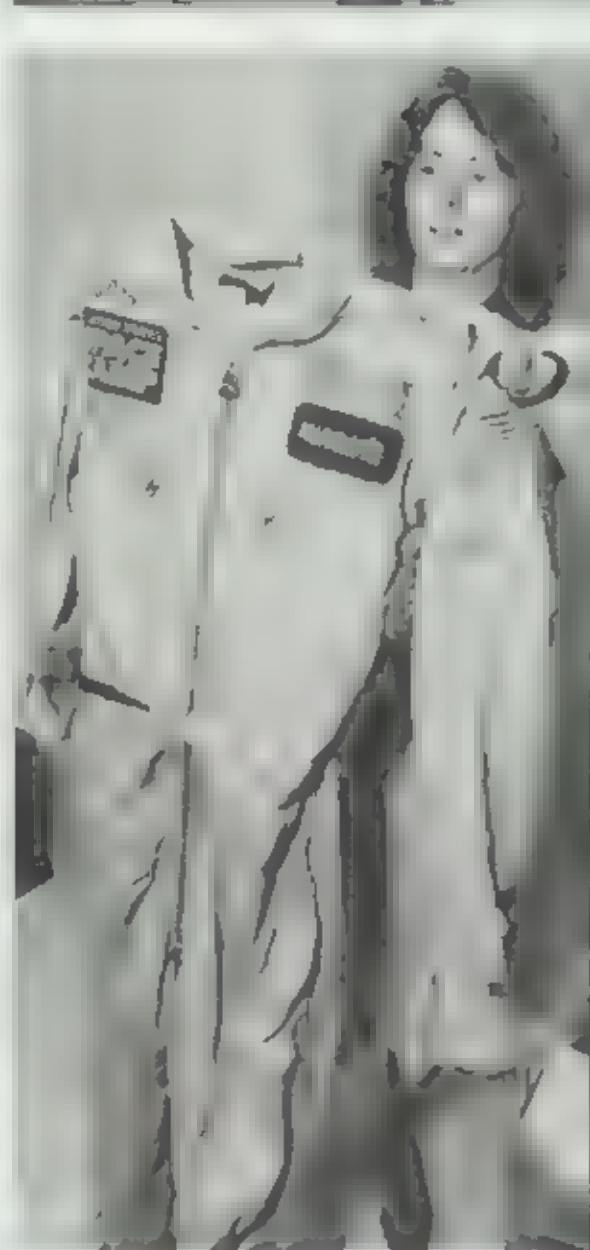

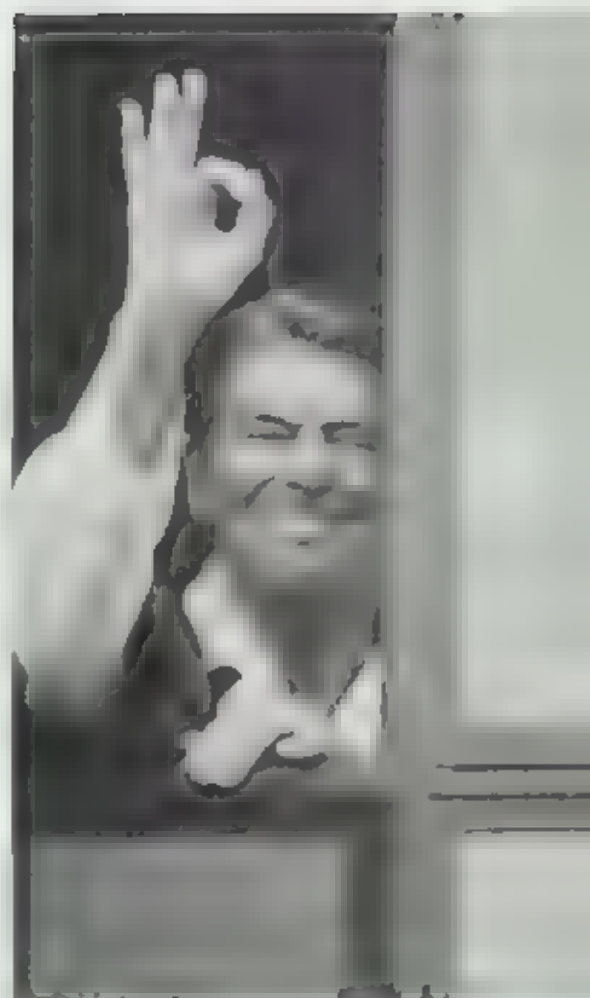

Several bright spots were in the news this year. The dollar was strong, which made it easier for high school students to buy what they needed or just wanted. The unemployment rate was down, which meant there were many more students working than last year. Relations between the United States and the Soviet Union were much better, easing some of the worries of a clash between two superpowers.

The United States space program reached new goals, proving that man can work in outer-space. However, tragedy hit as the space shuttle, *Challenger*, exploded

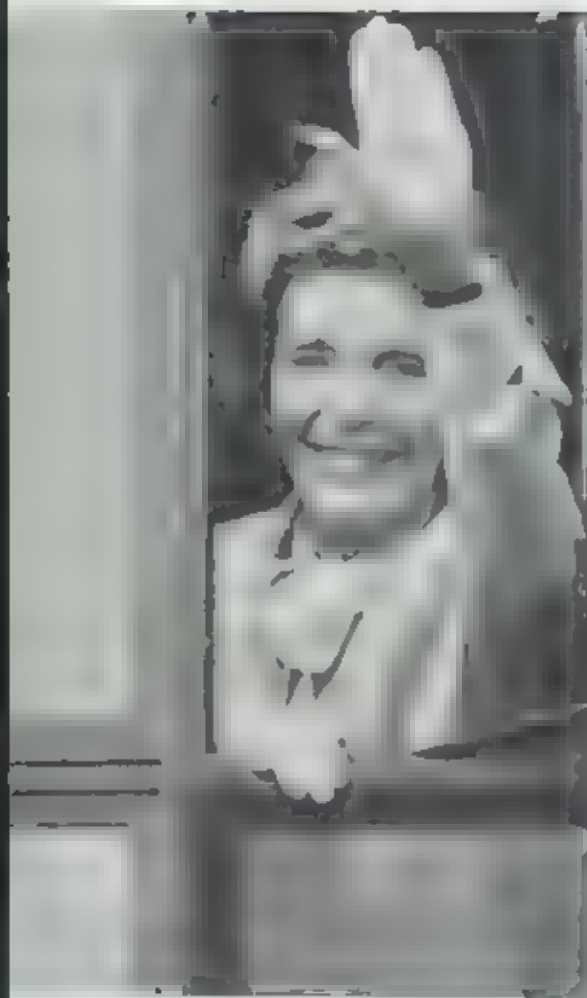

shortly after take-off and crashed into the Atlantic Ocean on Jan. 28.

Yet good events still highlighted the news. Records in sports were broken and the comeback was alive in several sports. Techniques in medicine were advanced and proven, such as the artificial heart, transplants of organs, and new innovations in optics which enabled some to get rid of their glasses or contacts. Although some tragedies struck the U.S., a majority of the events were good ones.

# State Fair carries ongoing commitment

If you dropped from the sky in mid-air, cheered for your favorite entertainer, ate all the hot dogs you possibly could, or viewed the many interesting exhibits, you were probably enjoying the 1985 Arizona State Fair.

The fair was in its 101st year, and it showed an ongoing commitment to bringing a variety of fun and entertainment to the young and old. "This outstanding showcase of Arizona expertise is enveloped in a wide array of top line entertainment, exciting amusements, and action-packed events," said Mr. Gary Montgomery, Executive Director.

Some of the major entertainers that students enjoyed were Kenny Loggins, Howard Jones, and the Beach Boys. Other performers included Rich Little, John Parr, and Donna Summer just to name a few. With the Coliseum seating thousands, almost everyone could go and watch a variety of shows despite the many long lines.

Midway rides and games were enjoyed by all, yet some people weren't too happy about the high cost of the required tickets for all the rides. "You had to pay \$4 to get in, and then you had to pay for everything else you did," said Senior Heidi Beberniss. Senior Michelle Michalowski stated, "A book for \$5 was a rip off. One book could only go for about two or three rides." Even so, exhibits of animals, fine arts, homemaking, and many others could also be viewed and appreciated by the public.

Making an entrance on Oct. 18, and exiting on Nov. 3, all this excitement was brought to the people all over the state and everyone caught the fire of "The Great Arizona Get Together!"

*By Michelle DeRutter*

## Dateline Arizona

# Snowfall shocks Valley

One of the most unusual and shocking newsworthy events that happened in the past year in our state was the snowfall in Phoenix on Dec. 11, 1985. It was the first measurable amount in the city's history since Feb. 2, 1939. Snow flakes were reported to be as large as nickels.

Among other events, medical history was made when Michael Drummond received a Jarvik 7 artificial heart. Dr. Jack Copeland led the surgical team at the University Medical Center in Tucson on Aug. 29. This was the first artificial heart transplant in Arizona.

Another memorable event was one of the largest drug busts which took place in Scottsdale and Paradise Valley. Many involved were allegedly led by former Chap-

arral students and dropouts. The school's reputation was hit hard and it has become quite a challenge for the student body to wipe their slates clean.

Oct. 8, 1985 was important because Maricopa County voters decided to pay one half cent more sales tax which pays for freeway construction and mass transit planning. Proposition 300 passed and will finance construction of 233 miles of freeway and expressways over the next 20 years.

The 911 emergency telephone number went into operation on Sept. 8, 1985. It was designed to provide instant access to medical, police, and fire agencies through centralized, computerized switchboards.

The Central Arizona Project, a \$3.6 billion proposal, brought Colorado River water to the state's population this year.

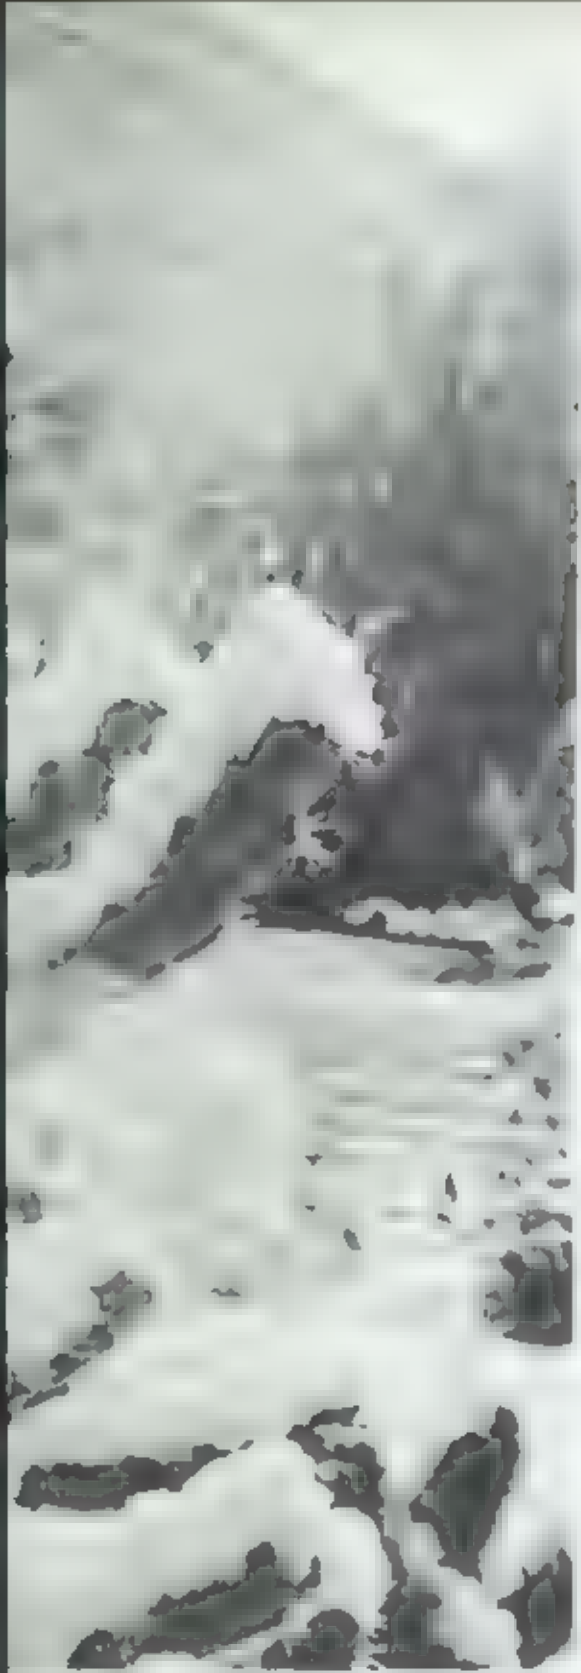

Overall, the most newsworthy events of the past year have had positive outcomes.

By Robyn Back

**Photo By Fletcher**

Nineteen eighty-five was a year to treasure. Through all of the tragedy, feelings of peace and prosperity surfaced.

While the space shuttle tragedy in January brought great sorrow to the world,

bond among the countries of the earth. President Ronald Reagan met with Premier Gorbachev of Russia in Geneva, Switzerland for the Summit conference. One proposal discussed was to develop a student exchange between the rival na-

tion. Dr. Yevgeny Chazov, Soviet deputy health minister and fellow heart specialist, received the award as co-founders of International Physicians for the Prevention of Nuclear War. The organization has 135,000 members in 41 countries.

The record of 4,191 hits by Ty Cobb was challenged and broken by Pete Rose. Congress also tackled a challenge by passing a bill to balance the budget by 1991.

For the past two years, the Statue of Liberty has gone through a reformation. Restoration was finally completed as a tribute to the Lady's 100th anniversary, which will be celebrated on July 4, 1986.

In most of the events of the year, the United States played a great role. America's influence in world affairs proves that it is a great country.

By Karen Webb

## Disasters strike world; Summit highlight of year

Christa McAuliffe's death renewed feelings of respect for teachers everywhere.

Airplane hijackings and crashes occurred often, adding trauma to the lives of people all over the world. Several severe earthquakes sent tremors across Mexico, turning the capital city to ruins.

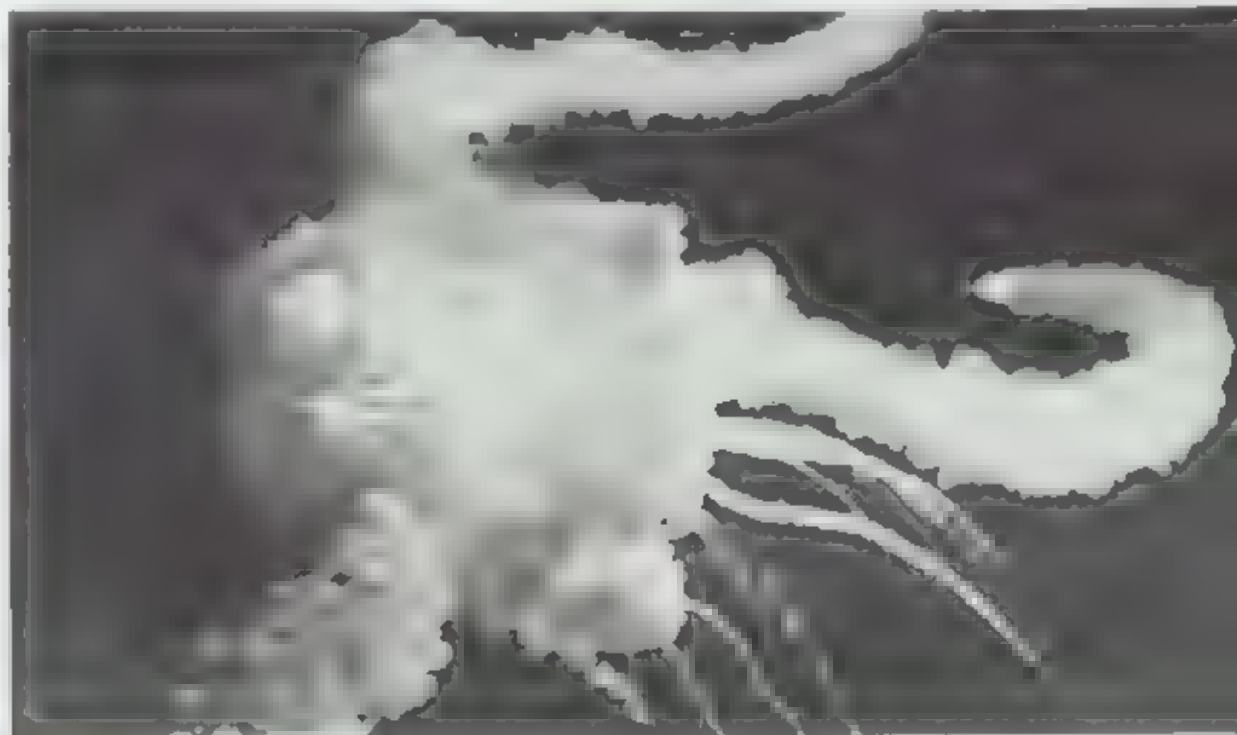

Yet these disasters helped to form a

unity which would promote understanding of the different cultures.

Tradition continued with the World Series. The Kansas City Royals defeated the St. Louis Cardinals in the seventh game.

The year also brought triumph to the winners of the Nobel Peace Prize. American cardiologist Bernard Lown and Yev-

Awaiting the arrival of Santa Claus, Junior Courtney Jones and Nicholas Jones, played by Junior, present the gifts. **Photo By Fletcher**

The Jazz Band entertained the crowd with unique versions of Christmas songs. **Photo By Fletcher**

# Performing Arts students illuminates GHS with talent

**H**ear the bells ringing, see the snow starting to fall, and one knows it is time for winter. With winter comes the Greenway High School Winter Wonderland Assembly. Consisting of music, dancing, singing, and acting, the assembly went as planned.

Master of Ceremonies at the assembly was Student Body President, Kort Miner. He was in charge of introducing the activities which would take place.

The Jazz Band set the standard to be followed after being the first to perform. They entertained the audience with their unique and rhythmic interpretations of traditional Christmas songs.

Two skits were performed by the GHS Drama department. The first skit went through the traditional peeking at the presents. The second was a skit which involved Pee Wee Herman. Both were well done.

"I really liked the Pee Wee skit! It was

really good and that guy really acted like Pee Wee," commented Junior Julie Hodges.

Ms. Susan Brady's Advanced Dance class performed two dances. The class had been working on their dances for an extended period of time. They then auditioned their dances in front of the class and the two favorites were put in the assembly.

"It was a lot of fun performing at the assembly and I hope it can be done next year also," said Junior Juli Harmon.

The Concert Choir then performed under the supervision of Ms. Ruth Dubinbaum. A piano duet was also played.

Another year gone by, and another Winter Wonderland Assembly that went off without a hitch. Another year coming to a close but not the last at GHS.

*By Julie Larsen*

Being Master of Ceremonies is a big job, but Student Body President Kort Miner led the assembly with an air of easiness. **Photo By Fletcher**

# You made the difference

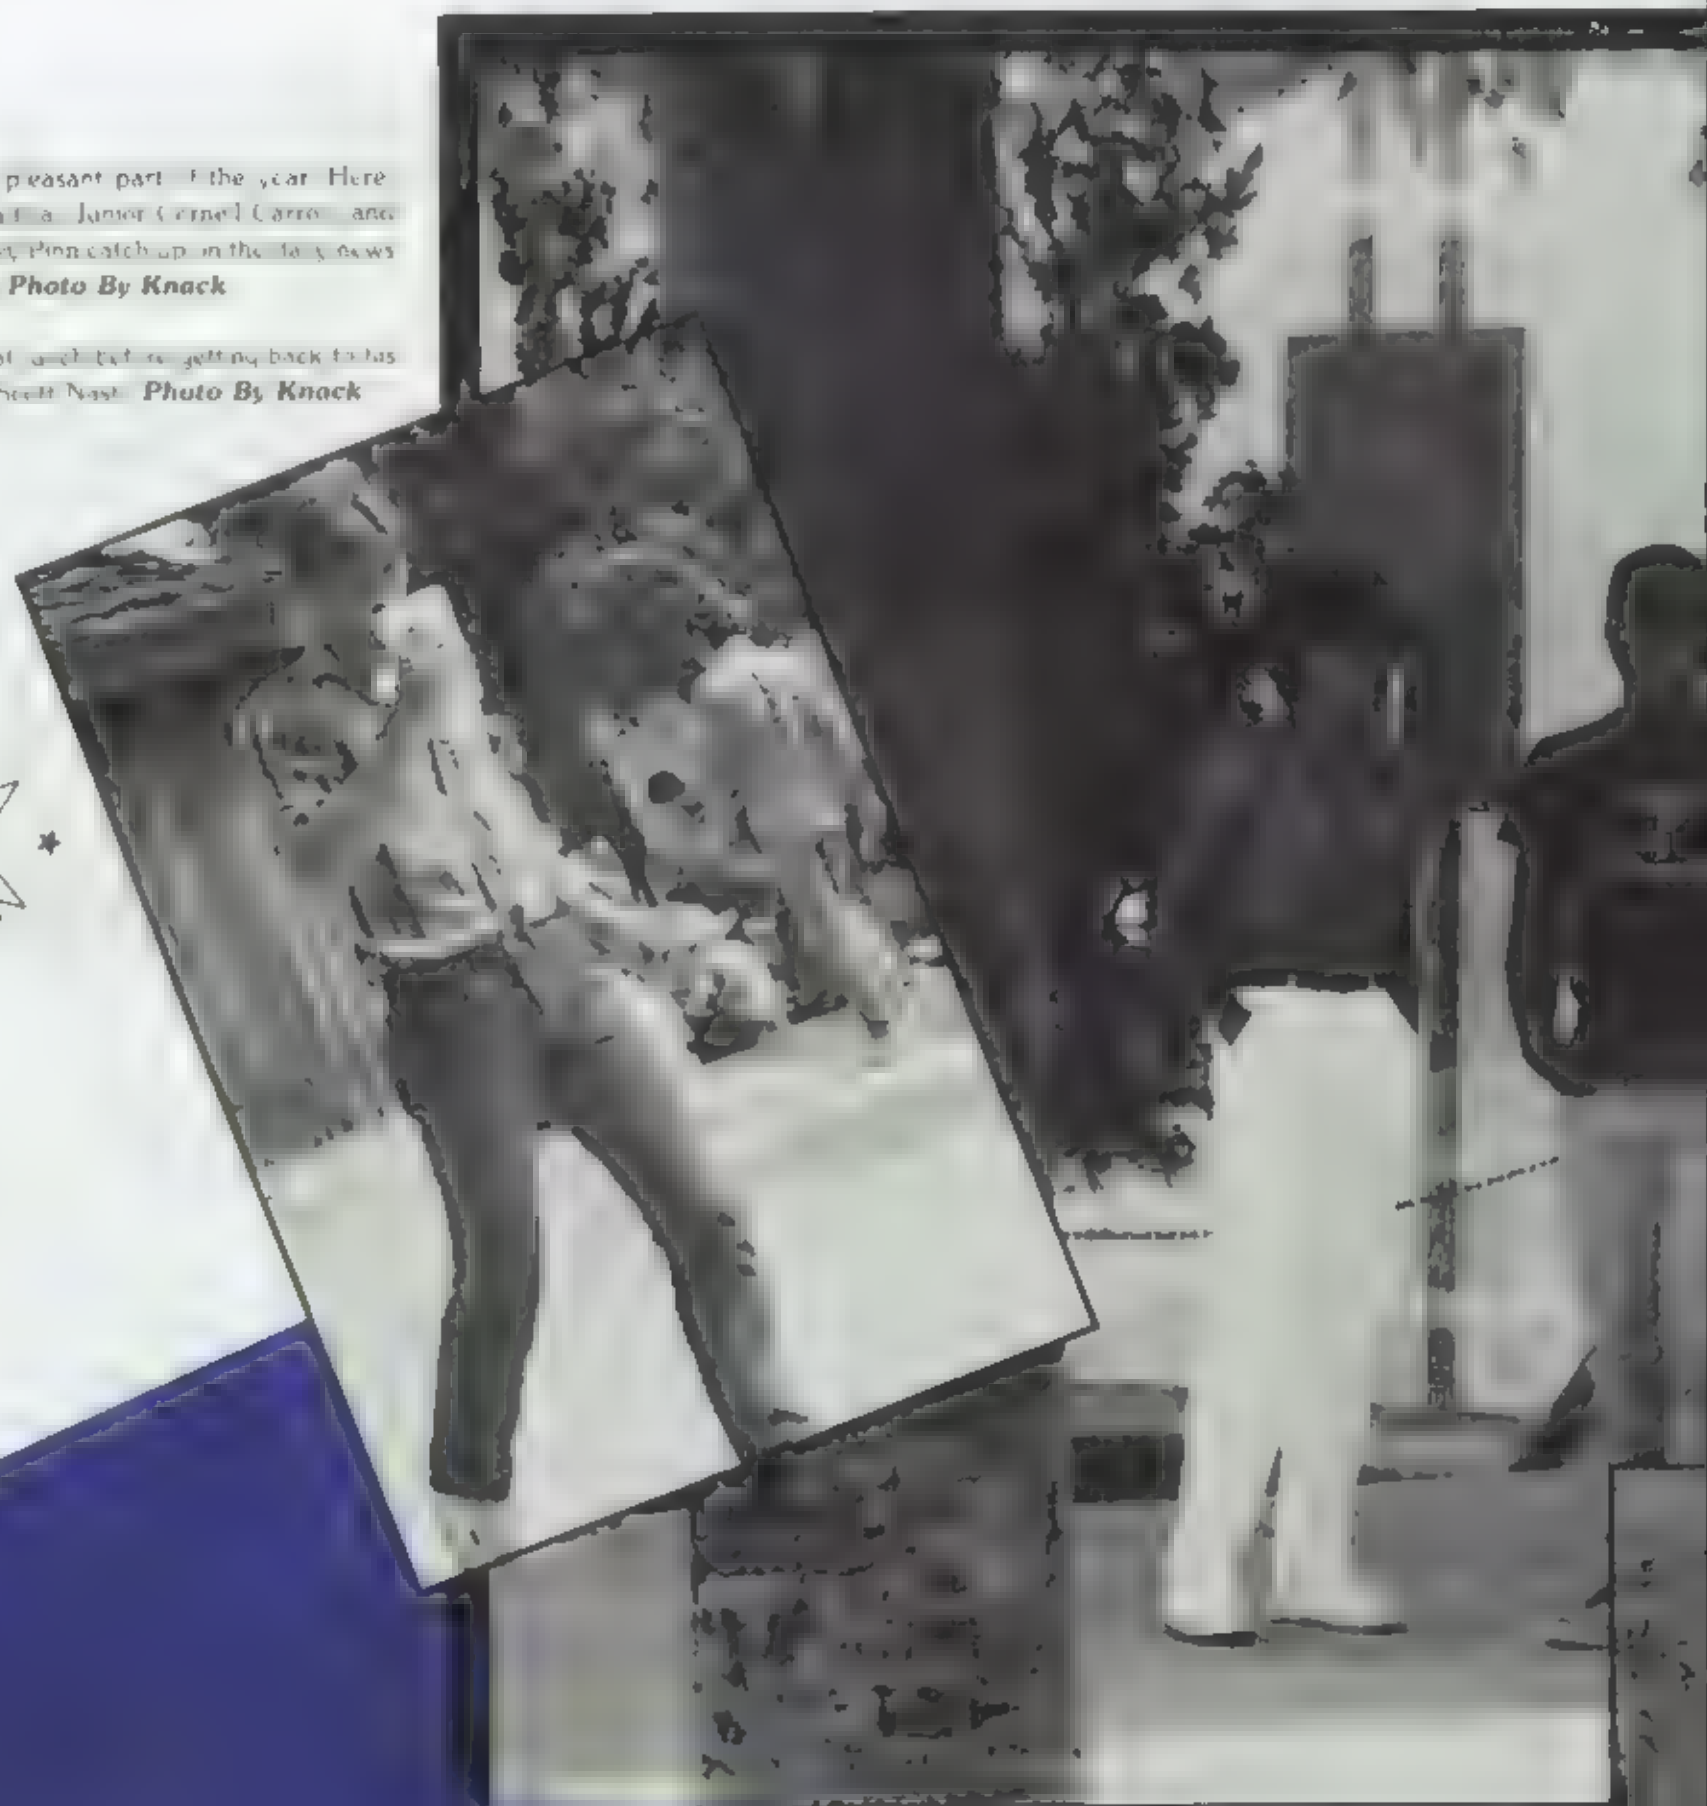

# People

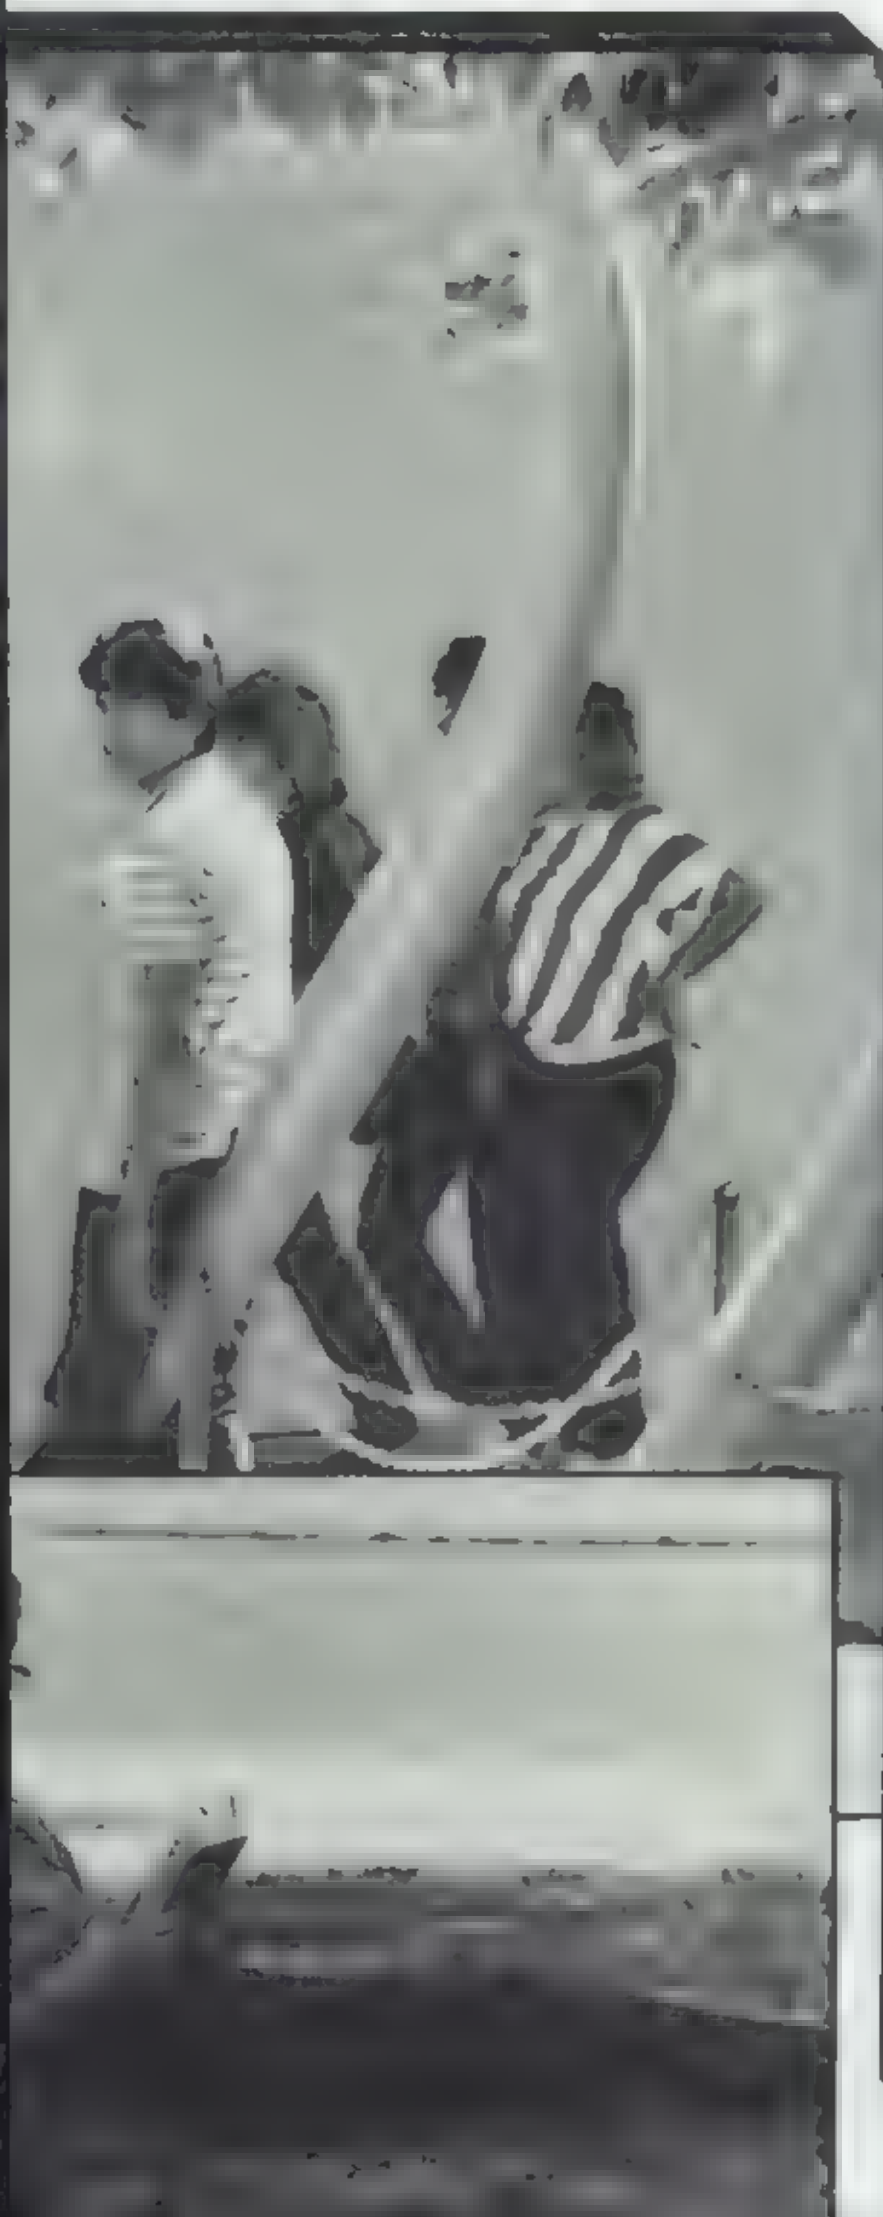

Friendship was a pleasant part of the year. Here Freshman Ray Paffa, Junior Carmel Carro, and Sophomore Harriet Pinn catch up on the day news during lunchtime. **Photo By Knack**

Everyday club's eat and before getting back to his classes is Senior Scott Nash. **Photo By Knack**

Taking a break from his busy schedule, Freshman Justin Taylor relaxes while reading a book. **Photo By Green**

Sports, clubs, academics, student life. What makes it all happen? The people were the main ingredient which added that final magical touch, and in the end were the highlight of the school year. It was because of the people, and staff that made the painting of our school possible

"It's a lot brighter and more cheerful," stated Senior Anthony Litzler, "There's a certain shine about the walls. It's not as dull!"

It all began with the anticipation of that very first moment, when the hands were shaking, knees knocking, and teeth chattering of the incoming freshman. Hundreds of new faces flocked into the campus wondering what their next four years had in store for them

As for sophomores, well that was another story. Since the awkward moments of being a freshman were over, everything ahead was smooth sailing. New friendships were created from the previous year and school spirit took over more than ever.

When it came to juniors, many new events began to take place and new forms started shaping. It almost seemed unbearable waiting for the day when the driver's license was finally in their hands. The time was coming soon to plan ahead for future goals in life

After the long, hard struggle, it was time to end the performance with the final act. Seniors everywhere remembered all the happy and sad times of the memories they cherished. A glow was shown on each face as they walked that final path and received that special paper they worked so hard for, and deserved so much

All this was possible in our 1985-1986 school year because YOU MADE THE DIFFERENCE.

# Where do we go now?

*Seniors face future and cherish memories*

**W**here do we go from here? This was a question that lingered in the minds of most seniors. There were many decisions to make, tests to take, and dreams to create.

For the seniors who planned to go on to college after graduating there were many things to be done. They were required to take the SAT and ACT tests, along with sending applications to the colleges they had interests in attending.

After twelve long years turned into nine short months seniors had to look back at their most cherished memories with that magical sparkle in their eyes.

# Actor receives awards

*“I Mark Brehm enjoys making people laugh*

**I**t's always been easy for me. I really like making people laugh,” and that he does and does well. Senior Mark Brehm has been acting since he was six years old

His older sister talked him into entering a talent show at Lafayette Elementary School in Phoenix. He lipsinked “Cover of the Rolling Stone” by Dr Hook, and that started it all

Since then he has played in at least 20 productions. This fall he played a boy who goes to annex land for his parents in the television show “Phoenix 2010.” He has also done some lipsinking and many theatrical roles

He enjoys playing comic roles and his favorite character was the part of Noodles in the play “The Five Rings.” It's the kind of role that takes over your personality,” Mark said

The play was done at Greenway in the

spring of 1984. That summer he played the same role for Center Stage, an Arizona performing arts school. Center Stage went on tour with “The Five Rings” for a month in the United States and Canada

Not only does he act but he also has experience directing, taping and was also the stage manager for the play “1985.” He received an award for his outstanding job in “1985.” He also received Best Supporting Actor from the Greenway Theater Society for his role in the play “Cindy Cinderella,” where he played a cowboy

As far as his plans for the future he is considering joining two professional comedians from Los Angeles. “I want to be James Brown when I grow up,” said Mark with a smile

# In love again

## *Bishop 'King' on the court*

**G**ame, match, and set are a few words that might be heard from Senior Kurt Bishop. Kurt is a very fine tennis player. He is currently ranked twelfth in singles and third in doubles in the Southwest for the 18 and under class. During the summer he was employed as a tennis instructor, teaching others what he has learned.

Kurt has a very busy life. "Between tennis, school, and my personal life, I do not get very much free time," said Kurt.

Even though tennis takes most of his time, he always manages to find time for his schoolwork. "If I didn't keep up my grades, my parents would not let me play tennis," he remarked. "It gives me an added incentive to do my schoolwork."

"No one is really a natural to tennis, it takes practice," he said. "If you practice hard and devote a lot of time to it you will succeed."

In the future, Kurt would like to pursue a career in professional tennis. "If McEnroe can do it then so can I," he stated jokingly.

# Just clowning around

*Students use talent to show love of Christ*

**I**t's really neat to see the expression on old people's faces when we visit their nursing homes. It's a good feeling to know that you're helping to brighten up someone else's life," said Senior Kymm Doss

If you have not already guessed Doss is a professional clown and has been for the last five years. Seniors Cherie Corey and Patty Hawn are also clowns. They all belong to the organization Clowns for Christ. "I got started through my church," said Hawn

All three have been to orphanages, hospitals, birthday parties and most important to the Nursing Homes. "I really enjoy going to nursing homes because they need the most cheering up," said

Doss

Being a clown involves a lot of hard work, it takes several hours to put on the make-up and clothes. Clowns are not allowed to talk but they get their message across through body language and facial expressions

When asked why they like being clowns Corey quietly stated, "I just like to make people happy."

Hawn said, "A clown is more than just making people happy it's showing love where it is needed."

They wish to continue clowning after high school and will hopefully travel to Japan, Hawaii and maybe the 1988 Olympic Games in Seoul, South Korea to participate in the opening ceremonies

# Girls State

## “Camp teaches government

It's hard to describe," Senior Susan Athey said about Girls State. Athey, along with Seniors Rene Bennington and Karen Weber attended Girls State in June

It was a week-long honorary camp that provided girls the chance to learn how government works. The activities consisted of running for city, county and state offices, and elections. Political parties existed to make the process more realistic

"I learned how city and state government works — individually and as a whole," Bennington said. She also said that one of the things she liked best was putting together the city book, which consisted of ordinances and a map, as well as other information about the city

The attendants were chosen out of 20 possible candidates. First nominations were made by junior English and U.S. History teachers. All nominees then filled out applications explaining why they wanted to attend the camp. Next the Honors and Awards Committee narrowed the candidates down to the three who went

Basically, "it's a place where you can go and have fun and learn at the same time," Athey said. "Even though we all came from different parts of the state, we ended up supporting each other."

# DECA leader honored

*Tom Cheng hopes to realize ultimate dream*

**S**enior Tom Cheng is definitely a successful young man. He was manager at Video 1, president of Greenway DECA, and he was ranked in the top ten of the senior class.

He has also received local and national recognition in the area of business, which he plans to major in at college. At Greenway he was named Business Student of the Month twice, once during his junior year and in September of his senior year.

"I want to be rich," Cheng said. His ultimate dream is to be able to retire at the age of 33 and do the things he wants to do. For example, he'd like to spend more time with his family and travel more.

Cheng was part of a group of students who toured Europe for a month last summer. "We had a great time," he said. "I just want to go back."

Throughout high school Cheng has been involved in many activities. He was on the freshman football team and sang

in the choir for two years. He's also a member of NHS and DECA.

Cheng placed eighth in the national convention for DECA, which was held in San Francisco. In order to make it to the nationals, he had to place in local and state conferences. In the western regionals, Cheng took first place in entrepreneurship. Then he took another first place in general merchandising at the state level. "In general merchandising, the judges give you a product and you have to sell it. Then they judge your performance on your greeting and sale, how convincing you are and how courteous you are," he explained.

Communications is Cheng's strong point. "I really like to talk, and I do well in that category," he said.

Cheng hopes to own a business soon. "I don't like working for other people," he said. But whatever he does in life, he's most likely to be successful.

# Getting involved

*Tsau proves to be worthy*

**F**ormer September Student of the Month, Senior Pei Tsau, was involved in many activities, but regrets not being involved earlier

"School spirit is especially important and everyone should get involved," said Pei

Pei has won many awards, trophies, and medals. She earned three gold medals in voice and instruments which she protects dearly

Pei is studying for a medical career and is doing an internship where she learns chemistry as well as being paid \$1,000 for the summer

Pei is also involved in the Arizona Model U.N. club. She is a new member and states the function of the club is to meet with people from different countries or nations from the different schools

Pei is from Taiwan and has been in the United States for over six years

Pei's advice for a successful four years in high school is to try hard and get involved

# Thrash and slam

## *Tensions released in board*

**T**he ramp stands alone in a back pasture awaiting a young skater to thrash and slam on its flat bottom

After nine years on streets and two years on ramps, skateboarding has become a major part of Senior Phil Harris' life

"Skating takes up most of my time when I'm not with my girlfriend Becky or studying for the Marine Corps," Harris said

Harris got started through his interest in the sport and as he got older, his friends influenced him to start skating ramps

Much skill and co-ordination is needed to skate a ramp and Harris has adapted his co-ordination through his two years of practice

"I skate as often as I can," Harris said. "I like to do it when I want to get out a lot of pressures, anger, and emotional problems."

Harris can perform backside airs, fakey rocks, rock-n-rolls, front and back grinds, roll ins, tail stalls, and secc slides

Concluding, Harris said, "I like it a lot and I will miss skateboarding when I go into the Marines, but I'll try and keep with it as long as I can."

# Enthusiastic ice skater

## Mellott works at reaching her life ambition

**D**uring her six years of ice skating, Senior Danette Mellott has won 13 trophies and 20 medals

Mellott has competed all over Arizona along with California, Nevada and Colorado. The Arizona Figure Skating Association sponsors the contests. The age group is from 14 to adults

Practicing from 4:45 to 6:15 a.m. at Metro ice skating rink, Mellott gives every practice her all. "Skating gets my mind off of everything and is a great workout," said Mellott

Danette's coaches were olympic skaters Roy and Sandi Wagline. "I would like to skate in shows for a couple of years then coach skating the rest of the time,"

said Mellott

Danette idolizes skater Scott Hamelton. "His style and personality is neat," said Mellott. "The biggest moment of my life of ice skating was meeting Dorothy Hammei and Scott Hamelton," said Mellott

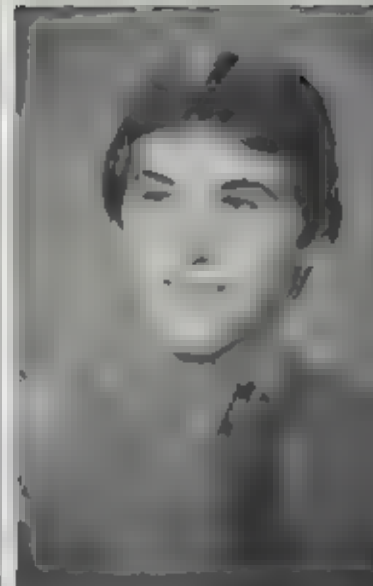

Metro Center, Tower Plaza and Ocean Side are the rinks that Danette prefers. "The neatest part of ice skating at Metro is that I am the only one who can do a double axel," said Mellott

Danette never misses any Ice Follies or Ice Capades. Another hobby of Danette's is gymnastics, but of course her favorite is ice skating

# Learning to be ladies

## Girls inducted into Phoenix Honors Cotillion

**W**hen little girls play, they sometimes pretend to be ladies with perfect manners and beautiful gowns who are just waiting for a handsome man to come along and sweep them away

Seniors Jenni Abbott and Keri Layton belonged to the Phoenix Honors Cotillion where they learned about etiquette and high society

"I think it's great," Abbott said. She described it as a class they attended once a week for two hours. During class they learned about etiquette, make-up techniques and how to buy the best clothes to flatter a figure

Girls enrolled in the Cotillion were also required to become culturally aware, according to Abbott. Once a month they attended a ballet or dined at a French restaurant

Another requirement was doing volunteer work. At least twenty hours mini-

mum was needed to complete the course. The young ladies received points for everything they did. Points were given for volunteer work and assignments, which included going to church, doing chores, and planning family outings, according to Abbott

The girl receiving the most points was chosen as debutante of a formal ball held April 2. "We got presented to Representative Eldon Rudd," Abbott said

Layton said that she really liked all the other girls she met at the classes, and that it was a good experience

"I think it's something good to experience before college because you learn all kinds of things about clothing and make-up," said Abbott. "But it's something that you get out of what you put into it"

# Boys State

## Students practice legislation

**F**our seniors attended Boys State last summer. Eric Bergstrom, Courtney Lowe, Steve Murdoch and Jeff Starr learned basically "how government works," according to Lowe.

All levels of Arizona government were put into practice, according to Bergstrom. These include the city, county and state levels, as well as party involvement.

Because Lowe and Bergstrom became a representative and a senator, respectively, they dealt mainly with the legislature. "I learned the most about how legislation works and how bills are made," Bergstrom said.

Murdoch recommends Boys State as a learning experience. All four candidates got something out of the week-long camp. For example, Starr discovered that he is interested in becoming involved in politics or possibly becoming a politician, while Bergstrom has decided that he will try to be a more informed voter.

"I had fun, but for some reason it seemed longer than a week," Lowe said.

# One step closer . . .

*Juniors portray magical spark, let loose spirit*

**O**ne step closer to their senior year, juniors showed a magical spark like never before in all they did. The campus flocked with juniors everywhere showing enthusiasm and pride toward their school.

Juniors let loose the spirit of the class of '87 by finally becoming upperclassmen. Many responsibilities were placed on juniors as they prepared themselves for their senior year. They had to choose classes that would help them get through that fourth and final year.

They also had the honor of planning and preparing the Junior-Senior Prom. They wanted to make the prom one that would not be forgotten. Most everyone would remember it as one of the special highlights of their high school years.

The class of '87 made a lasting impression in '86. Underclassmen looked forward to becoming juniors because of the fine examples the upperclassmen set.

# Harmon dances her way to the top

**T**hirteen years may seem like a long time to dedicate one's self to dancing but Junior Juli Harmon stated, "I love it! I've been dancing since I was three years old and I would never give it up."

Every summer her dance troupe travels to Las Vegas where they perform in an impressive variety of productions and are rated by a prestigious panel of judges. It also gives the young dancers a chance to meet some big, famous dancers and choreographers.

Juli manages to fit teaching a dance class along with performing an array of productions into her busy schedule which includes taking piano and voice lessons. She's also actively involved in various groups on Greenway's campus such as the student council and the swim team.

"Dancing really helped me out when it came to swimming," Juli added. "It kept

me flexible and didn't make my muscles so sore."

Juli's future plans has dancing on the top of her list, but whether she'll be dancing professionally or for her pleasure is still undecided.

Juli remarked, "If I was out in the danc-

ing world all by myself I would probably get lost. I'm continually learning something new and experimenting with different ideas. I'll just have to wait and see where dancing leads me."

## Miller's choice — medicine or stage?

**A**lthough acting is only a hobby for Junior Sean Miller at this point, it could turn into his lifetime career. If the stage turns into a rough road for him, Sean figures he will have a medical degree to fall back on.

During his sophomore year, Sean participated in the theater production of "The Five Rings" and later went on to tour with a group performing the same play. Although "The Five Rings" was a musical, his director said he would have a greater chance at success if he stayed away from musical productions because of his voice and that he should be able to get a lead part in a dramatic play or a comedy. The acting group toured Colorado, Wyoming, Nevada, Utah, and California last summer before returning to Arizona at the start of school.

Sean has many other interests as well. He has been involved in the wrestling program at Greenway. He wrestled his soph-

omore year in a competitive weight class and saw little action. He feels the coaching staff really has it together and hoped for a more successful season during his junior year.

Hunting is also a favorite pastime for Sean and this past season he got a 3x4 point mule deer near Williams, AZ. He has hunted turkey, deer and quail and hopes to some day be drawn to hunt elk.

As of recently, he has begun collecting knives and owns over 20. He stated that if he is shown almost any knife, he can tell if it is good or bad and why.

After graduating from high school, Sean hopes to attend USC or Penn State and become an ophthalmologist. As for right now, he feels Greenway is a good school and that he is getting a well rounded education from the wide variety of elective courses offered.

# Brewer catches fever

One of the hottest forms of excitement for the time is thrashing on a skateboard, and Junior Jerry Brewer has caught the fever.

To Jerry skateboarding is more than just a hobby, it's a way of life. Even his style of dressing is called "skate punk." He has put his time into building a ramp 2 feet wide and 10½ feet high. He began his project his freshman year and is now working on replacing the older worn-out boards.

Most of his time is dedicated to practice, either street skating or working out with friends on various ramps. Jerry hasn't yet competed because he said he wanted to be ready when the time comes. When asked about his parents' view about his way of dress and boarding altogether he said, "My mom thinks it's great. She even cuts my hair (skate punk style) for me. She's a good source of encouragement too."

Remember his name because one day Jerry may just be on the cover of **Thrasher** magazine.

## April Padilla: Breaking with talent

**A**lthough breakdancing in this area has faded, junior April Paddilla is planning to pursue a career in it. For the past year and a half April has been increasing her talents. Her brother and his friends got her interested and she began practicing. April gradually built herself up to a point where she wanted to perform. It took some time to find a place to dance but she finally joined a group called **Crash Crew** and traveled with them all over the state. They performed at several night clubs such as Tommy's, Strut's, and Gold Rush. The group also performed at the State Fair and danced at a Prescott club.

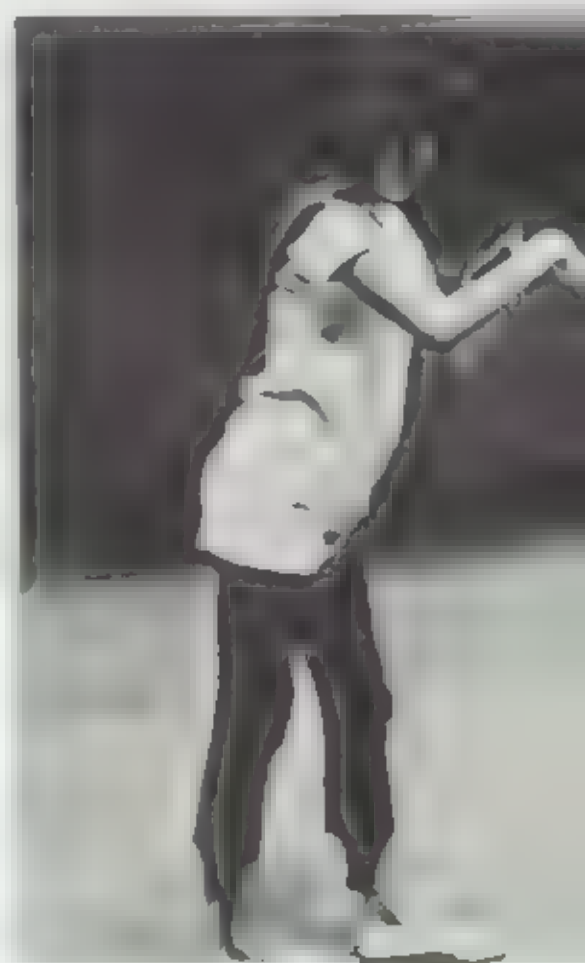

"At first it's scary, but after you relax, it's great," says April.

April plans to pursue breakdancing as a career and says there are still many teenagers interested in it.

The sort of music that's used is any kind of soul music with a fast, repetitive beat. This includes groups such as **Dougie Fresh**, and **L.A. Dream Team**. The group's outfits are red and black nylon which makes it easy to move on pops and spins.

"Dancing makes me feel so free. The crowd gets me going," said April.

# Sharing feelings, ideas a part of camp

**J**uniors Mark Donahue, Stephanie Guest, Tom Johnson and Kelly Sim attended Anytown last summer.

Anytown is basically "a human relations camp," Sim said. The candidates learned about people by sharing ideas and dealing with others.

"I learned a lot about myself, too," Sim said.

The theme for 1985 was **Educating Leaders for the 21st Century**. The candidates for 1986 were chosen on Dec. 17, according to Tony Helm, counselor.

Johnson's favorite part of Anytown was campfire. This was a special time where the whole group gathered together and sang songs and shared feelings, Sim explained.

In just one week, the candidates got to

know other students so much more than at home, Sim said. "Everyone was more will-

ing to share," she added.

## Ruther shows magical talent by winning

**T** hird! First! Best of Show! These are the many ribbons Junior Susan Ruther has won for various drawings she has done. Susan mainly does pencil drawings, but has also used acrylic paints

"I like to do my favorite musicians but I also enjoy doing horses," stated Susan

At the 1985 State Fair, Susan entered a pencil drawing of a horse in the Student Art Junior Division, and won First place

"I was real surprised that I won because my picture was up against some excellent

competition," said Susan

In the spring of 1985, Susan entered two of her drawings in the school's annual art contest, and won First along with Best of Show and Third places

In addition to her artwork, Susan also has one horse of her own and helps her sister with her two

Susan's aspirations for the future include becoming a commercial artist and maybe training horses on the side

# Special message in Bohlmann's music

**'D**on't be conformed  
Be transformed  
Renew your mind through his word

Don't compromise with the world  
These words, sung by the band "No Compromise," convey the beliefs held by the members of this Christian rock band. The name "No Compromise" reflects their desire to place Jesus Christ at the center of their lives.

They are not just any band, concerned only with making good music. They feel that it is just as important to convey a message as it is to play good music. Their theme is Christ-centered living and have found that a dedicated relationship to Jesus brings dynamic living, filled with a unique joy and confidence.

Junior Mike Bohlmann is a member of "No Compromise." He is one of the two

keyboard players and also sings for the group. Mike got involved in music at the age of seven by playing the piano and his interest grew from there. When he was 13 years old he bought his own electric keyboard. When he became a freshman he was able to use the Greenway Band's synthesizer. Being able to use both of these instruments gave him a lot of good experience. He was in one other contemporary Christian band but it never really got off the ground. Mike was also one of Greenway's two band majors this year.

Mike's involvement in "No Compromise" started in May of 1985. The main reason for the group's formation was because they liked the ministry and it was encouraging to be around other Christians who were interested in music. "We are interested in Christians who happen to be musicians, rather than musicians who hap-

pen to be Christians," said Mike.

Consisting of five members, the band has two keyboard players, Mike and Greenway Alumni Jeff Orr. John Wiest, a sophomore at Greenway, plays drums and the two guitarists are Mark Robinson, lead, and Dave Jones, playing bass.

The kind of music that "No Compromise" plays is high-energy Pop/Rock music and the songs they write are based on "the solid Word of God for the teaching of sound Biblical doctrine," as described by the band's statement of purpose. The group writes all of their songs and Mike has written a few himself. The group's first album came out in the spring of 1986.

Mike said that it will probably be a part time endeavor for now, but if he's successful it could be his career choice.

## Model's career is more than skin deep

After five years of posing in front of a camera and walking down runways, one would think Junior Shari Rigby would get tired of modeling. Although it takes a lot of time, Shari says it's worth it!

After being encouraged by a friend to begin modeling, Shari took a course at Barbizon Modeling Agency. She graduated from the Agency and began her modeling career. She has modeled in many shows. One of which was at the Jockey Club. At the Jockey Club, Shari was doing

runway modeling. In North Dakota she was a mannequin model for a major department store. For all the jobs she does, she is paid various amounts.

"I would like it (modeling) to lead to a career, but there's a lot of hard work involved," said Rigby. After contemplating on whether or not to continue in the endeavor, and weighing both sides, Shari decided to continue with her commitment to modeling.

# The halfway point

*Sophomores reach for different challenges*

**W**ith the anticipation of becoming an upper classmen, a feeling of security was finally felt by most sophomores. Having only three years left to worry about, there were more activities and clubs to get involved in.

There was still lots of hard work and studying to do, but with the friends already made, the ladder was easier to climb. Reaching the halfway point brought relief as all the awkwardness was gone.

# Using free time to help others

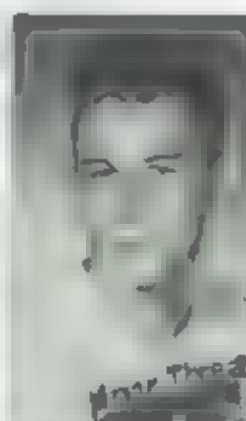

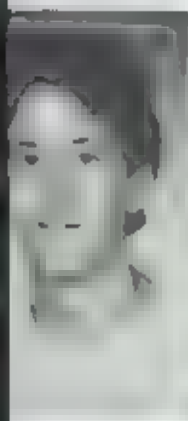

between her participation in school, Key Club, badminton, and church activities, Sophomore Heather Taylor also did volunteer work at St. Luke's Hospital. She helped patients to feel comfortable during their stay in the hospital.

"I was interviewed for the position last summer and have put in about 170 hours of volunteer time since then," stated Heather in December.

Heather is strictly a volunteer and receives no pay for her services. "My payment is having a patient give me a smile after I've helped them. That makes it all worth while," she said.

## Broadway lights, television attract sophomore dancer

Since she was seven years old, Sophomore Wendy Grant has been playing her vitality in dance. She has taken numerous classes in tap, ballet, jazz, and modern dance. She also supports Greenway school spirit as a member of the Pom Line. Wendy practices four days a week as a demonstrator for a dance class.

In 1984, she was in the Arizona Teen Talent Search and placed third in the state for tap dancing. "I met a lot of new friends from all over the state and got great TV exposure on Channel 3 with Mary Jo West," Wendy said.

At her dance studio, The Dance Shoppe, she auditioned for a Buster

Brown commercial. She did the commercial and got paid for it nicely. She made more friends and even some actors.

"I met Messy Marvin," she said.

Wendy has set very high goals for her dancing career. She plans to open her own studio and teach. She also has hopes of being a Rockette and performing on Broadway, or maybe dancing in *A Chorus Line*.

"I love to dance in a group but also enjoy solo so I can show people what I've got," she says.

Wendy said, "I just love to dance. I could dance until my tutu falls off!"

## Swimmer 'synchs' show

One of the newest and most graceful water sports known to teens today is synchronized swimming, otherwise known as water ballet. This is a sport in which well trained swimmers perform a routine with synchronized movements. They mirror each other exactly in ballet metaphor.

Sophomore Danielle Kenyon has taken a serious interest in the sport and is a member of a special team. She first began swimming on a team and decided to give synchronized swimming a try after attending one of their meets.

Every summer Danielle practices with her team Monday through Friday and sometimes on Saturdays.

It takes a lot of strength in the arms and legs to successfully make the skill look right," said Danielle.

These "water gymnasts" must use

good planning and concentration to be in step.

It feels really good when you finally come up for air and hear the applause," Danielle said.

At the end of the summer the team went on a huge show where they made a routine and performed for an audience. Danielle's team theme for the show was *Night At The Movies*.

The best part is our city championships when everyone arrives in costumes and the music starts. The show begins, all the work you put in pays off," Danielle.

She mostly performs for fun but wants to get a summer job as an assistant for the team and someday become a coach.

## Teen finds people reported to be missing

Quite often people wander away from campgrounds or their broken down automobiles. After walking a distance they find themselves lost. The police are then notified by a friend or relative that somebody is missing and a search and rescue squad is organized. Sophomore Russ Marsito is one of those called upon to help find people lost in the state's wilderness areas.

"My dad is in Search and Rescue," stated Russ, "and he told me about the Search and Rescue for Teenagers."

Russ has volunteered his services to the Maricopa County Sheriff's office and has been helping out for over a year and a

half.

Russ said he joined Search and Rescue because it looked interesting and like something he wanted to be a part of.

"This is a needed volunteer service, especially in this state with its many wilderness areas," said Russ.

The procedure is quite simple. Once a person is considered lost, a search area is designated and the ground trackers follow tracks until the victim is found.

"It's extremely rewarding when we find a lost child after several days and they are in good shape and health," stated Russ.

# On our way

## Freshman eyes opened to new experiences

**T**he many faces of the incoming freshmen were looks of excitement, yet puzzlement. It was a time for meeting new people and making lots of new friends.

Everyone looked forward to the next four years of pep assemblies, football games, dances, and lots and lots of hard work.

High school life was to be very different from grade school, and around the clock there were activities to get involved in, or just doing homework. Freshmen were on their way to a beginning of four new years to look forward to.

## Acting, oceanography interest Frosh

A hobby is something that someone takes a special interest in. But for Freshman Toni Culley, one hobby is never enough. She writes poetry, acts, hikes and has an interest in oceanography.

Toni has been seriously writing poetry for over six years. She was one of two Sunburst students who participated in the Washington School District poetry writing contest and she received an award for her participation.

She has hiked the Havasupai Falls as well as several other nature trails she has found. She keeps a journal about oceanography and the things she learns. She hopes that she can soon get involved in a

class about oceanography.

However, it would appear that Toni's greatest interest is in acting. She has participated in three major plays: "P.T. Barnum," "Ceigo Effect," and "A Christmas Carol." She has joined the Greenway Theater Society and recently helped out in the production of "Up the Down Staircase." She helped build their homecoming float on which she rode wearing a toga. Although she feels her acting is not nearly as good as professionals, she enjoys the feeling it gives her.

# Teen trains pop warner cheerleaders

**S**pending every day out in the burning sun with a rowdy group of 11 year olds may seem like a crazy idea to most people but Freshman Jennifer

Tarver, a pop warner cheerleader trainer thought every minute was worth it.

During the last part of summer, through mid November she would practice and

teach skills to the various girls preparing them for the football games held every Saturday.

Jennifer was formerly a cheerleader herself until her cousin DeAnna Down, an alumni and former cheerleader at Greenway encouraged her to be a trainer.

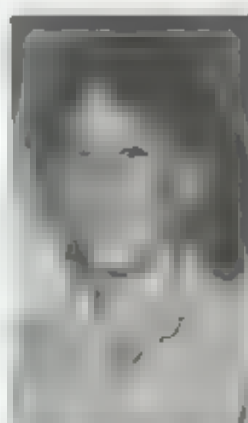

"This was my first year as a trainer," Jennifer stated. "It was really a lot of fun so I'm looking forward to next year."

She revealed that the young girls occasionally get on her nerves, but overall they were really cute and super to work with. She is however, relieved it's over for this time being. Jennifer feels she'll get bored now so she's actively seeking new ways to occupy her spare time. Her future plans include eventually trying out for Greenway's cheerline and to continue training other cheerleaders.

## Frosh breaks Lake Pleasant's record

Some of us have a little luck but others have none and still others have it all. We all have had our share of bad days and we also experienced the good ones too. Well, for one lucky student there seemed to be all the luck in one day.

Freshman Kevin Finley was sitting on the shore of Lake Pleasant on October 24, when all of the sudden there was a tug on his fishing pole.

"I wasn't expecting it, I thought it was going to be another one of those boring days spent fishing," said Kevin. He fought and fought and fought trying to pull in this

Even Rambo couldn't have done it better. Freshman Kevin Finley proudly displays his 10 lb. 4 oz. large mouth bass.

fish. "When I finally got the fish in my net it turned out to be a large mouth bass and weighed ten pounds and four ounces," he said.

Well, it turns out that the fish Kevin caught was the record fish for Lake Pleasant. "I didn't think that Lake Pleasant had a fish that big in it," he stated. Kevin tries to go fishing whenever he finds time enough to do so.

Some would call this luck, Kevin even does, but that much time spent fishing had to pay off sometime. "I just happened to be at the right place at the right time," said Kevin.

# Bohn working hard to be number one!

**A**fter seven years of practice and determination. Freshman Vanessa Bohn is still working full force

At age seven, Vanessa decided to try something new, something different, gymnastics was her choice. She went to Spisak's and joined a gymnastics team. Vanessa started out in the beginners class. From then on those seven years were filled with 16 hours a week of practice improving constantly.

Then, in January of 1985, all her hard work and efforts paid off. She won Second All Around in the state of Arizona. The meet consisted of four events, vault, uneven bars, beam, and floor exercise. The scores she received in these four events

were combined and earned her a second place medal.

After the meet, Vanessa would have been in Class II, but misfortune fell upon her while she was practicing on the vault. Vanessa chipped her kneebone and was unable to move on to Class II. Vanessa's future aspirations are to move up to Class I.

"It might take a while, but I won't give up," said Vanessa.

At the meets sponsored by the United States Gymnastics Federation (U.S.G.F.), Vanessa has also earned two trophies and 82 ribbons.

# Lavra leaves mark

Although still fairly young, Freshman Patrick Lavra has already made his mark at Greenway. He started out the year by running on the freshman cross country team and plans to finish it by going for track.

"I really like to run," said Patrick. "I've won a lot of 10 K's. In the Firebird 10K, I placed 11th in my age group."

He enjoys the great outdoors and he likes fishing, camp, hike and water ski. Amongst his hobbies, he also enjoys drawing cartoons and making Balsa wood airplanes.

## Freshman takes her dancing seriously

One very active student is Freshman Jessica Giehm. Although this was only her first year here, she jumped right into the swing of all the activities she could.

Jessica was one of the few freshmen in the Marching Band. She was considered a valuable member, and played the clarinet at all of the home football games.

Outside of school Jessica's interests were in dancing, which she had been in-

volved in for many years. She was active in tap, ballet, jazz, and also pointe.

She was also a very dedicated student. Jessica chose Spanish as her foreign language because she felt it would benefit her in the future. She was also enrolled in accelerated classes for English, algebra, and science.

# Freshman makes varsity wrestling

**C**huck Blassingame is no 98 pound weakling! He is one of the toughest wrestlers around

Living in Farmington, New Mexico for many years, Chuck began wrestling in the fourth grade. After six years of hard work and dedication, Chuck had a chance to be on the varsity wrestling team. He participated in a wrestle-off with another man to see who would make the team.

"At first, when I won, I was shocked but then I realized I had to work even harder to stay on the team," said Blassingame.

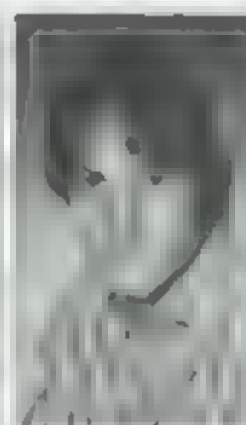

Wrestling three hours every day after school is a very hectic but normal schedule for Chuck.

"The varsity team this year is good and has a lot of talent. This makes it fun to be on," said Blassingame.

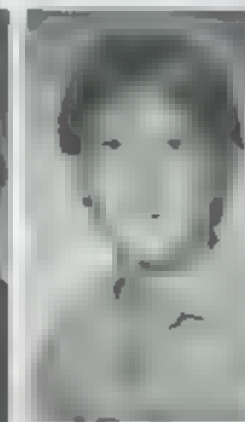

Chuck feels weighing only 98 pounds and wrestling for six years gives him a better chance against his opponent.

"One of my dreams would be to make it to the Olympics," said Blassingame. "It would take a lot of work, but would be worth it."

# Practice makes perfect

**I**t takes a lot of hard work and dedication to reach a goal and receive awards for it. Freshman Amy Buskirk has done just that.

Amy started riding at the age of 8 and began entering competitions at the age of 15. Amy rode ponies and quarterhorses. Amy's uncle owns many champion horses; therefore, she entered many competitions and received two first place ribbons. Amy's baby colt won these ribbons in a contest for unusual pets.

Not only does Amy love to ride, but she also cares about horses a great deal because they are good friends to her. Amy's goals for the future are to become a horse trainer and to get into barrel racing.

"I love horses," said Amy, "because when I ride I feel free."

# Administrators work toward perfection

**“W**e have a student body, overall, that is extraordinary,” said Principal Robert Sterrett, who has been promoted to an administrative position at the district office effective next year.

Mr. Steve Knight, assistant principal in charge of operations, explained it further. “Greenway is one of the most caring campuses,” he said. The teachers sincerely care about the students, and the students care, not only about themselves, but about others outside of the school, he added. The canned food drive, which grossed nearly 9,000 pounds of food for the needy, is only one example.

Mr. Chuck O'Connor, dean of students, summed up Greenway by saying, “super kids, great faculty, outstanding administration.”

The administration worked very hard to make the school the very best it could possibly be. Mr. Sterrett, who oversees everything, found time to be the major factor against him. Filling a large part of his responsibilities were curriculum review and staff evaluation. According to Mr. Sterrett, he could spend 100 percent of his time with just those two things, but he's lucky to get 85 percent.

Mr. Knight's main responsibilities included approving and directing student activities, making business decisions such as budget matters, and overseeing maintenance of the school. Things can go wrong very easily, he said. “You just have to be on top of everything.”

Scheduling, counseling and special programs all fell under the jurisdiction of Mr.

Jack Dillard, assistant principal for student services. He said that the most challenging aspect of his job was “to see that we offer a quality curriculum that meets the different needs of the students.”

The Special Effectiveness Team played a major role in the school. The purpose of the group was to assess the needs of the school and promote positive changes that will affect the attitudes of students and teachers, Mr. Dillard explained.

“We believe all students can learn, and all teachers can teach,” he added.

Mr. O'Connor feels he played a “fair, firm and friendly role” with the students. While enforcing attendance and discipline rules, he found that he often became a sort of judge and jury.

“I like the kids here,” he said, adding

that he treated them with dignity and respect, receiving the same in return.

Mainly the administrators like to see that Greenway is a positive climate. The students are “really decent people,” Mr. Sterrett said. Because of that, “we do things other schools wouldn't even try.” For example, most schools would never have a Winter Wonderland assembly or paint the buildings white.

According to Mr. Knight, 700 kids were cleared for athletics. “That indicates that they like what's going on,” he said. “The students get involved because they are proud of GHS, and we're proud of them.”

# Teacher of year nominee proves learning can be fun

*She has a great sense of humor which puts her students at ease*

Teaching students that learning can be fun is one of the major goals of Mrs. Bonnie Hoffert, who was nominated for Arizona's Teacher of the Year. Mrs. Hoffert has been teaching at Greenway since it opened twelve years ago and is presently teaching Freshman and Senior English.

Although Mrs. Hoffert takes her job very seriously, one cannot always tell by watching her. She has a great sense of humor which puts her students at ease. As one of her students said, she can inspire a great attitude toward learning by developing a comfortable atmosphere which, in turn, makes learning easier.

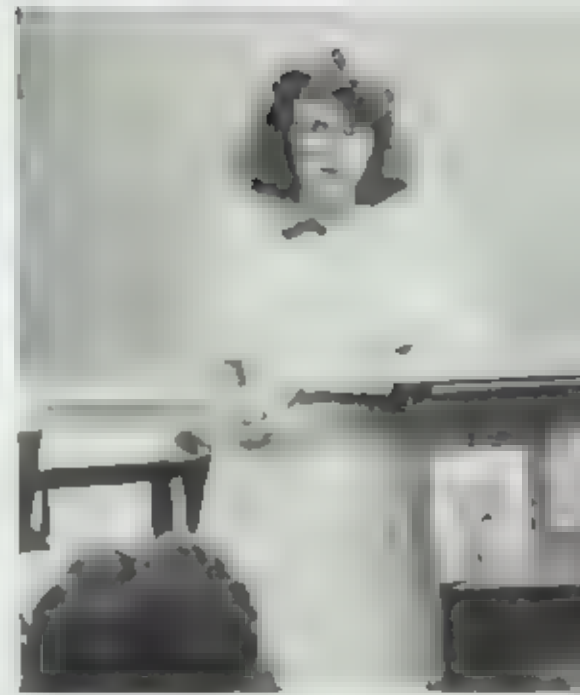

Mrs. Hoffert comes from a long line of

teachers, including her mother who teaches fifth grade and was nominated as North Dakota's Teacher of the Year.

Mrs. Hoffert found out in October that she had been nominated and later received a letter of congratulations from Governor Babbitt and a plaque at an assembly.

Mrs. Hoffert said she tries to do several things within the classroom. She tries to instill an important self-image within her students and show that the class is more than just English. She wants her students to know that there is a difference in her classroom and that learning can be fun.

# Opera star now teacher of English and fine arts

**M**rs. Ruth Dubinbaum is a highly respected teacher on campus and rightly so. She has sung in operas all over the world, has knowledge of six languages and has taught both students and teachers

Mrs. Dubinbaum, who was born in New York, began playing the piano at the age of six. Her first wish was to become a concert pianist, and at the age of 12, she began accompanying fine singers in music schools. "It was exciting," she said.

But a year later, she changed her mind. "I fell in love with singing," Mrs. Dubinbaum grew up under the influence of music; her mother had a beautiful voice and had wanted to be an opera singer. That encouraged her to sing professionally.

The first opera she appeared in was "Gypsy Baron", which was performed throughout the United States for six months.

She also spent three years in Germany, as an entertainer for the Special Services Branch of the Military for a year, and giving guest performances and studying privately with famous opera singers for the remaining two years. "It was a tremendous growth experience for me," she said.

She has sung the Wagnerian Operas as well as Italian operas. She studied on an operatic scholarship at the famous conservatory, the Mozarteum, in Salzburg, Aus-

tria.

As a very gifted singer, Mrs. Dubinbaum was the recipient of vocal and operatic scholarships all over the world. She was, however, academically, as well as musically, talented. Under a highly competitive situation, she was admitted to the High School of Music and Art.

Returning to New York, after traveling extensively in Europe, Mrs. Dubinbaum met her husband and fell in love. After she had two children, "I couldn't continue traipsing around the world." So she began teaching and starting doctoral work at Columbia University in the fields of education and music.

In the past she has taught mainly music to both students and teachers. Yet she has majored in English and German, and holds certificates to act as a counselor, principal and superintendent of schools.

Mrs. Dubinbaum's husband is a pharmacist. She is very proud of her two daughters. Gail, who was trained vocally by Mrs. Dubinbaum, currently sings with the Metropolitan Opera. Dawn is a successful businesswoman in New York.

With such a wonderful life, it's no wonder Mrs. Dubinbaum is so highly respected on campus.

Seniors Barbara Glenn, Christina Chase, Patty Hawn share a FUN moment in English 7-8 C. Mrs. Jeanne Genung's favorite word was "fun". **Photo By Miller**

**T**here's no doubt about it! Not even the world's greatest magician could pass all the quizzes and tests involved in academic courses without some basic hard work and studying to maintain good grades.

Without teachers, learning would never be possible or successful. Each had his/her own unique personality and every class was different.

Students put forth more effort in their studies and kept in mind how much it would all pay off in the end.

Students had the usual classes they were required to take along with special electives they could choose from. Some chose classes that would help to prepare them for their future careers, such as COE, DECA, and HERO. Others chose classes that would prepare them for their future in college, like the Advance Placement classes offered.

All in all, academics helped to individualize each student's personality. The classes they attended would reflect in their lives if their desire was great enough.

# Language studies vary

Language Arts classes opened up a whole new world of fantasy to students through literature. Freshmen studied *Romeo and Juliet* while seniors studied *Beowulf*. There were many different forms of English classes offered. Besides the required classes, Journalism, Theater Arts, Publications Production, and Speech were part of the Language Arts curriculum.

English students studied a variety of skills throughout the year. Freshmen stu-

Mrs. Bonnie Hoffert after a day of teaching English to her students. **Photo By Fletcher**

Senior Chris Zacek gives the camera a quick stare between lines of *David Copperfield*. **Photo By Fletcher**

Mrs. Robin Fisher-Terry talks to parents during open house night. **Photo By Fletcher**

ents practiced paragraph writing, reviewed grammar skills, and studied literature.

"I like the freshmen because they are excited about life and everything is new to them. It's too bad that seniors don't retain some of that excitement," said Mrs. Robin Fisher-Terry.

Sophomore students studied 12 different kinds of skills. These included phrases and clauses, subject-verb agreement, and multi-paragraph writing.

The junior program emphasized paragraph writing and literature. Seniors learned how to emphasize creativity, selective detail, and to use original thinking in their writing. Although seniors were not required to take English, many found that it helped them to prepare for college.

"The goal is to make the students stronger writers and help them become more responsible for their own writing," said Mrs. Peggy Gregory.

Several new English teachers joined the

staff: Mrs. Jan Dick, Mrs. Judy Schwiabert, Mrs. Yvonne Lopez and Mrs. Deanne Hutchison.

"From what I've seen, the staff and the students show a concern for their education, as well as for other people," said Mrs. Deanne Hutchison.

Afraid to look up Sophomore Jason Lincoln is overcome in Geometry. *Photo By Knack*

Mr. Larry Burgess lectures to his Basic Algebra class. *Photo By Miller*

Going over a problem, Mr. Michael Hughes makes a point to his Algebra class. *Photo By Miller*

If a student were looking for an elective to fit his schedule he could choose from about a 100 different classes. But if he were looking for a challenge, the choice could be narrowed to the Math Department.

The Math Department offered classes for students at all levels. From General Math to Advanced Placement Calculus, students' attitudes varied.

"I like math, so I decided to take A.P. Calculus and get the college credit," said Senior Steve Murdoch.

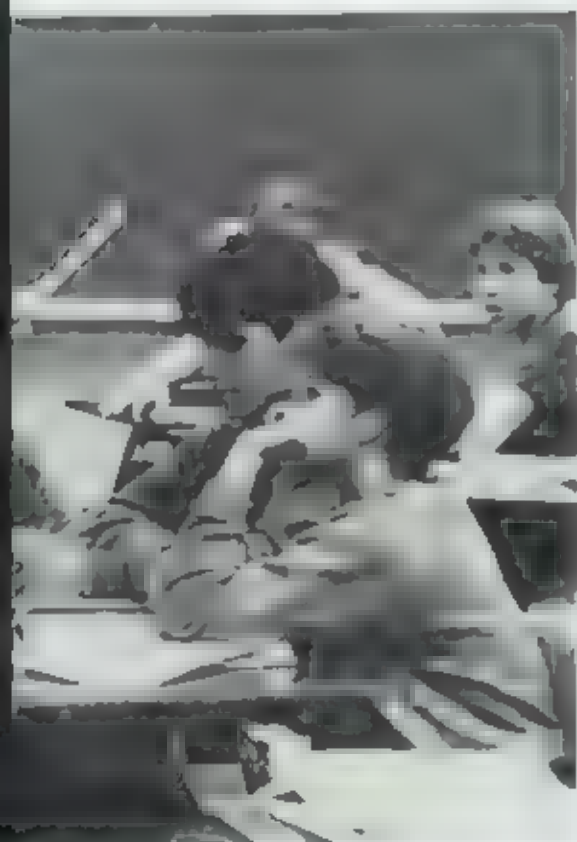

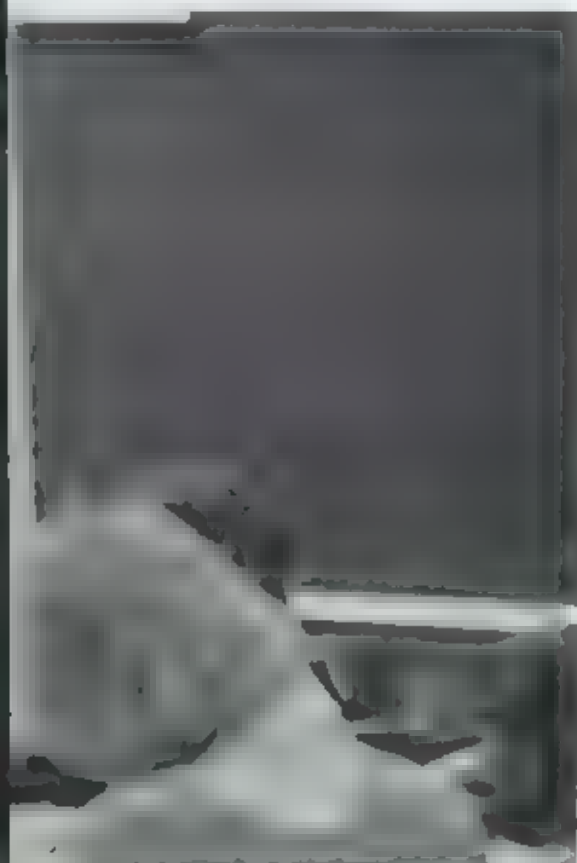

"Math! No way! I just took what I had," said Senior Robert Bartow.

Advanced Math students started the year by proving that  $1/2 \neq 0$ . "Students at this level should start to question assumptions like this," said Mr. Dave Hammer, department chairman.

"General Math strived to reinforce the basics by constant repetition and real world applications," stated Mr. Gary Traber.

"Geometry is hard and the concepts are hard to grasp, but the class is worth it, because we're here to learn," summed up Sophomore Matt Staheli.

*By Carl Best*

Serving the volleyball this freshman gives it all she has *Photo By Knack*

Freshman student shows good form to classmates  
*Photo By Knack*

The physical education program was rated better than most other schools because the students really got involved in the classes, according to Mr. Bruce Wilson, boys' P.E. teacher.

All freshmen were required to take Physical Education (P.E.), but few students complained. The P.E. classes combined strenuous workouts with more enjoyable activities to make a more successful program.

There were 14 freshmen classes with approximately 475 students enrolled.

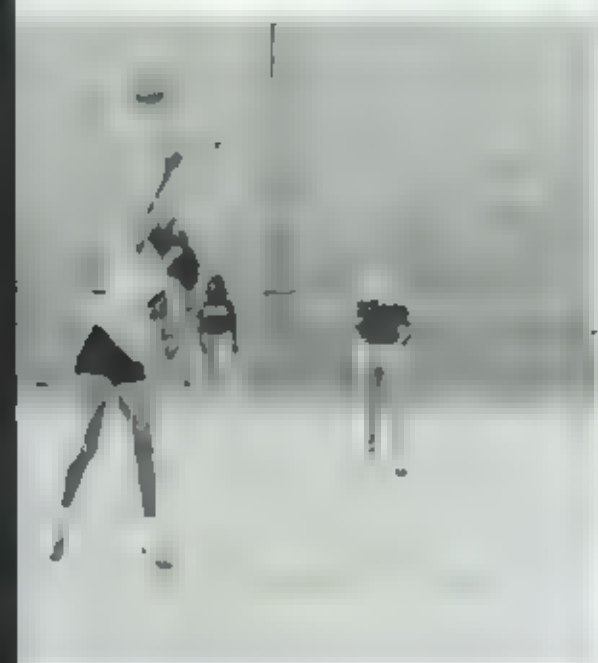

For freshmen, P.E. was a requirement, however, for upperclassmen, it was offered as an elective. Along with P.E. 3-4 & 5-6, Health, Systematic Conditioning and Modern Dance were also available choices.

Students in the advanced classes had a wider range of activities to participate in. These classes included a quick review of

the freshmen P.E. activities as well as a variety of new athletic challenges. Two additional activities offered to advanced students alone included archery and golf.

"The P.E. classes add a change of pace to an every-day schedule," stated Kym Doss, Student Leader. "And with the wide variety of activities, they provide something for everyone."

By Bryan Davis

# Students learn at varied science levels

With several of the classes required, the science courses offer the students a variety of challenges and vast information. Both students and teachers worked together to unleash the secrets of the science world. The challenges ranged from simple equations to complicated experiments

At the freshmen level, students were required to take their first year of science. They learned Earth science as well as physical. Dealing with weather, geology,

and measurements were the main concepts in freshmen science

"I wish there were less required science and more elective courses," said science teacher Mr. Michael O'Donnell

The chemistry classes encouraged students to learn by studying measurements and learning atomic structures. The class did many experiments that challenged its minds

"It's important to take chemistry not to just learn the content, but to think," stated

Mrs. Elizabeth Tataseo

In Biology classes, students studied scientific principals, such as cell theory and genetics. Students did many experiments and some dissecting

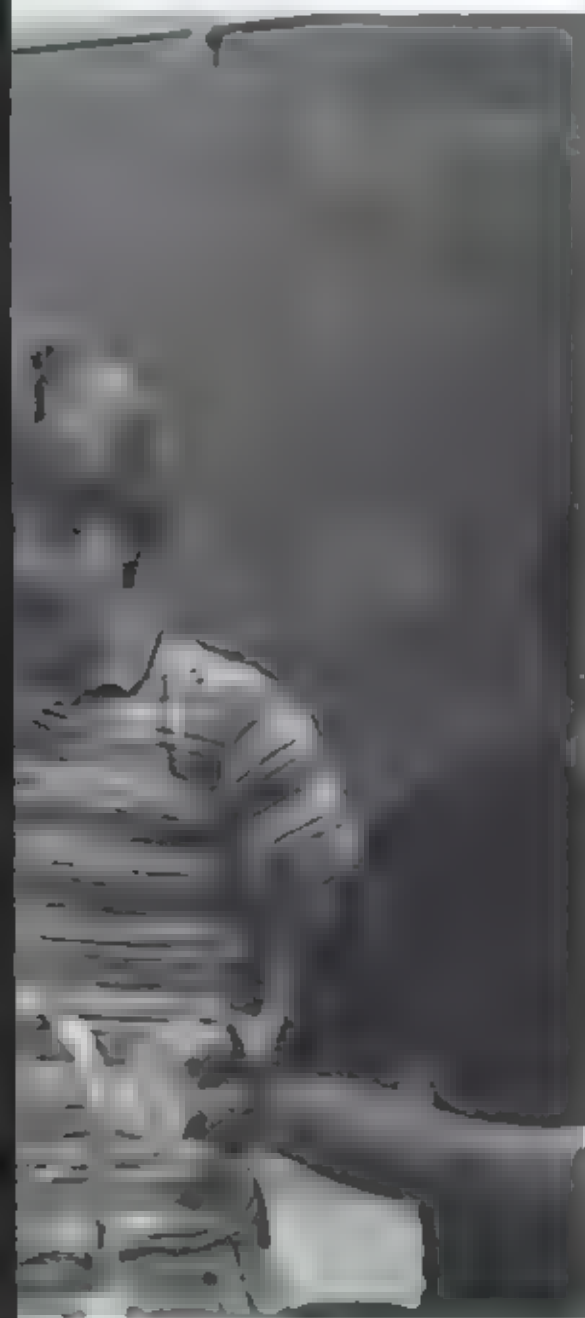

Physics classes provided students with an early start for college. They learned about light, sound, and heat

Some classes were more informal than others. Student interaction was one method used by teachers that brought about a clearer understanding of the more difficult subjects. *Photo by Fletcher*

**T**he stocks are up!" was a common cheer in U.S. History classes as students studied the era from the 1920s to the Depression. U.S. History was only one of several required courses in the Social Studies department. Other mandatory classes included World History and Geography, and Government and Free Enterprise. In history courses, students examined events of the past and related them to the current happenings of today. Mr. Larry also used simulation games to promote understanding in his classes.

For example the Salem witch-craft trials were acted out by his students, who also lived through the stock market crash of the Great Depression. While Mr. Also controlled the fluctuation of the stocks, students made transactions with "stock-brokers," or T A's.

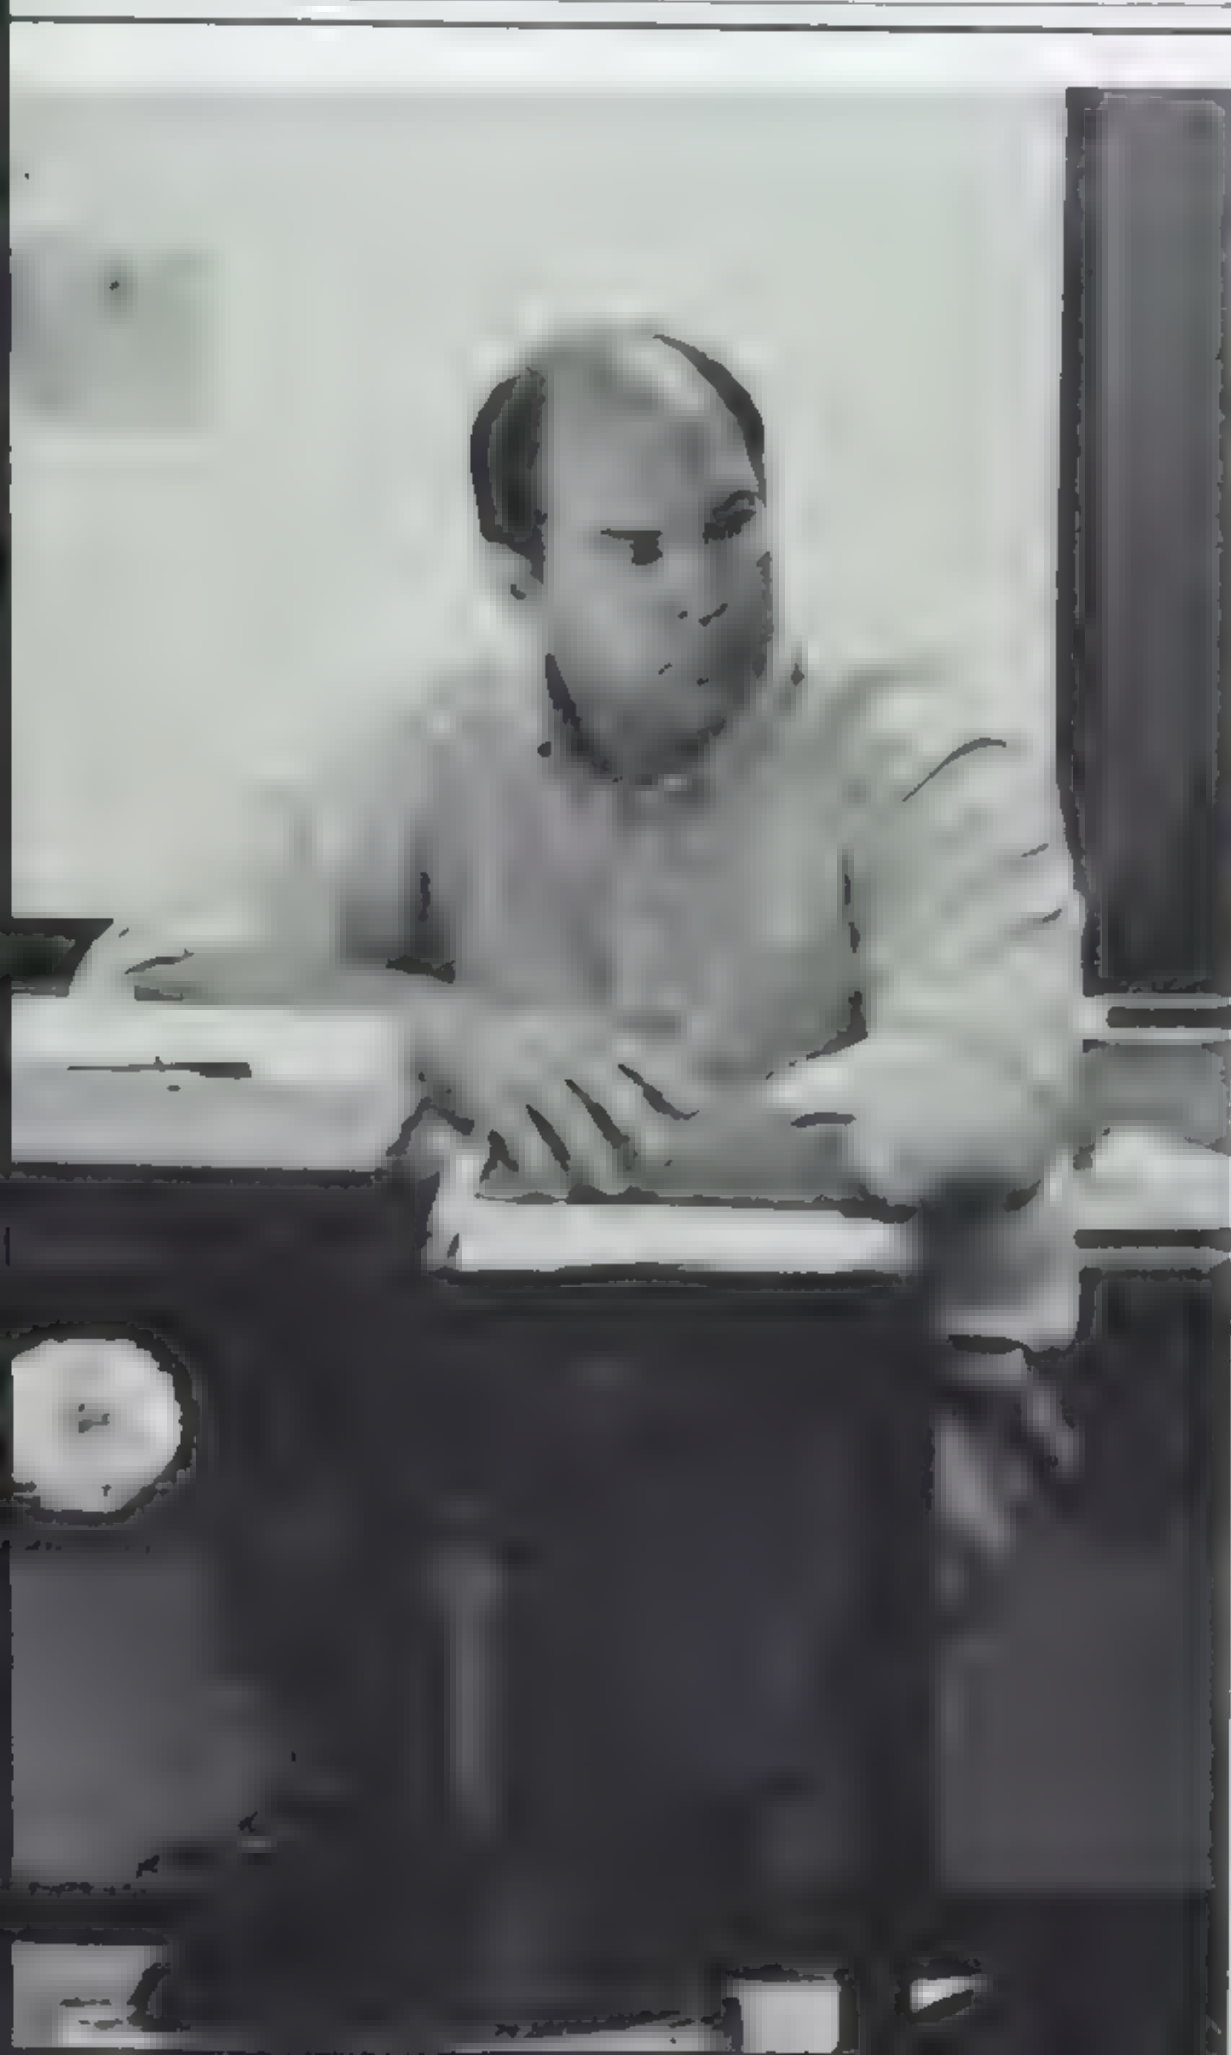

A pilot project called Mastery Learning was used in the government classes, according to Mr. Ben Barstad, government teacher. The purpose of the program was for all students to master the objectives set for the course. To do this a three-part or ganized method was used. It consisted of

basic instruction and testing, corrective teaching, and extension teaching.

For students interested in other areas of social studies, electives were offered. These were Man in Society, Geography of Contemporary Affairs and Psychology, the study of human behavior.

By studying about the past, students in social studies courses prepared for the future.

# It's some of your business

**T**welve classes made up the second largest business program in the state. Enrolled in these classes were students comprising at least 75 percent of the student body. Some students even took two or three classes.

"There are really good teachers here, and most students see real value in preparing for college," said Mr. Paul Schwiebert, business instructor.

Senior Becky Arbogast stays busy in Date Processing  
*Photo By Miller*

To make sure he knows what he's doing, Junior Smith asks a question  
*Photo By Miller*

The classes offered were Typing, Stenograph, Accounting, Shorthand, Data Processing/Business Machines, and Office Procedures.

"I feel typing will help me in the future, and in college it will help me type term papers," stated Junior Julie Scott.

Other classes offered were Cooperative Office Education (COE), Distributive Education Clubs of America (DECA), Market

ing, Merchandising, General Business, and Business Law, for those who planned on using their skills in a business.

"Half of the people in college major in business, and really no matter what you'll do you'll use business," said Mr. Schwiebert

# Learning job skills through Allied Arts

In the fast paced life of a high school student, there needs to be some time for the student to do something fun. The Allied Arts Department provides academic challenges, as well as the rewarding feeling of time well spent.

There were several areas to choose from, including: Arts and Crafts, Photography, Automotives, Drafting, Metal and Woods.

"We had to learn how the different systems of a car worked and also how

Going over the separate parts belonging to the drive train of a car is Mr. Ned Ellsworth. *Photo By Fletcher*

pair them," said Senior Richard Alva. Students in Autos 3-4 had open labs where they could bring in their own cars and work on them.

Arts and Crafts students had several projects throughout the year. "In Advanced Art we were allowed to do what we were best at, but we were also able to explore new areas of interest," said Sen. Wendy Agner.

Photography classes learned the correct way to take pictures and how to de-

velop them.

Metal's Students learned welding, forging metal, foundry, benchmetal, wrought iron, and machining.

In drafting, students had several projects to produce throughout the year. "My architectural drafting class had to produce a whole set of house plans," said Mr. John Trohan, the Drafting teacher.

Woods students learned to use the equipment and the tools of woodworking. The advanced woods classes built small

furniture, of their choice.

Allied Arts gave students the feeling of accomplishment, not only academically, but also from the development of many skills. Students who took classes in Allied Arts gained skills needed for many jobs in today's society.

# Success in skills improved

**T**he purpose of the learning skills program was to give individualized attention to each students' weak areas of study and improve their reading, spelling, and math study skills," said Ms. Sherry Green, chairman of the department.

The learning skills program consisted of students with all personalities. The class was open to all grade levels, but there was a selection process for entry. The average classroom contained six to eight students and the program totalled around 100 stu-

dents.

The basic study skills were taught to all students. These included how to take tests, to organize for projects and reports. The teachers also gave individualized help in content area work.

"Our hope is that we can help the students have a successful and enjoyable high school experience," said Ms. Virginia Roberts.

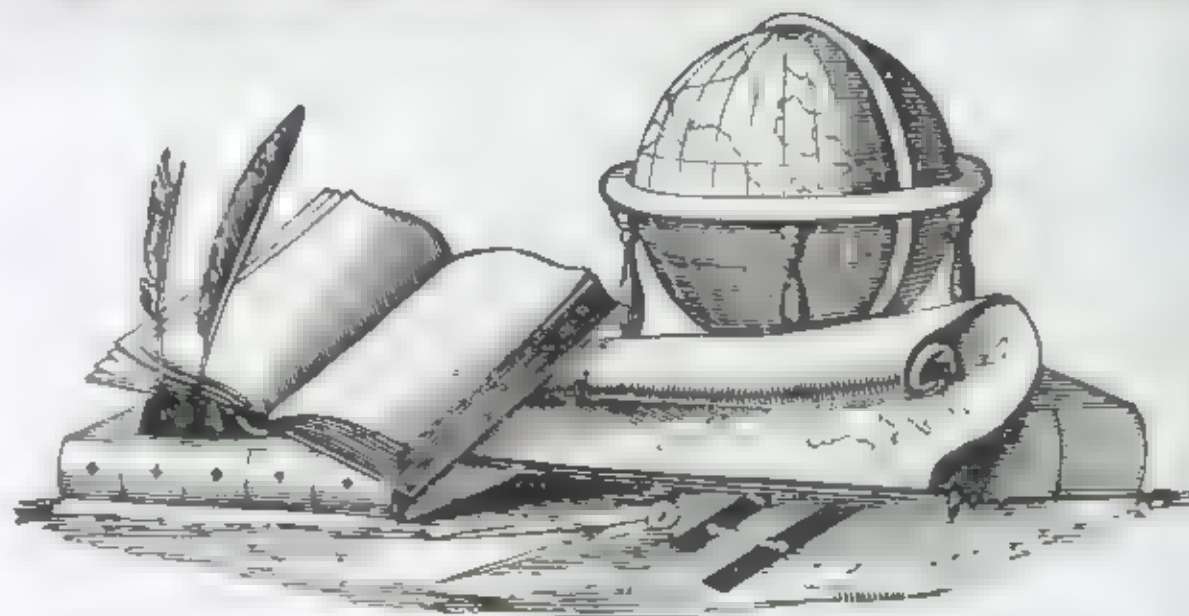

By Kymm Do

# Foreign lands, cultures brought home

Foreign lands and cultures are a mystery to most high school students, but the Foreign Language Department had the key to the world. Through the Spanish, German, and French classes students were introduced to some of the world around them.

"Mr. Kreitzman told us stories about France and the French people so we could get a feel for the country," said Senior Lauren Rhetta.

The average class consisted of thirty students, and they did more than just get to know the language. Many special activities took place.

"We video taped some of the original skits that the students created," said Ms. Rosie Rivero, Spanish teacher. "We also tried to include culture through native foods."

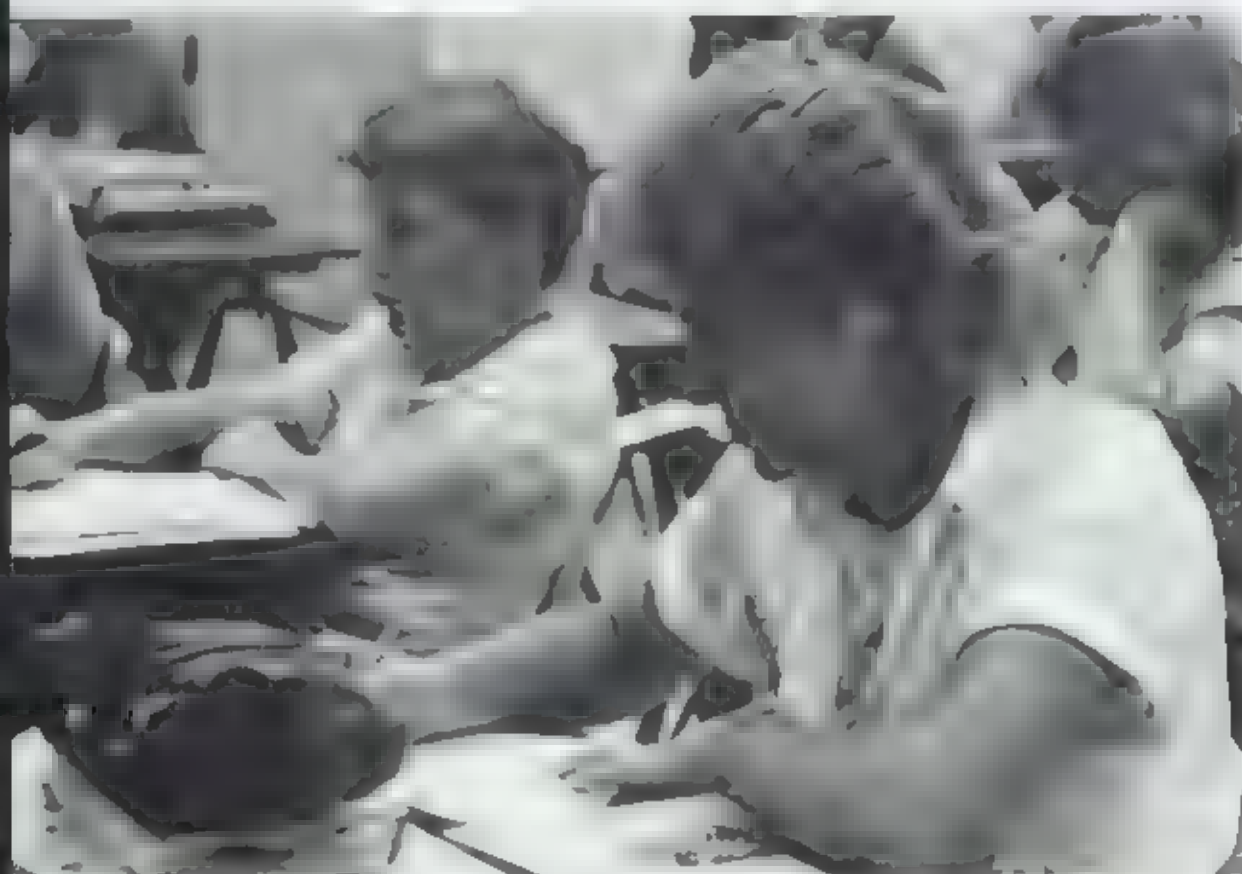

The Foreign Language Department had a new teacher added to the program.

Mr. Mark Heleker transferred from Thunderbird High School.

"Having a Spanish class will really help me out when I get to college, especially since I live so close to the Mexican border," said Senior Tracy DeCross.

The Foreign Language Department continued to carry on its success of interpreting the magical world around it.

# Class taught students tips on driving

**D**rivers Education was related to many different driving skills. The course included units on drunk driving, seat belts, general car maintenance, and many other important aspects to make ones driving much safer.

"It's a class that young drivers should take to make them more aware of proper driving fundamentals," stated the Drivers Ed. teacher Mr. Howard Mueller.

"Drivers Ed. has made me aware of all the crazy idiots on the road, and now I'm more careful," said Junior Jeff Newman. Behind the Wheel was an optional

course available through Drivers Ed. The cost was \$114 and was taken for nine hours before or after school, with one or two other students.

"It's a great experience for most of the kids if they are willing to adjust their driving habits at the instructor's request," Mr. Mueller commented.

Newman also said, "With many tips from Mr. Mueller, my driving skills have greatly improved."

# Life skills learned by future adults

Classes that revolved around everyday tasks fell into the Home Economics Department. These included Foods, Family Living, and Child Development

"It teaches us life skills," said Mrs. Nancy Klesner, Child Development teacher. In Foods, the students learned values of nutrition as well as preparing and eating their own dishes. Family Living taught students more about themselves and relationships.

"It's (Family Living) an interesting class and teaches a lot about your self-consciousness," said Junior Deanna Grammatico. In this class students had mock marriages and played the role of a family member. "To know the real you, you have to learn to like yourself before you can like others," commented Grammatico.

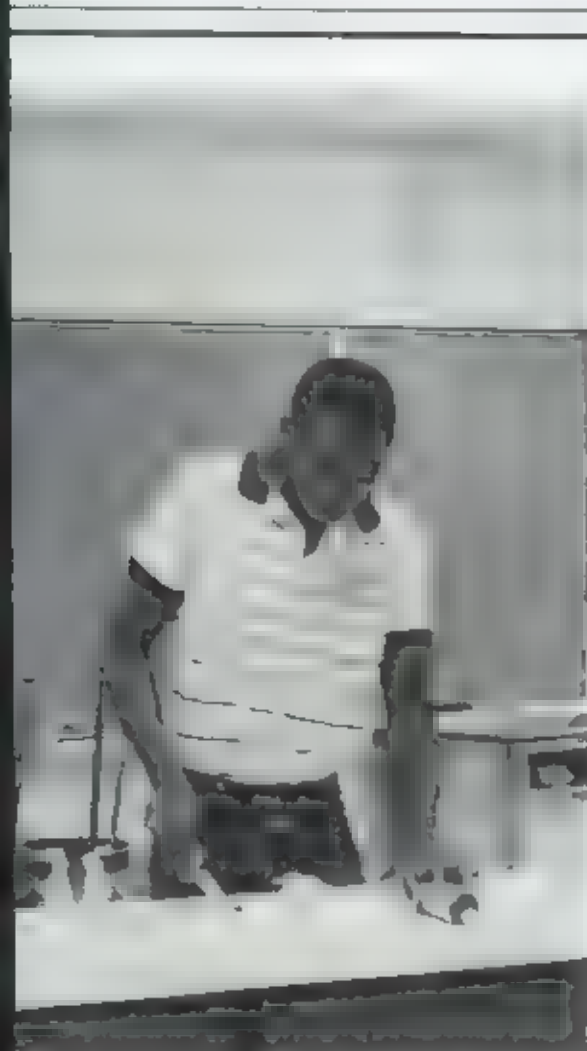

In Child Development students learned

how to deal with children. A month-long pre-school was an annual activity for Greenway's child developers, and this year was no exception! They had little kids come in and they played with, as well as, observed the mischievous little ones.

The HERO (Home Economics Related Occupations) program was a Home Ed, related occupation co-op course for students looking for careers.

Mrs. Klesner also stated, "Because of HERO's great success it's always been most enjoyable to me."

Determination for a unique layout is shown by Lisa Mrozinski *Photo By Miller*

Junior Kim Knack and Senior Dave Green show how they get along *Photo By Rodgers*

Each day an infinite number of memories are made. Capturing each one was the main goal of the Demonian staff!

Under the leadership of a new instructor, Mrs. Yvonne Lopez, the combination of new and experienced staff members proved their ability of creativity. Consisting of four editors, six photographers and fifteen staffers recommended by teachers, the class was responsible for the production of an outstanding yearbook.

"Making a book that students would like and also a journalistically sound publication" was the goal of the yearbook staff according to Mrs. Lopez, who brought seven years of yearbook experience to the class.

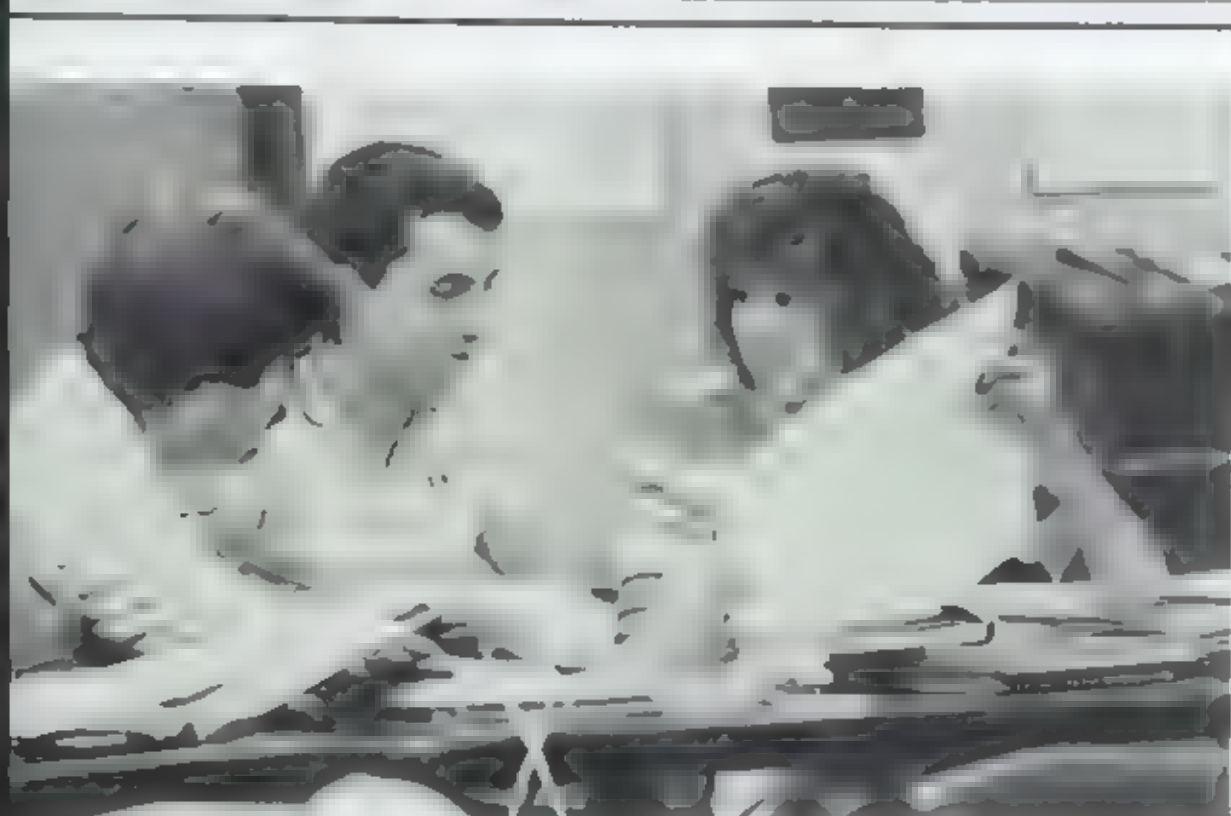

After the editors attended a yearbook camp, Senior Scott Anders felt he was "ready to tackle the challenge." Photographers took photo assignments and developed them, while staffers were able to conduct interviews, write stories and cre-

ate unique layouts.

The many ideas and hard work of staffers required a little more than just class work for an extraordinary yearbook. "It had to be a book full of life," stated Senior Karen Weber, copy editor.

The efforts of the adviser and entire staff made this challenging experience a very rewarding one.

*By Missy Sullivan*

**YEARBOOK STAFF** — Front Row: Lynette Weaver, Julie Larsen, Kymm Doss; Row 2: Amy Bowling, Sam [unclear], Dina Randall, Karen Weber, Wendy Agner, Robyn Back, Jennifer Vorwerk, Lori Iaquina, Aesa [unclear], Missy Sullivan, Bryan Davis, Mike Barnes; Back Row: Carl Best, Dale Fletcher, Duane Fletcher, [unclear], and Green, Scott Anders, Todd Fontaine. Typing a story to meet a deadline is Senior Rene Bennington, co-editor. Before stories could be sent to the printer, they had to be typed according to set specifications. **Photo by Green**

The *Demon Dispatch*, the school newspaper, had something it had not had in years. Money

During fall registration, students paid a \$2 fee toward the publication of the paper, as compared to only \$1 in the past. "We're one of the top schools in publications in the state, and our goal was to stay that way," said Senior Rene Bennington, co-editor. The extra \$1 a person helped the staff to reach that goal. For two previous years, the staffs of both the yearbook and newspaper together claimed the Sweepstakes award at the

Arizona Interscholastic Press Association (AIPA) Spring Convention. The Sweepstakes trophy was awarded to the school with the most total points in competitions.

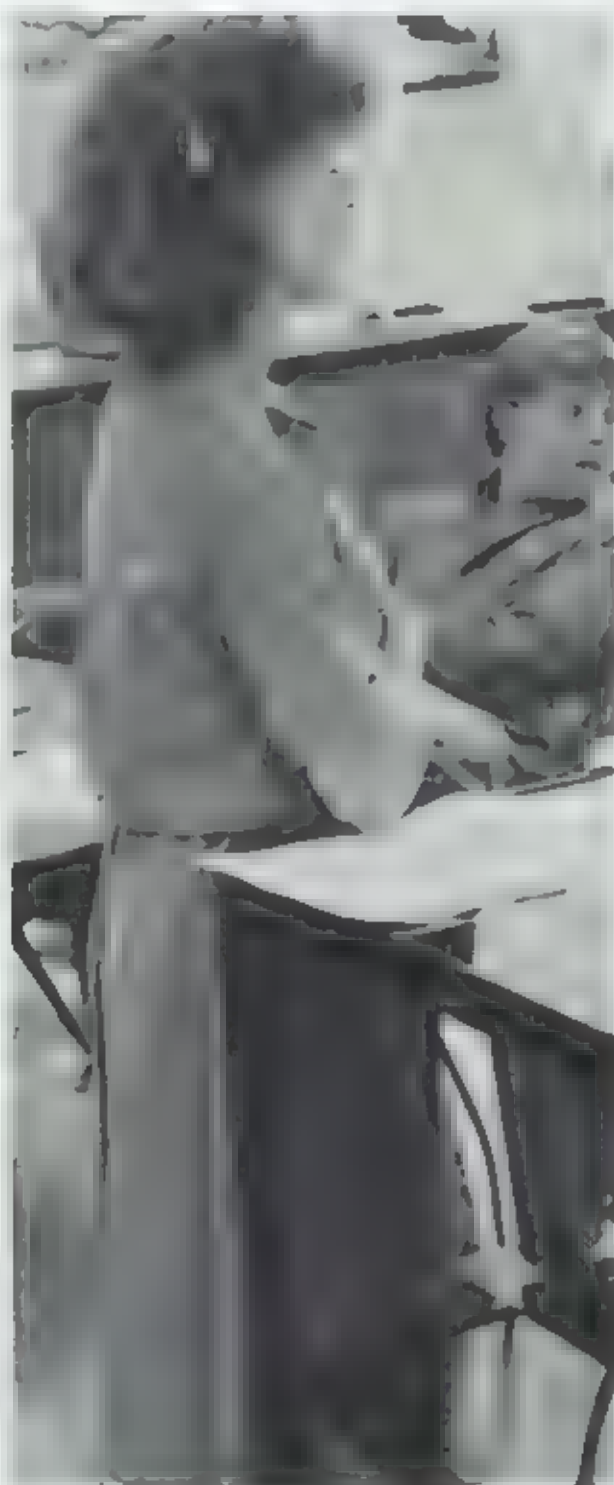

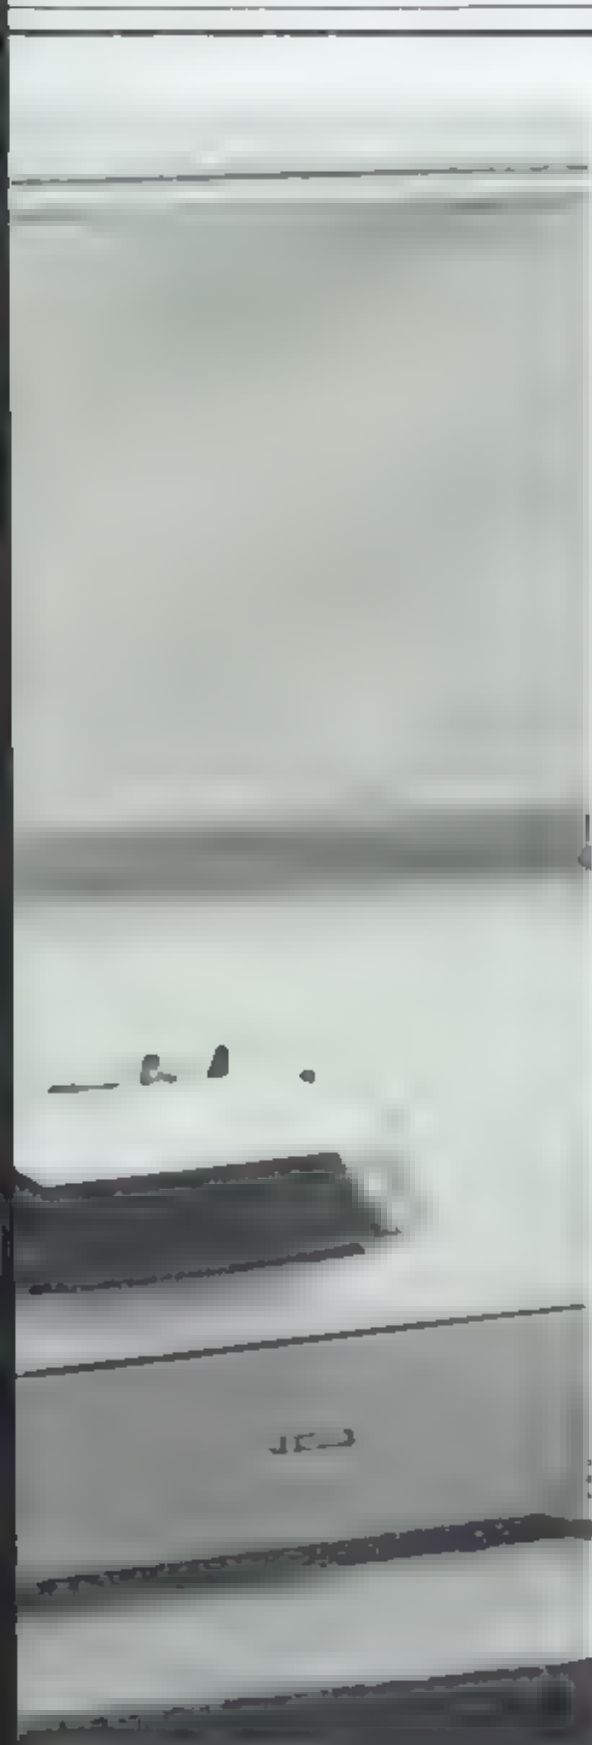

An even higher goal was set by the adviser, Mrs. Peggy Gregory. That was to win national recognition in Columbia Scholastic Press Association's evaluation of high school newspapers.

In addition to the staff, which produced an eight-page paper each month, two Journalism 1-2 courses were offered. These classes were designed to teach beginning students the basic techniques in

producing a high school publication. At the end of the year, the beginning students' skills were put to the test when they produced the parent newsletter.

One newcomer to the staff, Sophomore Nikki Yamashita said, "I was scared at first to do interviews. I didn't know what to expect." She also added that the adviser stressed the importance of producing a good paper.

# Common goal unifies marching band

**W**hat does one get when mixing a group of freshmen sophomores, juniors, seniors, mods, jocks, and preppies who work for the same goal? Maybe it's one way to describe the Greenway Demon Marching Band.

All of them were different parts of one working machine. Legs churning to a beat, turns made at a precise time, and shapes being formed out of 80 or more band members to the beat of the music. The programmer of this machine was Mr. Ed McQuade. He wrote the shows, helped to

pick the music, and rehearse the band to perfection.

The band received an excellent rating at ASU Band Day. "We try to build up for every show, each one better than the next before," stated McQuade. Other performances included NAU Band Day, The Thunderbird Invitational, and the state marching band competition. These shows were judged and the band received grades for their shows.

After marching season, the band shifted gears and began concert band. It was still

the same group, but it had a different purpose. "In concert band we try to increase our abilities, to be as proficient of players as we can, and to experience as many different styles, periods, and different composers of music as possible," said McQuade.

The band also took part in flag raising assemblies, and acted as pep band for the basketball team. Overall, the band was one spirited green machine.

# Band begins with left foot

*Flags win Grand Champion trophy*

Freshman Jessica Giehm watches the drum majors while performing a number *Photo by Fletcher*

Senior Bob Stolp and Junior Charlie Rehfeldt get into their solo while the band marches the drum break *Photo by Fletcher*

Here the band is seen doing the crossfield to the melody of Jesus Christ Superstar *Photo by Fletcher*

Maybe it's a play on words, but it is the truth. In fact, the whole band begins with their left feet. Before the flag corps could do this accurately enough, they had to attend flag camp over the summer, where they were taught routines and techniques to improve them overall. At the end of camp, they performed a routine in the Grand Champions

Tournament where they received the Grand Champion Trophy. This was given to the group or groups that received straight ones for their performance.

Throughout the year, the flag corps added color and feeling to the band. Through movements of the flags, the tempo and feeling of the songs performed were brought out. They really shined at

ASU Band Day where they received a one rating by the auxiliary judge.

Although they don't carry an instrument, they are and always will be a major part of the Greenway Band for many years to come.

# Building originality through unique style

**W**ith a combination of hard work and talent, there was no stopping the jazz band as they worked toward their three major concerts in November, February, and May. Along with this, other performances included those for churches, pep assemblies, and the annual Winter Wonderland assembly.

The band consisted of 20 dedicated members each with his or her own unique style which helped to encourage and build originality. "It was a good band. They worked hard with good attitudes and were willing to spend extra time out of class to become better performers," said Mr. Ed McQuade.

The main purpose of the band was to learn how to improvise and strive for better quality. This purpose paid off as was evident in the band's performances.

# Band creates personality with dedication

**T**wentynine fine young men and women made up the 85 86 intermediate band," stated band director, Mr. Ed McQuade. "The band has grown to be one of the more enjoyable bands I've had to work with."

The band was a young spirited organization and had willingness to work for goals that would make them better individual per-

formers

Their concerts included, like the jazz band, three major ones in November, March, and May

Skills learned in intermediate band included, music theory, posture, breathing techniques, along with many others. Most of the members worked toward becoming a part of the advanced band program

"As a group they had fun personalities, and along with this they had a fine aptitude to become better performers," said Mr. McQuade

# Chorus to see expansion in near future

A reduced amount of choral musicians from junior high schools has caused a time of rebuilding for Greenway's vocal program. The chorus program, which was once fed by four junior highs, is now only fed by one. This has caused a reduced number of members, resulting in only one chorus class offered.

The chorus is conducted by Mrs. Ruth Dubinbaum. "I look forward to the expansion of the choral music program as a re-

sult of the stabilization of Desert Foothills' music program," stated Dubinbaum.

This year's chorus consisted of 30 to 40 students, of sopranos, altos, tenors and baritones. These are the different types of voice tones that are used in chorus, sopranos being the highest and baritone the lowest.

"In all types of music, even if it is rock, country, or soul, they all take the same vocal techniques to give the proper vocal

effects," Dubinbaum said.

Not only singing takes place in a chorus class, however. The history of music is also taught. Students learned about the composers and origins of the songs. All in all, the chorus program was more than just singing. It was a challenge to the vocal musicians in all aspects of music.

**F**rom Student Council to the Humm Babes, being involved in clubs was one way students cast out their interests and abilities to enhance their school spirit

Promoting spirit and involvement was the goal of many clubs who took the time to participate in school activities. They held fund raisers such as the selling of new spirit items and, of course, the popular candy sales and dances

Not only did clubs provide enjoyment, but they also held a challenge for many individuals. Several clubs had competitions such as the cheer line, the chess club, and the speech club. In others such as the co-op clubs, students worked toward fulfilling their future goals with hands-on training in various jobs.

No matter what the club, each held its own important purpose. Officers were chosen to be the leaders and make the proper decisions with the input of the members

Once again, the magical wand touched another area of Greenway's glittering spirit

*By Michelle DeRuiter

# Creating spirit with pride

Starting off the year with a charge of energy, the Leadership class was constantly on the go, enveloping the school with Demon pride. Throughout the year student council members, under adviser Mr. Ben Barstad, promoted involvement in various activities with hopes of making the year an interesting and exciting one.

"We all became good friends," Junior Lori Iaquina commented. "We put our ideas together and made things happen."

Homecoming week was the peak of success according to Student Body President Kort Miner. The council had a variety of lunch time activities that pulled together the theme "Greenway Spirit Goes Back to the Future." The spirit that binded them

together echoed around campus throughout the year.

The members also worked a touch of magic in many family lives around the state. During the winter months they held their annual canned food drive and Adopt A-Family program at Christmas time.

Junior Julie Larsen felt student council had an array of enthusiastic and original ideas to help out the campus too. During the first week of school, students found them wearing their "Ask Me" buttons, offering their assistance to wondering Freshmen.

"We were an expanded family this year," stated Senior Lisa Mathison. "We became really close so it made the extra effort worth it."

"It was a lot more work than I thought it would be, but it was fun!" agreed Freshman Mike Salmon.

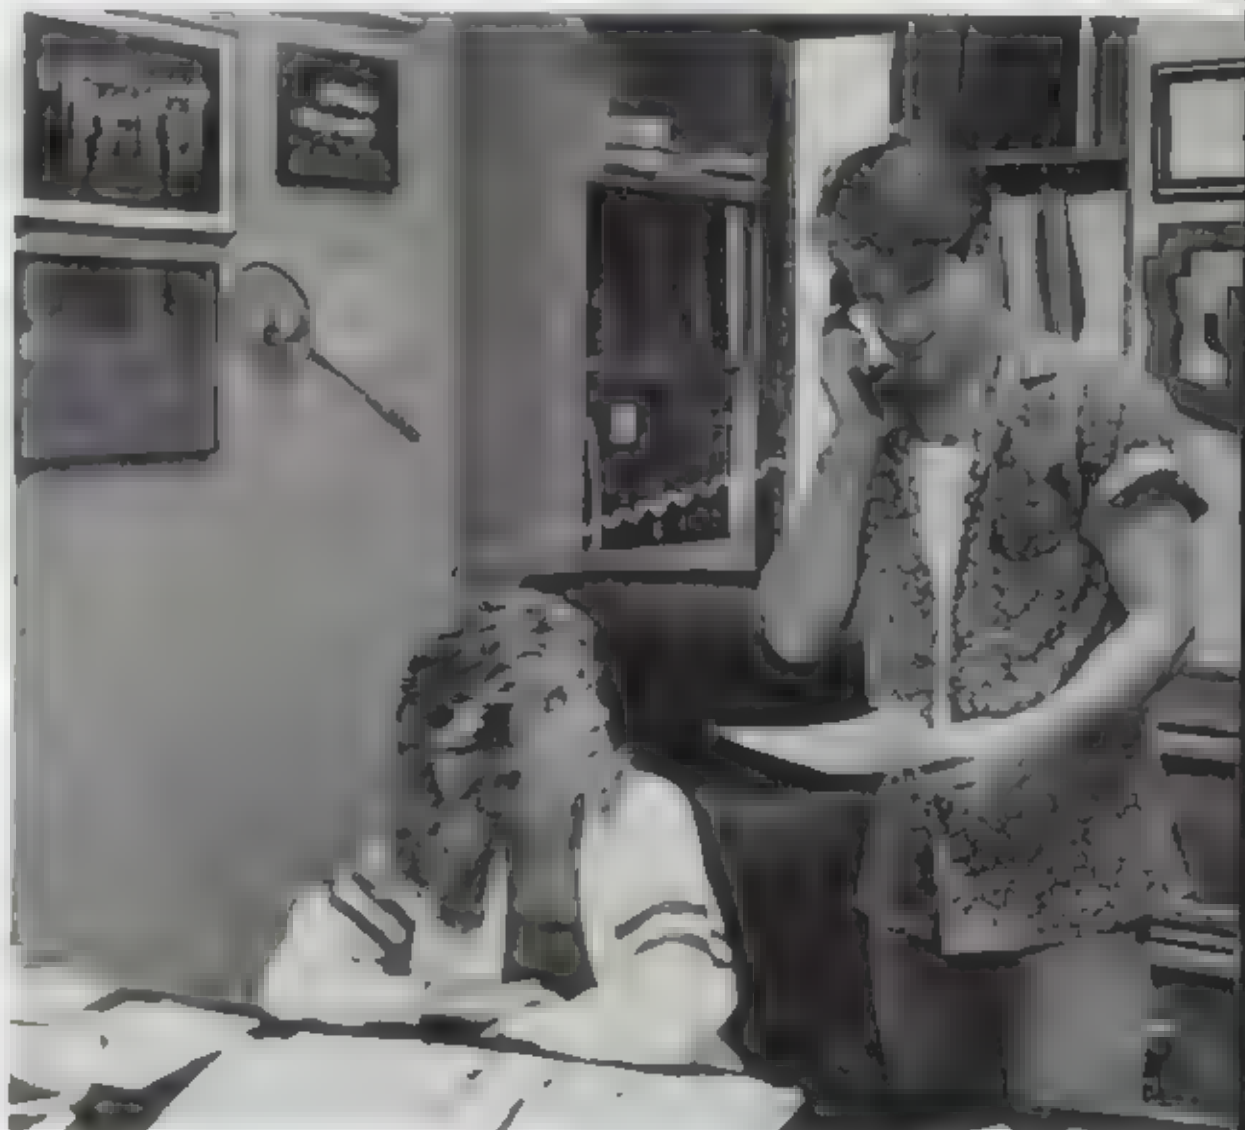

Together they developed a sense of Leadership, friendship, and responsibility. The group exemplified what Greenway pride was all about and emerged from the year unified.

# Success — A four letter word DECA

**T**he Distributive Education Clubs of America Program (DECA) was made up of 137 juniors and seniors. "Greenway's DECA program is the second largest in the state," boasted coordinator Mr. Pete Schwiebert

The juniors involved in the program totaled 107 while the senior population was only 30. The seniors in the club were a very select group that had been chosen from a much larger group of juniors enrolled in the program in the previous year.

Among its activities, DECA sponsored the Homecoming Dance and an anti-shoelifting campaign that was performed in Valley elementary schools. The club was also responsible for a very rewarding Muscular Dystrophy campaign. In addition,

the DECA program participated in the state competition in Tucson rivaling with marketing students from all over the state.

Students involved in DECA contributed much of their success to those in charge. "Mr. Schwiebert makes his class fun while providing us with an awareness and knowledge of marketing," stated Ty Moore, an eleventh grade marketing student.

"They (the leaders) were very dedicated to the program and gave inspiration to all DECA's members through the year," said Mr. Schwiebert about chapter president, Senior Tom Cheng and DECA's vice-president, Lea Chiariello. Gratitude was also expressed by Mr. Schwiebert for Senior Christy Chase. Christy re-

presented Greenway as one of the selected state representatives.

Mr. Schwiebert said that DECA students exhibited a serious attitude about their club and demonstrated it through their hard work and dedication. He felt the club had a very successful year and was looking forward to seeing many achievements from his students in the future.

"This club belongs to the students. They are in charge of it and run it themselves. They are an outstanding group of young adults," stated Mr. Schwiebert about his students in DECA.

# HERO today success tomorrow

OF YOUR TOMORROW...

HERO

HIGH

Fashion merchandising and child care were just two of the many jobs that students were able to participate in through Home Economics Related Occupations (HERO). It was a cooperative education work program where students obtained jobs that related to home economics.

This club has been part of the Greenway campus for five years and consisted of approximately 25 students. Each member held a job in such areas as child care, fashion, interior design, health care, and recreation.

Three of the HERO members held state offices this year. Senior Debi Merriott was state HERO president, Senior Ronna Preston was state secretary, and Senior Chellie Knutsen was regional senator.

"I would like to see the students devel-

op a good work attitude which will help them advance at any job," stated Mrs. Nancy Klesner, club adviser.

HERO's fundraisers included the Chocolate Santa Sale and the Hike-a-Thon.

Each year the club conducts a HERO week which involves an event for each day of the week. Among these were the Super HERO Day, teacher breakfast, initiation for new members, Staff/Teacher Day, and the M&M Guess.

"This was the best year ever," says Senior Kim Orgill, vice-president of public relations.

"I hope Greenway will never forget us," stated Senior Laura Brown.

# COE provides training

**C**OE proved to be challenging and worthwhile, according to Senior Tammy Woods, president of COE Cooperative Office Education (COE) was a program designed for seniors interested in office orientated job training COE was a class, as well as a club. Students attended school for half of the day and then went to work

In the program students learned interviewing techniques, human relation skills, how to operate various business machines, and how to get along with others. They also learned different office skills through their individual jobs.

The students raised money for projects throughout the year. In May, an Apprecia-

tion Banquet was held for all the employers.

At least one year of typing was required for COE. Students' attendance, grades, and over-all behavior were also factors in being chosen for the class. Mrs. Barbara Brody, COE sponsor, interviewed the students in January and limited the course to 25 students. "My job is to prepare young people to learn the many skills that will help them become employable in a very competitive business world," commented Mrs. Brody.

The students were sent on interviews for jobs that matched their career interests.

# Not just a speaking club

For those who were afraid to speak in front of a large group, the Forensic Society was a solution

Eleven students made up the Forensic Society, which was better known as the Speech Club

Some of the goals accomplished were, "Improvement in speaking ability, staying involved, and to have had a good time, as well as connecting the kids with school spirit," said Mrs. Marcia Lee, Speech Club adviser

In preparation to give a speech, it takes a

lot of hard work and determination," said Sophomore Andra Kay

In preparation for a speech, a student must first gather information on a subject that is interesting, second decide where to stand on the issue, and third memorize the eight minute speech

"It does get tiring, but it all pays off," Kay said

The goal of the club was to progress to state competitions, according to Lee

# NHS: The key to success

Applying for the National Honor Society (NHS) was almost like applying for a job for some students.

Three requirements that juniors and seniors must fulfill for NHS were to maintain a high grade point average, to be involved in some type of community service, and exhibit leadership qualities, according to Mr. Dave Hammer, NHS adviser.

"An eligible member goes through an induction ceremony where they are presented with a certificate and a candle, say a pledge, and then he's in," according to Senior Karen Weber.

"There were 45 students involved in NHS," Hammer stated.

The club's most important activity was to raise money for scholarships. Members sold mascot pins and calendars, and also sponsored a dance.

The members helped parents at Open House, directing all who were lost or confused.

At pre-registration, the members of NHS helped register incoming freshmen.

# Not just . . . another club

**T**he Model United Nations Club was a branch of a national organization consisting of students willing to dedicate much time and effort to cause they felt was of great importance. This cause was world peace. Each was given two countries to represent. Greenway represented Austria and the United Kingdom. The students researched these countries and their stand on world issues. They were also required to write a speech and prepare resolutions representing their countries. After much preparation, they traveled to the University of Arizona to debate with other students on major world issues.

This was the club's tenth year on Greenway's campus. Sponsor, Mr. Ben Barstad, has been with the club for ten years.

# Unique club for Greenway

The Foreign Legion Club is one unique club to Greenway. Its members include students from all of Greenway's foreign language classes. Coordinator, Ms. Barbara Bradley, feels the club is a social one, but also a great learning experience for its members.

"We study various cultures — their foods, their dance, and their customs," said Ms. Bradley.

During the year the club sponsored fund raisers such as a car wash and a candy sale to pay for their activities throughout the year. The Foreign Club also visited Nogales and attended the Oktoberfest held this fall, to experience different cultures.

Ms. Bradley feels that this was a good year for the club because of the participation and dedication of the students involved in the club.

# Lights, camera and action

**D**ue to the increased membership of the Theatre Society coordinated by Mr. Leo Sears, members were allowed to be more active and learn a specialized task in the field

With an average of 60 members, and only a small percentage actually acting, others had the opportunity throughout the year to learn the technological aspect of theatre

In order to raise funds for their trip to Los Angeles, the Society held a breakfast of pancakes, orange juice, and coffee for Greenway students, parent's, and faculty

The breakfast and book sale was a success, raising over \$200. "I really liked having a book sale along with a breakfast. It really made it more interesting," said Senior Tricia Herbert

This past year has been an active one for the Theatre Society and it's largely due to the membership enlargement. "I anticipate a large turnout for the 1986-87 year," said Mr. Leo Sears "I really think it's a good program."

# Student leaders, tough job

**T**hrough the years of high school PE classes, there are many different events experienced. The friendships made during class and the unusual sporting activities all made for better memories of Greenway. There are, however, a group of people on Greenway's campus that took these memories a step further, for they were able to become Student Leaders.

The Student Leaders at Greenway were almost like a T.A. They did the jobs that the

coaches couldn't do while teaching their classes. Jobs such as taking attendance, filling the pop machine, changing the gym marquee or counting PE department money were done by Student Leaders.

When the work is done though, the leaders get to participate with the PE classes. The Student Leaders position isn't just a job, it's an adventure.

*By Todd Fontaine*

# Demoticians boost spirits

**D**emoticians are one of, if not the most important part of a basketball game, other than the players of course. The Demos take stats for the team, as well as try to boost player's spirits.

There are three levels of Demos, freshman, JV, and varsity. The coach of each level is their sponsor. Before each game they always give the players good luck gifts, and try to do things to get them pepped up for the game.

"The reason I love to be a Demo is because I love basketball, and I have an opportunity to go to all the games and get

## while having a good time

really spirited," commented Senior Susan Athey.

Before the first game the Demos toilet papered the player's houses. This had spirits soaring sky high by the opening night of the season.

"The inner feeling bubbles inside when the buzzer buzzes. It is fun and never boring because we are always watching the game," stated Senior Lori Patton.

Only a limited number of girls can be

Demos. There are six on varsity, four on JV and six on freshman.

"It's neat because you can be close to the players and know every move of the game," said Junior Bethany Crocker.

The Demos are a lot of help to the basketball team, and have loads of fun in the process according to Athey.

# Wrestlerettes ignite Demon pride with spirit

**"P**in your man Demons, pin your man "

This is one of the chants yelled by the Wrestlerettes. However, the Wrestlerettes aren't cheerleaders, they're spirit raisers for the wrestling team.

There's a Wrestlerette team for each level of wrestlers, freshman, JV, and varsity. The Wrestlerettes provide a score keeper for each team too. The score keeper takes stats and keeps records on the players.

"It's a lot of hard work, but the fun times overshadow it," stated Junior Sandy Brooks.

The Wrestlerettes put a lot of time into boosting spirits at wrestling matches.

"It's a lot of fun being involved and supporting the wrestling team," said Co President Cathy Deanda. Every sport has their good and bad points, but this year the good definitely outweighed the bad for the Wrestlerettes as well as the wrestlers according to Deanda.

Along with hours of practice also comes the fun of getting to know the wrestlers.

There's lots of cute wrestlers, especially from other schools," added Junior Zenobia Chandler.

# Wrong impression given Chess is sport, not club

**T**he Chess Team has been an organized group at Greenway for the past nine years, however, its status as a team rather than a club has been a major concern for the group.

The members were quick to point out that they compete against other schools under AIA rules, have a paid coach, and receive athletic letters just the same as other sports.

Regardless of what they were considered, their major goal was to win games according to Mr. Middleton, the group's

coach. The Chess Team finished its season with an 11-2 record and went on to the state meet.

The team consisted of five varsity and five junior varsity members. Senior Pablo Pena played first board on varsity and was backed up by Senior Rick Parrott, playing second board. They practiced three days a week and competed from October through the state championships in April.

# Club provides idea exchange

**T**his school year brought the introduction of a new club to Greenway, the Computer Club. The club was open to any student who had an interest in computers. No prior computer knowledge was required to join the club.

The club was sponsored by computer teacher, Mr. Darul Hatch, who stated that Junior Ed Keene acted as president of the club over the twelve other members. The club met every Monday.

According to Mr. Hatch, the intent of the club was to have people with an interest in computers, meet and exchange ideas and computer information. The club worked basically with the Apple IIe set up.

*By Bryan Davis*

# Greenway pom spark pep

Once again the pom line maintained its high standards by earning the highest ribbon, Superior Plus, in competition at summer camp

The pom line attended the National Spirit Association camp at Northern Arizona University over the summer. Many awards were won by the line as well as each girl themselves. Spirit Sticks, trophies for spirit and a hard work plaque was won by the whole line. The awards were won by evaluating the girls on how well they performed. The ribbons were first place Superior Plus, second place Superior, third place Excellent, and fourth place Outstanding

"The pom line this year was spirited, dedicated, and fun to work with," said Ms Susan Brady, pom sponsor

The line choreographed their own dances. Practicing after school for a couple of hours was expected from every girl

"Pom line performed their own dances

at football and basketball games along with assemblies

"The line's enthusiasm and spirit helped out a great deal for our school," said Brady

"The pom line was a great asset to Greenway," said Junior Marsi Perrotti, "and always will be."

# Promoting Demon pride

Enthusiasm and dedication became part of the Varsity and Junior Varsity cheerleaders regular routine as they added more life and spirit throughout the basketball and football season.

We had a lot of energy on and off the field," stated Sophomore Missy Sullivan.

We depended on each other which brought about a sense of unity.

Both cheer lines attended a camp at NAU bringing home various awards, ribbons, and a spirit stick. Team captains for the Varsity line were Seniors Kathy Whitaneis and Jill Womack who did a "great job of holding things together," according to Junior Kathy Knox.

Many football fans agreed that their overabundance of energy was apparent from the stands. Junior Kerstin Horton felt that the line performed better and was more spirited depending on the crowd's response.

What was the key behind their cheering success?

"Practice, practice, practice," stated Senior Jill Womack. "We tended to disagree a lot, but things always turned out really good in the end because of all the great ideas brought up."

The cheer sponsor, Ms. Marvyn Stefens, concluded that although cheer was a lot of hard work, each girl was uniquely talented and deserved credit.

# Babes hum their team to success

**M**any students went to the baseball games to cheer on the teams but there was a group of girls who did even more than that

This group was the Humm Babes. These girls took statistics, ran the concession stand, operated the scoreboard and announced the games. Actually, they did whatever was needed to help out the team.

The club, which was sponsored by Mr. Ted Blake, has existed for seven years. Mr. Blake said that he chose the name, which comes from an old baseball cliché meaning a hard-throwing pitcher.

Because of the time and effort of these dedicated girls, the baseball games ran much more smoothly.

*By Karen Weber*

While Freshmen Michelle Palmer and Nadine Loo hold the finish line, Sophomores Angie Hamlin and Jill Goodell and Freshman Aida Plancher are prepared to take down the scores. **Photo By Rodgers**

# Girls run track meets

**“W**ithout the Spikettes, track meets wouldn't run smoothly,” said Mrs. Beverly Price, sponsor.

According to Senior Theresa Greenwood, Spikettes is a very worthwhile organization. Its members supported the track team by running the meets. They did all of the “running around,” like getting scores and reporting them to the scorekeepers, measuring distances, holding the finish line tape, and running the concession stand.

“We aren't out there just to be cute,” Mrs. Price said. “There are a lot of things

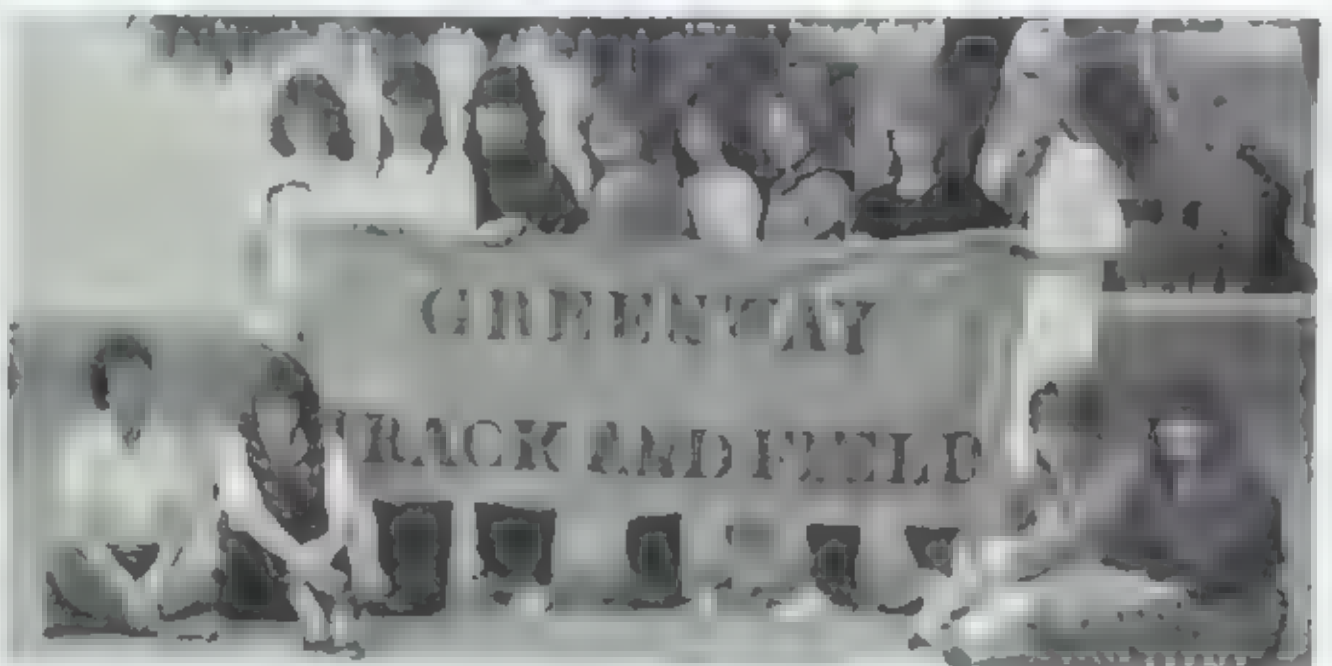

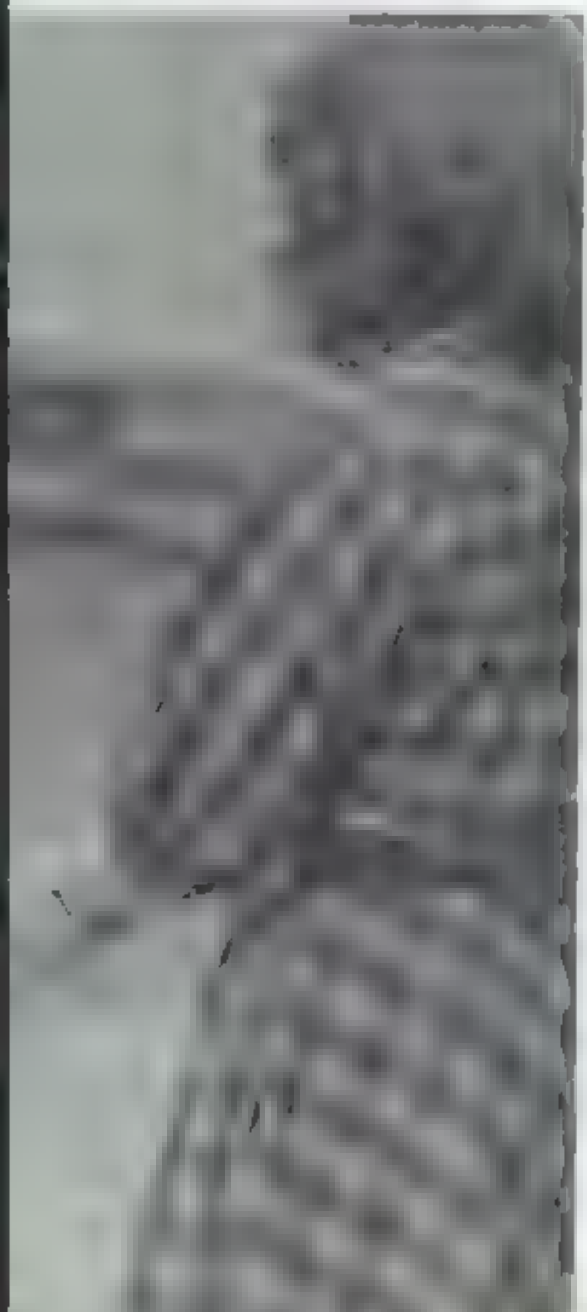

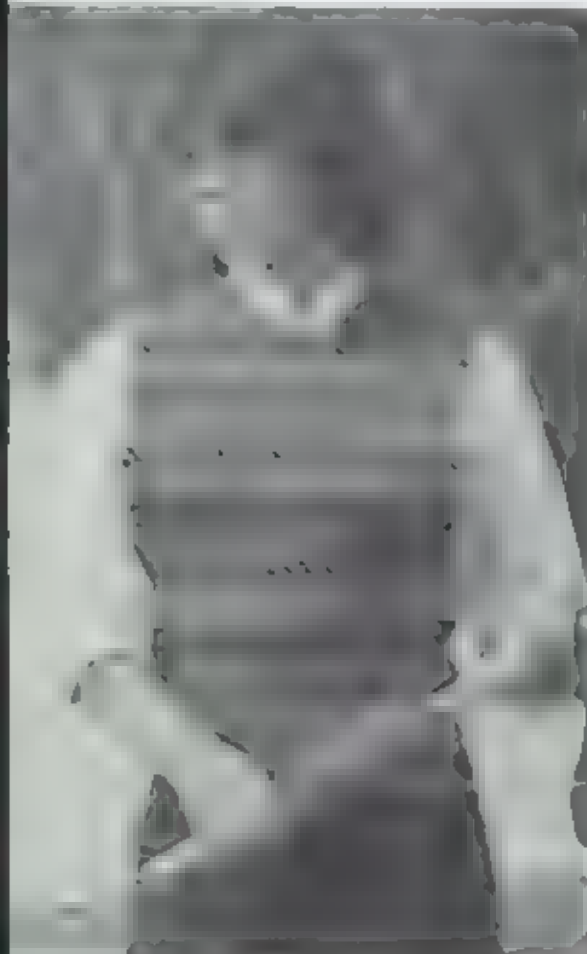

to do.”

This year all of the members were girls, but there have been some “spikes,” as the guys are called, in the past. No matter what, they could all be depended on and they all had a chance to earn a letter.

Although the Spikettes have been around for twelve years, a lot of students don't even know they're there. “We hide behind the track team, give them a little support, and have a lot of fun doing it,” Greenwood said.

# Key Club benefits community

**"K**ey Club gives members a feeling of accomplishment and pride in their community," said Senior Juston Parker.

Key Club is the high school level of the international Kiwanis Club. The objective of the club is to benefit the community by donating their time and energy toward community service.

Toward the end of each school year Key Club has a "Member Drive" where new members are invited to join. Members participate in club sponsored activities over the summer.

"We get together to play volleyball, go bowling and other fun things like pool parties.

This helps us to get to know each other," said Club President Vicki Kilbourn. Over the summer each member made it a goal to donate approximately 50 hours in community service.

One of the activities Key Club sponsored was the Blood Drive held here on campus twice a year. "Students and faculty gave about 80 pints at both drives," stated Kilbourn. Members helped out at events like Special Olympics, book sales, visiting nursing homes and answering phones at telethons.

Key Club is not all work at Christmas. Senior Juston Parker played Santa at the Children's Hospital. "I had a great time, it

was a lot of fun," said Parker.

May was the time of the District Convention. It was held here in Phoenix. Clubs from the Southwest met to discuss fundraising projects for next year and to elect district officers.

"Membership is on the rise with over 300 due-paying members," said Senior Jennifer McAndrew. "I think once students understand what Key Club is all about it would be one of the largest clubs on campus," said Kilbourn.

# Club challenges the mind

**“U**sing your mind to overcome your opponent, that's what this club is all about,” said Junior Dennis Willson.

Strategic Gaming Club combined both board and role playing games to escape from reality into the world of imagination and adventure.

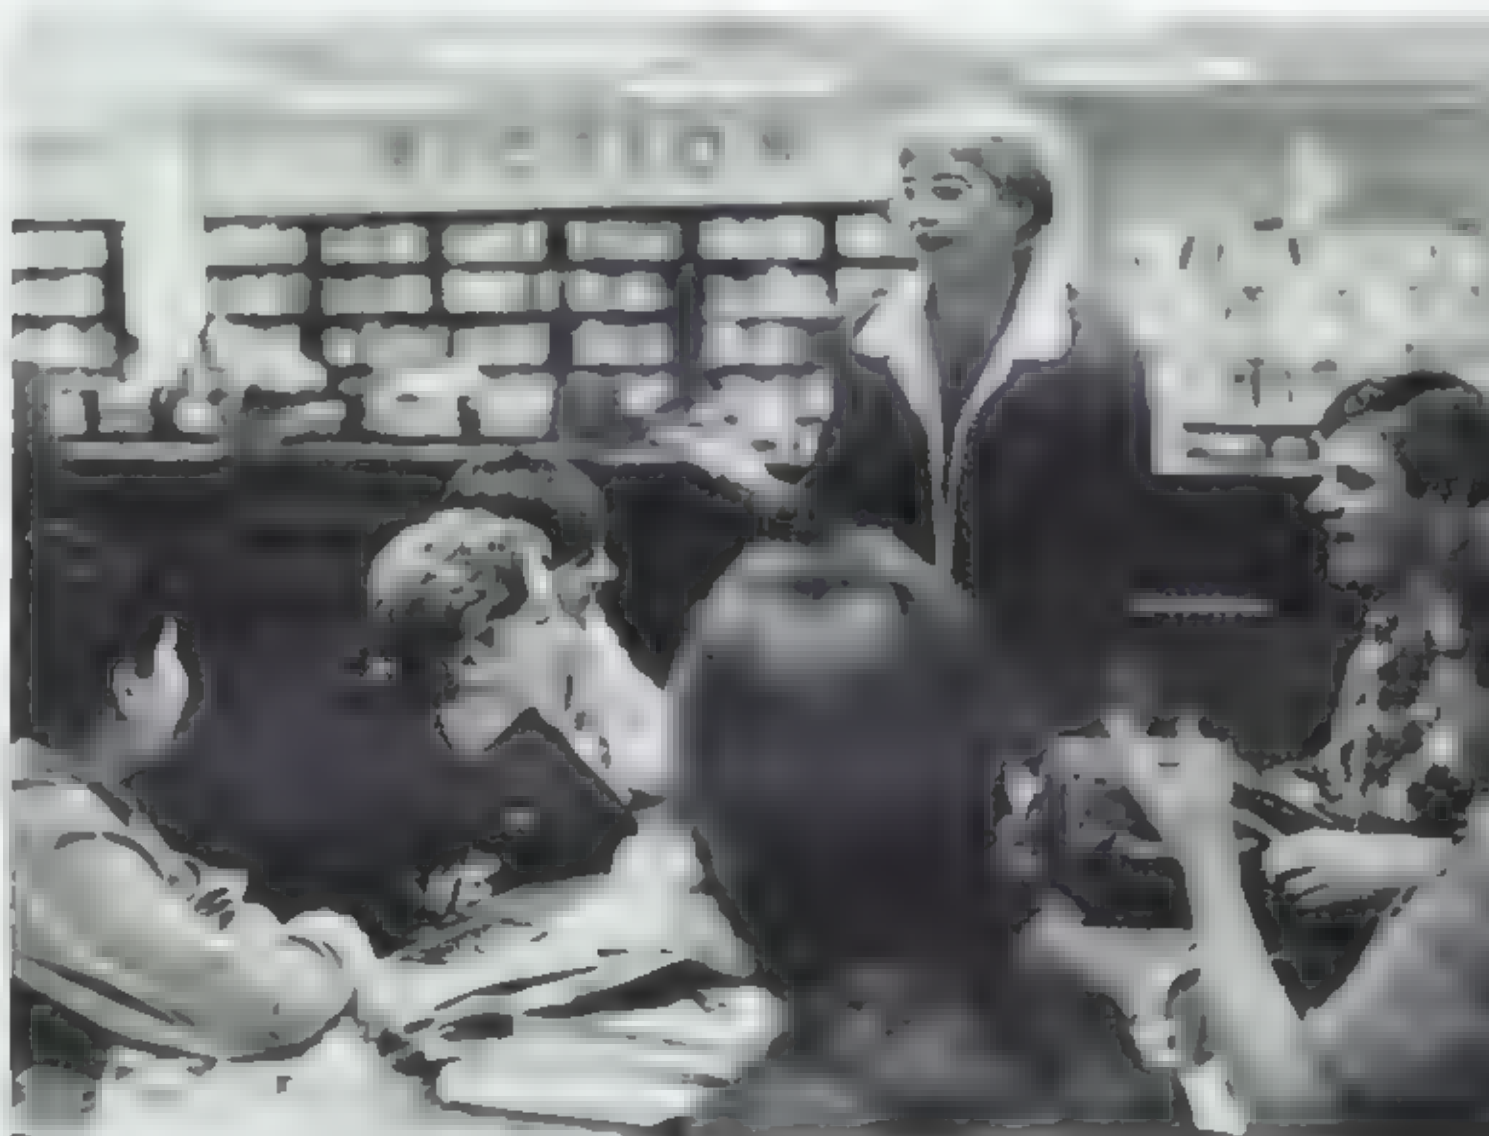

Membership consisted of ten students who all shared a common interest in role playing games. The club met in the library to discuss and plan the next game. The club had a variety of games they play,

which included Dungeons and Dragons, Top Secret, 007 and After Math.

New members are always welcome to join, but they need to have some experience before joining. That's the only requirement along with a strong imagination and a certain degree of craftiness,” said Junior Jeff Gehlker.

Strategic Gaming Club provided an atmosphere for students to relax while challenging their minds.

# Chain Gang exhibits spirit

**T**ime Out! During this break in the football game the Chain Gang girls not only gave the football players water, but they also gave the players the emotional support they needed. At the home games, Chain Gang operated the down boxes and also measured the football yardage with the chains.

Besides helping at the games, Chain Gang had car washes and sold candy bars to help out the football team financially.

The officers were President Jill Gamble, Vice-President Laura Brown, and Secretary/Treasurer Janess Stanko.

Because of the recognition Chain Gang received from the introduction of a new award given to the most inspirational player last year, there was an increase in membership.

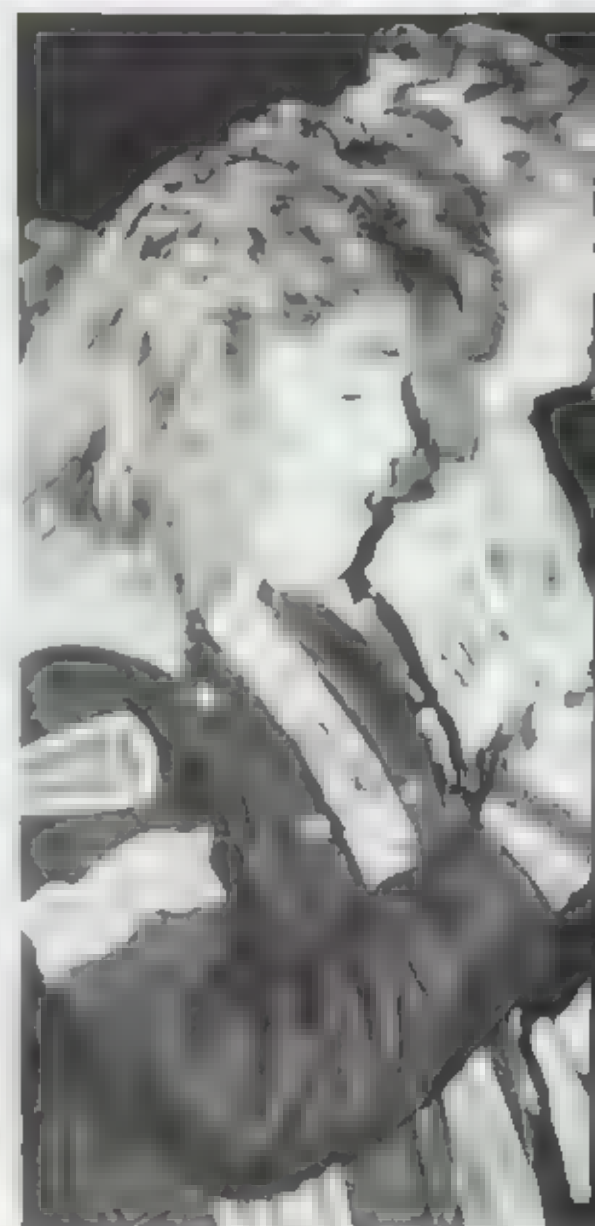

"I like to work with people and support the football team," said Chain Gang member Senior Cherie Corey.

Dedication was a word that definitely could have used to describe Chain Gang. The girls never seemed to run out of enthusiasm in order to assist the football team.

*By Jennifer Vorwerk*

# Kickers show soccer spirit

The Kickers were as involved in the soccer games as the actual players *Photo By Knack*

**S**occer! That fast paced game full of excitement and intensity is what the Kickers are in to

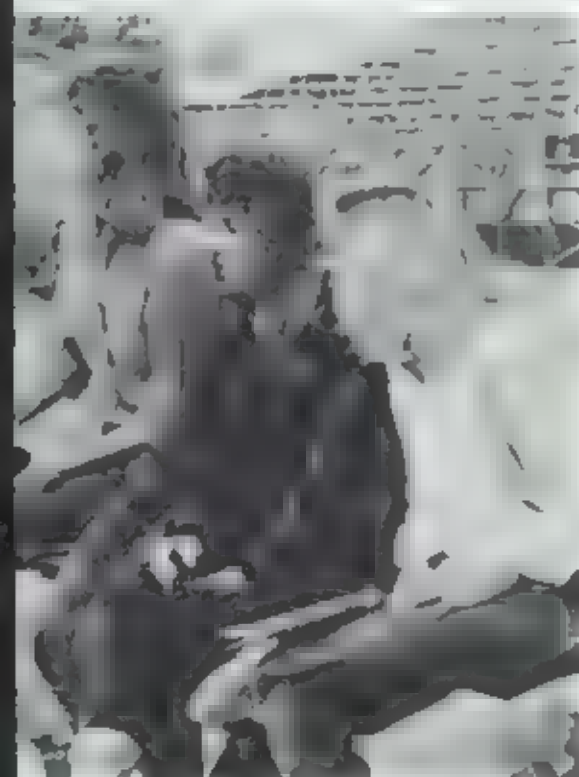

The Kickers sponsored a dance to raise money to buy uniforms for the soccer players. They also kept stats, got the balls that went off the field, and supported the players

"I used to go to a lot of my brother's soccer games and so I just decided to get involved this year," said new member Freshman Michelle Caplette

One of the major requirements to be a Kicker was an interview and a written test. The interview consisted of questions that explored the personality of the candidates and their willingness to get involved in soccer. A general knowledge of soccer itself was continued in the written test. The interview and the written test were mandatory for any new person to become a member of the Kickers

Officers were President Fred Jungman, Vice-President Steve Gallegos, Treasurer Tom Haney, and Secretary Dina Randall

ior Doug Atkin. *Photo By Fletcher*

Just because a person was involved in sports that person did not automatically receive all roses and glory. The sports program at Greenway was made up of hard workers who were willing to give up a good portion of their time in their efforts to improve. Some of the people involved in the sports program gave up their free time during summer vacation for weightlifting, summer basketball, running, or just keeping themselves in good shape. They wanted to be ahead of the rest.

Athletes who lifted weights during the summer went through a lot of changes. They gained strength and also gained a great deal of size and weight. Weight-training was a great advantage to athletes in many sports.

Summer basketball enabled players to brush up on their skills. It also gave the players the chance to keep themselves from getting rusty.

Running during the summer gave athletes endurance. It was not always easy to run in the hot summer, so some runners got themselves out of bed extra early to get their workout done while the weather was still bearable.

The sports program offered athletes the chance to be good at a sport. All things considered, sports success all depended on the time involved and a little touch of magic.

*By Scott Anders*

# Varsity team shows effort despite poor record

**D**espite its record, the Green Machine showed tremendous effort and pride on the football field.

The varsity team's squad consisted of mainly juniors and its season record of 2-7-1 fell short of the players' expectations. Although its record shows otherwise, the team played tough according to Senior Doug Atkin. The team was coached by Gregg Parrish, Nick Fotinos, Larry Burgess, and Mike Danaialek.

The season highlights were the Demon victories over Deer Valley and Apollo. Apollo was sighted by Coach Parrish as the team to beat because they had clinched a playoff spot. This game proved that the Green Machine with its strong defensive line, could beat a championship

team.

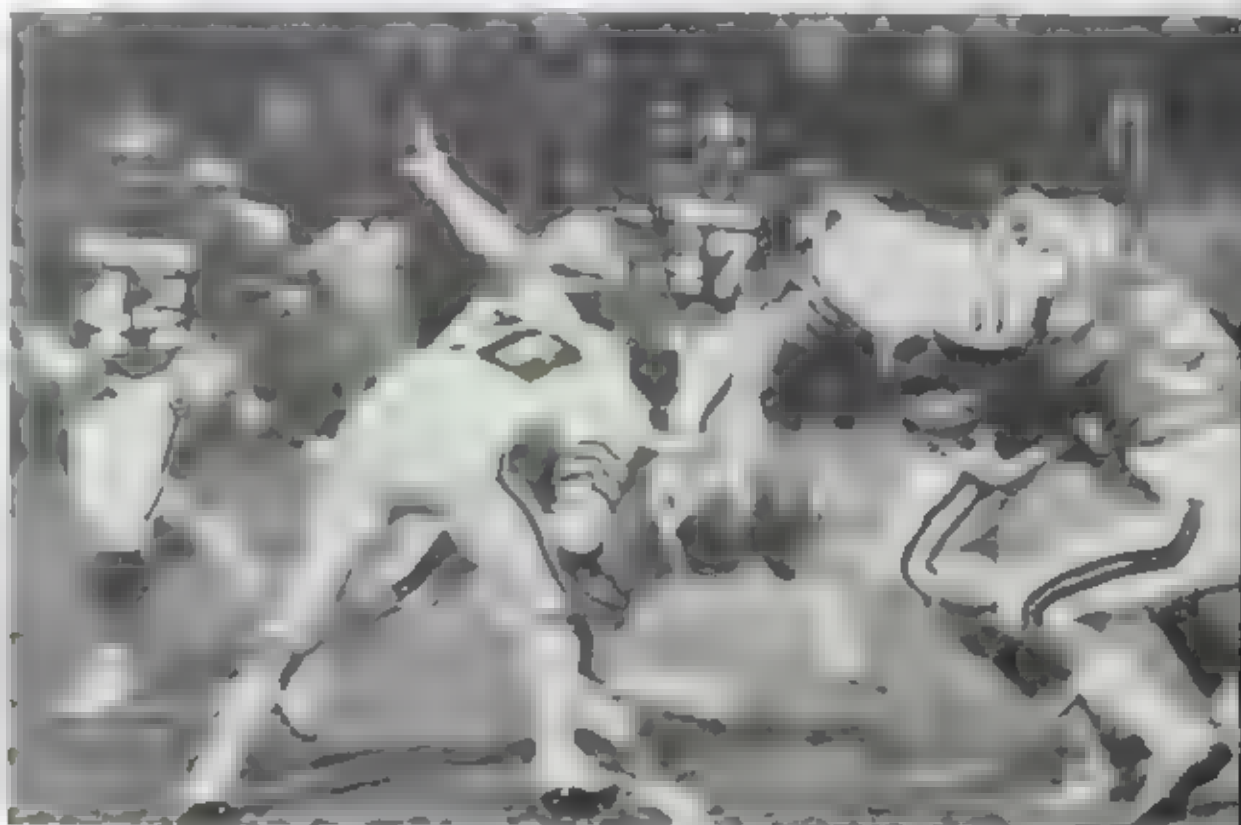

Blocking for the Demons was 5'9" 180 lb. Senior Mike Smith, 6'2" 185 lb. Senior Tim Salmon, and 6'3" 235 lb. Senior Gary Marak. Leading the defensive line were Seniors Ed Barnes, Mike Denoon, and Doug Atkin.

The team's biggest disappointment was its loss to St. Marys. The Demons played a strong game according to Coach Parrish. He said their weaknesses were mostly mental mistakes.

# Unity kept spirit alive among players

**D**etermination was in the minds of the Junior Varsity football team after starting off the season with a tie against Horizon. The team geared up with strenuous practices and continuous pep talks, which finally gave the team a chance to prove its record wrong. Their victory was against the Thunderbird Chiefs. According to Coach Mike Hughes, "The feeling of urgency to win combined with the teams being evenly matched produced the victory."

"It was a tough game that was well deserved," added Sophomore Keith Downing.

Considering their overall ability to work hard week in and week out helped make their playing very respectable. However, one thing that worked against the team was its size. The JV team ended its season

with a record of 1-6-1.

"Even though our record wasn't very good it was the quality the team put in that counted," said Sophomore Ed Cook.

However, the Freshman team experienced a more successful season. The team ended its season with a win against Apollo which made its record 5-3.

With the help of Coach Bruce Wilson and assistant coaches Gary Traber and Darrell Barrett, the team was able to pull

through the season without any major injuries. Without our coaches we wouldn't have had such a successful year, commented Alan Aho and Brett Pendgraf.

"We didn't have a lot of talent, but we had good coaching, team unity, and lots of discipline," said Mike Salmon.

# Teams stride to state; strong runners give it all

**T**hey may not be as fast as cheetahs, but the members of the varsity cross country team gave it their all

Both the boys' and girls' teams had seasoned runners, many of whom had competed at the varsity level before

"Tricia Herbert and Mei Lan Loo were a definite asset to the girls' team," said a dedicated spectator, Jan Smith. "They both gave the other teams a run for their money."

The girls' team did exceptionally well this season with 9 wins and 8 losses. The team placed third in divisionals and for the first year, qualified for state competition

Meanwhile, the boys' team had an out-

standing season with 9 wins and 9 losses, which placed them fourth in divisionals. For the ninth consecutive year, they qualified for state competition

Juniors Kevin Irwin and Mark Donahue (both co-captains) were two of the strongest runners for the team

Kevin Irwin is considered to be one of the best runners in the state said Mr. Scott Giddings

"I think this year has been a very productive, winning season. We had both the boys' and girls' teams qualify for state. That makes me very happy!" said Coach Giddings.

# Both Frosh, JV show strength to form successful teams

**A**lthough still fairly young, the JV and freshman cross country teams showed their strength this season by a job well done

The JV team got off to a slow start, but with 4 wins and 8 losses, definitely picked up the pace as shown by the JV district meet at Moon Valley. The team had four medal winners and the team as a whole placed third. Medal winners included Junior Mike Bowman, and Sophomores Sam Kim, Richard Davis and Darrek Millsaps.

The freshman team had an exceptionally good season with 7 wins and 3 losses. They had four medal winners at the freshman

district meet and were runners up at the District Championships. The medal winners included Freshmen Jason Webb, Wayne Bulleigh, Derick Drewry and Jim Titus

"The key strengths of the freshman team were their depth and talent," said Coach Scott Giddings

"I feel that during our season, everyone has grown into a big family, and that's what cross country is all about: growing in different ways and becoming good friends in the process," said Senior Scott Nash

# Dedication, devotion, spirit

**G**irls' varsity volleyball completed its season with a record of 4 wins and 15 losses

The team was made up of 13 players willing to dedicate up to two hours of their time after school for practice. The practice began to show through improvement during mid-season where three out of their four winning games took place

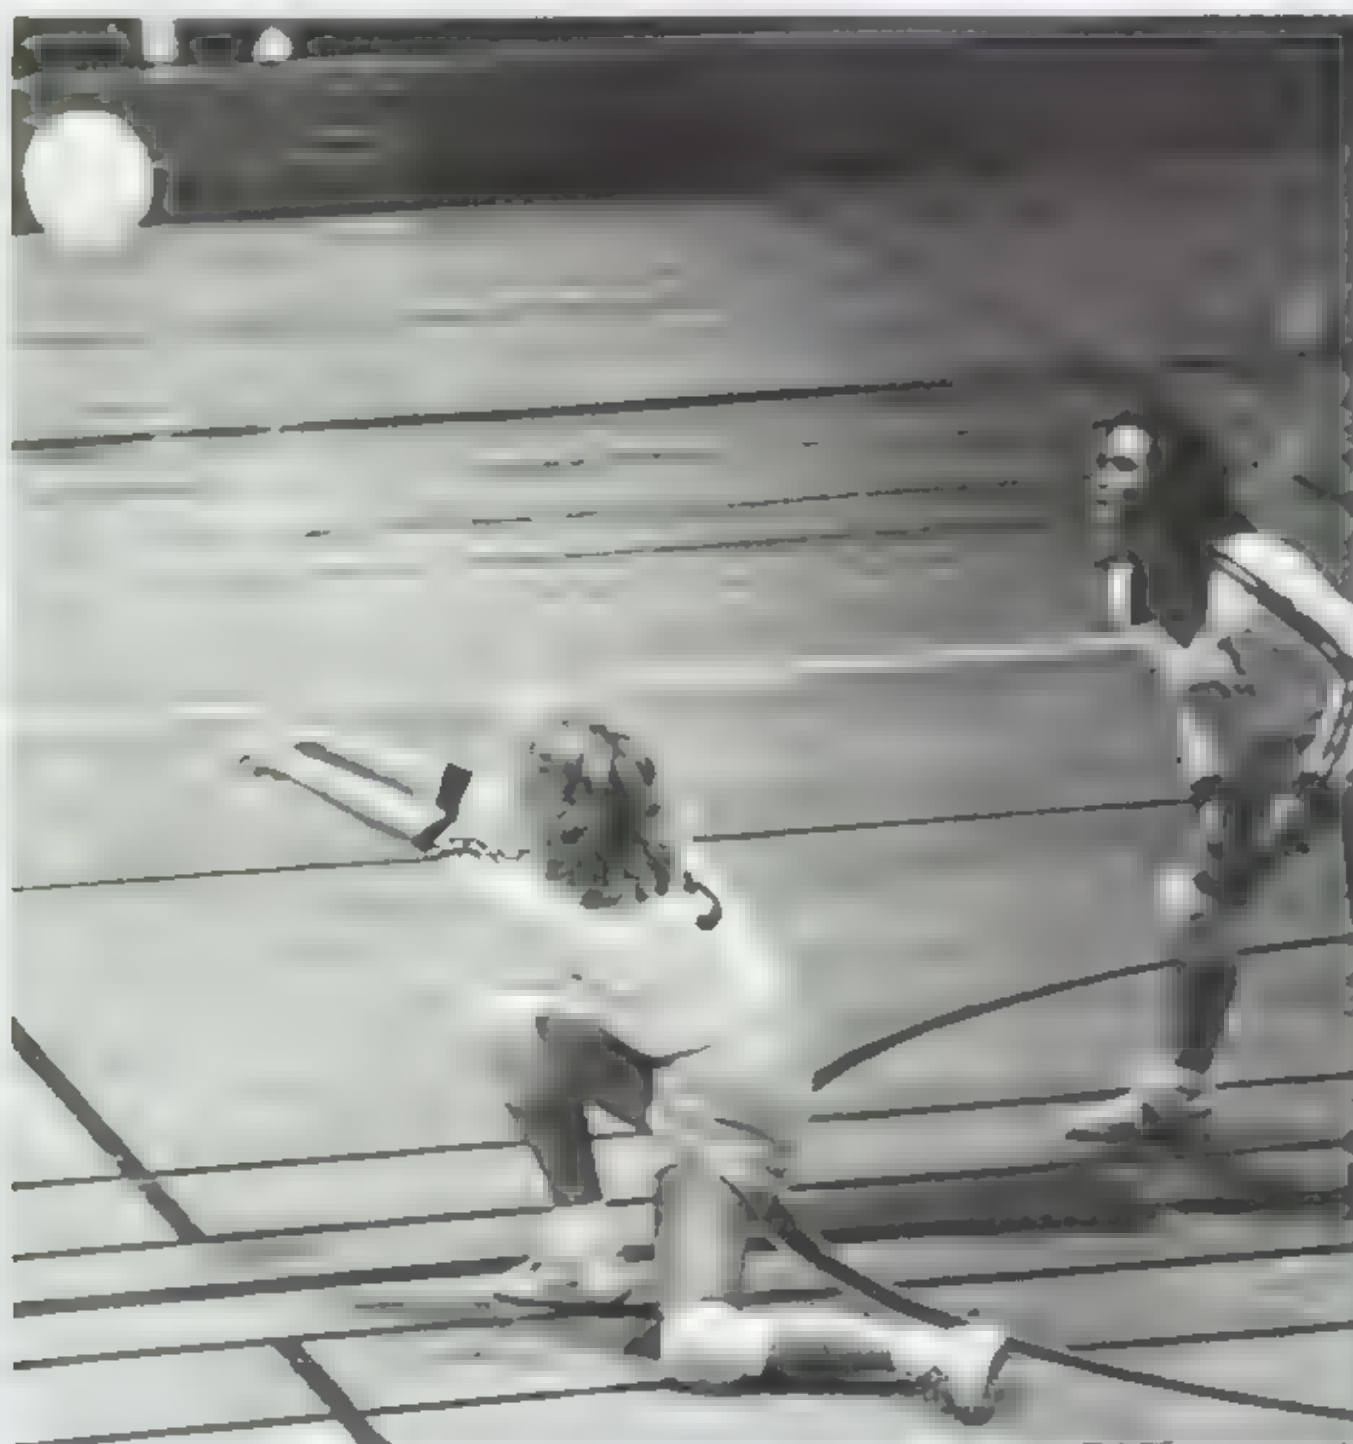

"I saw a lot of improvement throughout the season," stated Coach Ceil Billings about her team

Players recognized as outstanding starters were Senior Debbie Cortez, and Senior Christy Chase. They were both described as spirited and hard working by Coach Billings. Also mentioned was Senior Jennifer Abbott who was voted Most Dedicated Player by her fellow team members and received an honorable mention for Divi

sion I. A few other players were honored by their teammates. Senior Wendy Bovingdon was selected as Best Hitter, Senior Missie Elder was chosen as Best Back Row Player, and Senior Carrie Faulkner was voted as Most Improved Player. In addition, Senior Barbara Gonzales was cited for her talent on the court when she was selected as Most Valuable Player and Best Setter by her teammates

Even though not every game was won according to points, I feel we gained something from every match we played. The players had terrific attitudes and no matter what the score was, they never lost heart. They put forth their best effort into each and every game," said Coach Billings about her team and its season

# Practice proves successful

**A**fter getting off to a slow start both the junior varsity and freshman volleyball teams improved their records with victories during middle and late season.

IV completed its season with 5 wins and 11 losses. Coach Julie Stockwell felt that there was much improvement in the team during the season and with practice can make a strong varsity team for next year.

This was one of my strongest teams. They were an excellent group to work with," stated Coach Stockwell.

Players recognized for their abilities included team captain Kathy Kersey and starting setters Ann Dennis and Stacy Davis. Coach Stockwell also acknowledged the powerful inspiration contributed to the team by starters Wendy Raaties and Kathleen O'Leary.

Karen Reed was the student manager of JV volleyball.

She is the most involved manager I've ever worked with," said Coach Stockwell.

Freshman volleyball had a record of 10 wins in 11 classes. Coach Sandra Roberson expressed her contentment with the incredible improvement of the team during the first part of their season.

They practiced an hour and a half everyday after school and it showed in their first few games. They were able to cut their errors. The first half of the season, I would be out of their sight five games. I coached Court R. Benson.

Starters Deedee Staszak, Shari Heitel, and Diana Calderone were cited for their ability. Tammy Fout was recognized for her attitude, was the team and her talent in the sport. Other starters included Jenny Finkner, Michele Moses, and Nikki Wilson. Student manager for the team was Renee Wilson.

Both coaches felt their team players were very moved and look forward to great contributions and accomplishments from them in the future.

# Badminton places second

**P**lacing second in divisionals the varsity badminton team finished its season as winners.

Seniors Monique Hayes and Teri Walker placed fourth in divisionals and sixth in the state tournaments.

"The team had a really good season and we played real hard."

The JV team's season was not as successful. The team's record was 1-11.

Sophomores Keri Franklin and Susan

Roller were awarded for outstanding effort as a JV doubles team.

"This year's team was not as strong as teams in the past, but all of the players played better together than any other team," said Coach Suzanne Horst.

## Swimmers reach state

**C**o-Captain Tracy Roberts, Junior, pulled the swimming team together and led the girls to the divisional meet, according to Sophomore Maureen O'Hara.

According to Coach Cassie Hayes, a group effort was made to qualify for divisionals. Four swimmers and two divers qualified.

Tobi Bennington, Freshman, Irma Kalleta, Freshman, Maureen O'Hara, Sophomore, and divers Brandy Gardner, Sophomore, and Sue Laverman, Senior, were the girls who qualified.

"I enjoyed being on the team, but it was a lot of hard work," said O'Hara, a first year swimmer.

"The team went up against more experienced teams. We were young, but we improved with every meet," Hayes said.

The swimmers goals were to improve, develop new friends, and to come back again next year, Hayes said.

Gardner placed fourth in divisionals and went on to place fifteenth at state.

"We are all very proud of Brandy and were glad she did so well," concluded Hayes.

# Golf tees

**T**he golf team returned very little experience from last year's most successful team. "It was a rebuilding year for us," stated Coach Ted Blake who felt that the team played up to par considering their lack of experience.

The team managed four victories throughout the season as well as the vast rewarding experience that will aid next year's team. The team's hardest opponents were Brophy and Horizon according to Coach Blake.

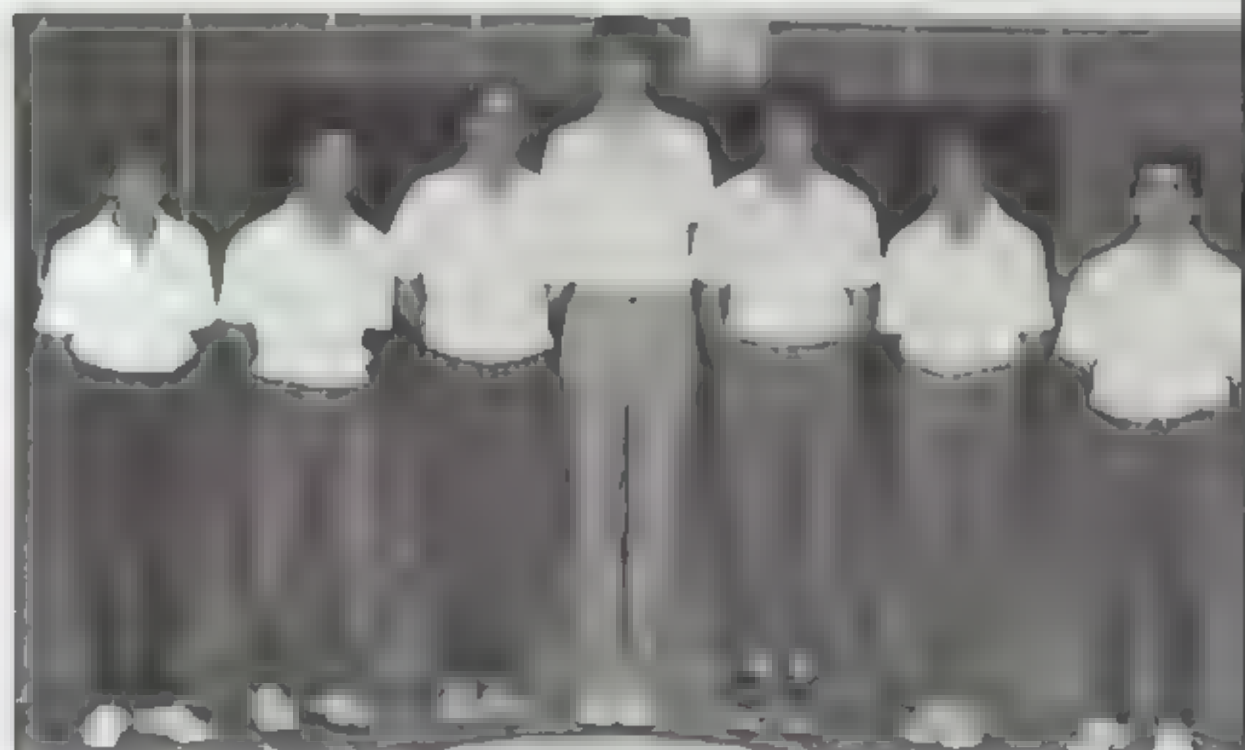

The team, lead by Sophomores Tim Chmielewski, and Don Munsey and Freshman Dain Staton, managed to place eighth in the Divisional Tournament. They will be losing only two seniors, returning the most consistent golfers and hoping to place at least fifth in Divisionals next year.

# Basketball plays for it all

**V**arsity basketball had its share of ups and downs this year. Even at the beginning of the year the team wasn't expected to go far. The newspapers always wrote about their bad points and never once was anything positive mentioned. Even though the players started the season with a discouraged feeling, they always managed to look at the bright side.

"We went into every game feeling as though we had nothing to lose," said Junior Tom Johnson. That feeling managed to work to the team's advantage. It took away some of those pregame jitters.

The team did not really have to worry about one player taking all the shots or getting all the attention. "None of the players on the team were the superstar type. They all were about equal in abil-

ity," commented Coach Howard Mueller.

The Demons played strong in the first, second, and fourth quarters, but always managed to have a cold spell in the third period. They seemed like they needed something to wake them up, but it only lasted for a few minutes. When they were playing to their ability they usually ended up outplaying the other team.

This year's team fought hard in every game. The players never gave up. They may have felt like it a few times, but they just pulled themselves together and played their hearts out. "It was a rebuilding season most of all and the players this year made more than their share of progress," stated Coach Mueller.

# 3-year letterman shines

If there was one player that stood out as one of the best this year, it was probably Junior Dan Dreiling. Dan has been playing at the varsity level ever since his sophomore year, and during his freshman year he played at the junior varsity level. "Most of my basketball skill I had to work on a lot, but some of them came naturally," said Dan.

It takes about a year from lower levels up to the varsity level. With that in mind, some players never make the adjustment because they were only on varsity for one year. Dan has had that year and will end up having two productive years on top of that.

He always looks for an open man to pass to before he takes a shot. "Dan is a very unselfish player. He always thinks about what he can do for the team first," said Coach Howard Mueller.

Dan is having a great year and next year will be even better. "During my senior year I am mostly going to work hard, so I can possibly get a college scholarship. Right now I'll just keep doing my own thing," he stated.

# Determination is the key

**E**xperience may have been lacking but hard work and determination were not as the freshman boys' basketball team pulled together to have a victorious season.

Throughout the year, the team felt they put in a total team effort and tried to improve with every game.

Getting involved with sports as a freshman was a good experience," Freshman Steve Meyer said. "It gets you established in high school."

Under the direction of Coach Tom Stark, the Demon team dedicated themselves toward concentrating on their one weak spot, free throws and building their many strengths.

"A lot of guys could play various positions which helped out a lot," Freshman Mike Salmon stated.

Although they had an extremely successful season, the highly motivated team has been looking for ways to improve themselves even more.

"All of us would like to hit 7'2" by next

year." Freshman Brett Pendegraft laughed adding, "We want to keep strengthening our abilities so we can reach our full potential and make state our senior year."

The boys' basketball team plans to continue the Greenway tradition of excellence by destroying teams with their tough defense for another successful 3 years.

# Pride kept team alive

Although they had a difficult time with the basics, hard working, intense, and disciplined were just a few words that still applied to the JV basketball team. The team developed a sense of spirit and pride that encouraged them throughout the losing season.

"We worked hard but we never pushed ourselves," Sophomore Keith Downing commented. "We could have played better."

"Our main weak points were conquering the fundamentals," agreed Sophomore Darren Yancy. "Now we have it all together so we're looking forward to next year."

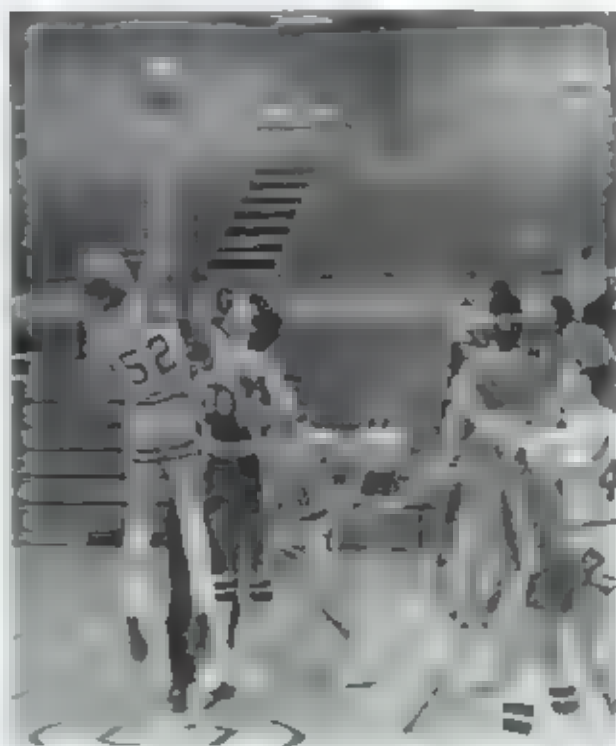

Working as the backbone of the team was Coach Mike Hughes. Throughout the year he encouraged them to work together as a unit to get things done.

"Coach Hughes is a real experienced coach, that brought out the best in us. He had a lot of patience," stated Sophomore Robert Stephenson.

Varsity basketball player Troy Mettel feels the JV players will be a major asset to next year's varsity team because they fill in our weak spots perfectly."

# Grapplers work hard for success

**H**ard work and a lot of sweat helped the wrestling team complete an improved season from a year ago. With Bill Rader as head coach for his second season, the young team literally took their opponents to the mat.

The wrestlers opened up their season by winning their first two matches, 60-15 over Independence and 33-22 over Saguaro. They then went on to win the Apollo Quad dual meet, took fourth in the Divisional Team Tournament, sixth in the Apollo Christmas Tournament, and 19 in the Peoria Invitational.

Leading the team was Senior Jeff Tidd at 132 lbs. who was backed up by Juniors Brett Weaver, Sean Winsor, Jeff Eaton, and Clint Dishman. To prove the youth of the team, Sophomores K.C. Yowell and Steve Luciani along with Freshman Chuck Biassingame also aided the team on varsity.

The team's major goal, according to Coach Rader, was to place in the top three in the Division and take ten wrestlers to the state tournament.

"I was very happy with the performances of the wrestlers," stated Coach Rader. "Everyone worked hard and put a lot of effort into the season."

"Despite a few injuries," said junior standout Sean Winsor, "our season went pretty good. We wrestled strong and practiced hard."

# Wrestlers dominate the mat

**"T**he junior varsity wrestling team is doing their best with what they've got," said Coach John Jenckes.

"The team showed their ability to dominate the mat at each match."

"Being on the JV team has given me more discipline and has made it easier to relate with people," said Sophomore Joaquin Kremer.

Doing well for the team were Juniors Dave Martin and Bill Schmidt; Sophomores Erick Johnson, Rodrigo Romero and Joaquin Kremer; and Freshman Pat Riley.

"We all have improved and we will continue to take each match as a learning experience," said Jenckes.

# Wrestlers gain experience

The freshmen wrestling squad may have been inexperienced at the sport but were always willing to learn more about the sport and get better. Freshman Robbie Moreno stated, "The reason I went out for wrestling is because it was an interesting challenge." Wrestling requires great physical strain and is one of the hardest sports around, according to Coach Mike Danilek. "The freshmen team really did well this

season and should succeed in the future," said Danilek.

Moving up and down on the wrestling ladder was Chuck Blassingame, Boo Winsor, Pat Riley and John Bateman.

"Wrestling is a hard but exciting sport," said Freshman Eric Harmon, "but the reason I went out for it is because it's more one on one and not a team effort."

# Girls swing into action

Once again the varsity softball team continued another year of excellence. "The team came together better than I thought it would," said Coach Ed McQuade. "They came together with total team spirit and great performance."

There were adjustments the team had to get used to. Tami Denovich switched positions from left field to short stop.

"At first I wasn't comfortable at the position, but I have learned to adjust," said Denovich.

Julie Michels moved from third base to second base, Kelly Back took over the catching position, and the only junior starter was Karin Kinkade, taking over third base.

"Playing third base was a challenge and a great learning experience," stated Kinkade. "But I have learned to like the position and want to work harder to improve."

The team started out the 11-1 season losing to Thunderbird but recovered quickly and have continued their winning tradition throughout the season.

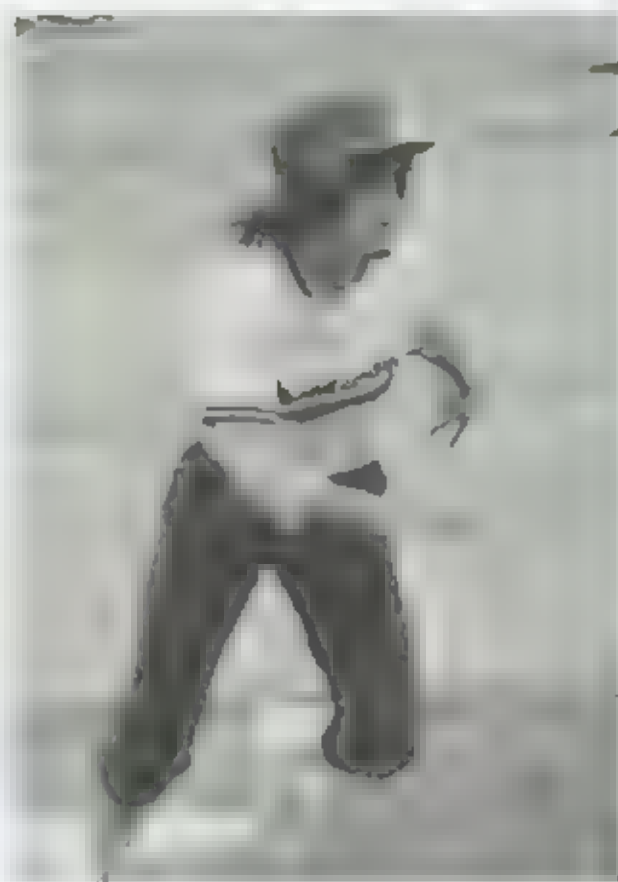

"Our defense is pretty solid and consistent," continued McQuade. "Our offense does an outstanding job when it is disciplined."

A pitcher and catcher's relationship must have trust and understanding. Pitching for the varsity team for three years, Terri Schroeder states, "I am very comfortable with my catcher, Kelly, because we have worked together long enough that we know what each other wants to do."

The pitching depth at Greenway goes beyond Schroeder's excellent record.

"Sophomore Terri Carnicelli and Senior Terri Schroeder are the best 1-2 combination in the state," said McQuade. "There are many ways the team could improve, but the one that stands out is for them to have total concentration and to be mentally tough."

# Winning spirit — winning team

A winning season was accomplished by the junior varsity softball team this season with a record of 11 wins and 4 losses.

Coach Clark Also described his team as talented and able to learn from their mistakes.

Outstanding players observed by Coach Also were pitcher Christy Martinez and catcher Lynette Sarna. Also identified as talented players by Coach Also were infielders Ann Dennis and Kristie Metcalf. In addition, Coach Also recognized utility players Amy Brockwell and Jennifer Hogan, right fielder Missie Elder and center-fielder Kathy Kersey as hard working and able to use their talent.

"This is a winning team with a lot of talent and I feel they can go all the way if they have the desire."

Freshman softball completed its season with a record of 14 wins and 3 losses.

"This team has quite a bit of talent. They try hard and work well together," said Coach Ceil Billings about her team.

Many players were recognized for their

effort and talent by Coach Billings. Among these was the pitching combination of Lori Hartado and Erin Parrish. Short Stop Didi Camarena and first baseman Tami Fout were both observed as making several outstanding defensive plays. Lisa Stump, Michelle Bachard, and Renee Ramirez were also mentioned as strong outfielders. Coach Billings named Michelle Moses as her most aggressive player.

"She's willing to sacrifice a little skin to gain a base," explained Coach Billings about Michelle.

Student manager for freshman softball was Linda Dominguez. Coach Billings described Linda as her right hand person. Coach Billings also extended gratitude to Monique Hayes who was the team's third base coach.

"All in all this was a good year. The team's mental game finally came along at the end of the season. That's when their talent really started to show," stated Coach Billings in summing up their season.

# Adversity prepares soccer

**T**he crowd is cheering, a ball is being chased downfield, the ball flies through the air, a goal is scored! This is the Greenway varsity soccer team coached by Jon Miller and Jeff Dallmann. The team consisted of 22 players including captains Tom Haney and Fred Jungeman, seniors.

The Demons played exceptionally well this season with a strong defense lead by Juniors Mark Donahue, Kelly McNulty and Senior Mark Boley, according to Coach Miller. "The defense played hard this season keeping a lot of goals from being scored," said Sophomore Sam Buck.

Sophomores Stuart Cummings, Steve Gallegos and Senior Scott Jantzi lead the scoring for the team by well placed shots. "The thing I liked was that when I went to

the games, the ball was always at the opponent's end of the field," said Senior Karen Weber.

The team placed second in the Metro Holiday Tournament at Agua Fria and have played hard against all other teams.

The team was fairly young with four freshmen and the average grades being sophomores and juniors.

"The 1985-86 season will go down as the year of adversity, but that adversity will make us a better team in the future," said Coach Jeff Dallmann.

# Potential winners focus on conquering high goals

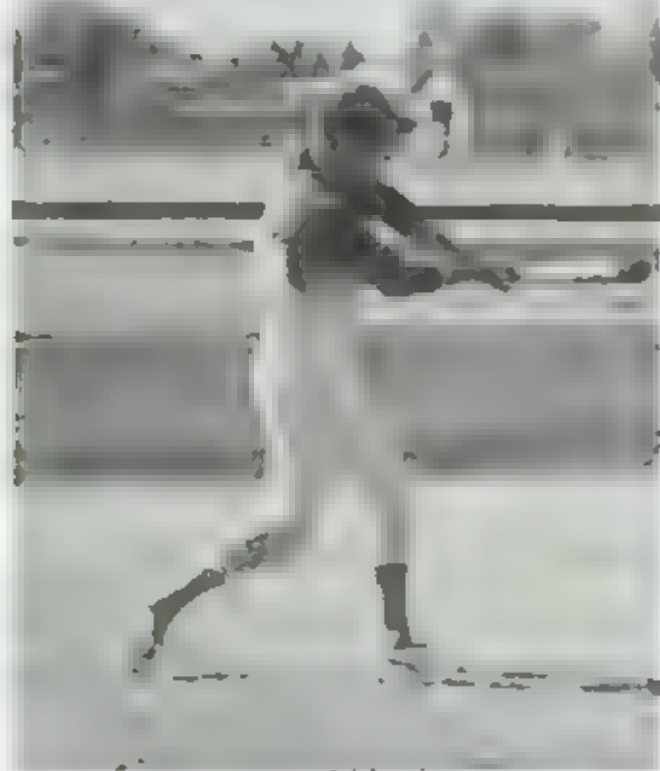

With seven returning lettermen, the varsity baseball team thundered into a change of alignment. The Skyline Region was divided into two divisions, changing the number of teams participating from 50 to 74.

Greenway belonged to Division One which contained nine of the larger schools in the area, according to Mr. Steve Knight, assistant principal in charge of operations and services. This change added more competition from schools like Shadow Mountain and Horizon.

The team consisted of seniors and juniors. Some of the outstanding players were Seniors Tim Salmon, Bret Nagelhout and Kort Miner. "A good athlete is an athlete on and off the field," Miner said.

At the start of the season, Greenway was ranked fourth in the division. "We expect to be one of the top four teams and make it into the Divisional Tournament," said Coach Ted Blake.

# Perfect practice makes perfect game

**E**mphasizing team unity and discipline were the major goals of the junior varsity baseball team under Coach Gary Traber, who was in his sixth year of coaching. Since there were no single standouts on the team early in the season, Coach Traber hoped to use as many players as possible to create a complete team effort.

Creating a total team effort required many hard practices — sometimes five or six days a week — with two or three hours each day. Coach Traber said that to improve the skills required hard work and concentration were necessary.

Other major goals were to have each player improve their skills, give 100 per-

cent in both games and practice, and to enjoy the sport.

According to Coach Traber, the hardest part of the long, three month season is the middle; after the players have lost the excitement from the first few games. He added that their toughest opponents were Shadow Mountain, Deer Valley, Horizon, and Moon Valley because they have more students from which to choose talented athletes.

Coach Traber felt that his team was strong both offensively and defensively and that he hoped to overcome errors by minimizing mental mistakes.

## Basics, fun emphasized

During a year when many pro sports were facing problems with rules, it appeared that very little discipline was being applied. Yet, according to Freshmen Baseball Coach Darrell Barrett, discipline was one of the major points he emphasized during the season. One example of this discipline was the practices which he held either five or six days a week for two hours each day.

Coach Barrett has been coaching the freshmen baseball program for five years. Since most of the players have very little experience at this level, he attempted to teach them the basic baseball skills and to have them improve on those skills throughout the season. At the same time, Coach Barrett wanted his players to enjoy playing.

The actual team was not finalized until the last week in February.

# Varsity girls show unity

The attitude of oneness was what pulled the girls' varsity basketball team together and enabled them to play as a unified team.

Discipline was an important part of the season.

"Any sport requires discipline. The most successful discipline is the discipline a person places on themselves," stated Coach Ron Halbach.

Because most of the players on the team have worked with each other over the past few years, Halbach felt that there would be less confusion and more practice and togetherness on the team.

With the season containing 18 games, any present weaknesses had to be overcome.

"One of my concerns is getting the girls to play and practice in an uptempo pace.

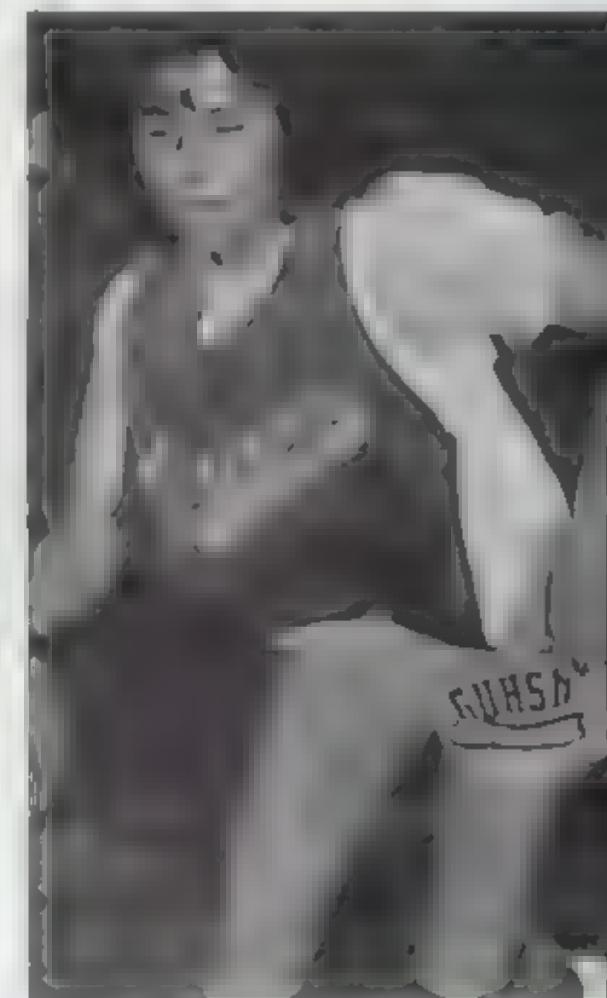

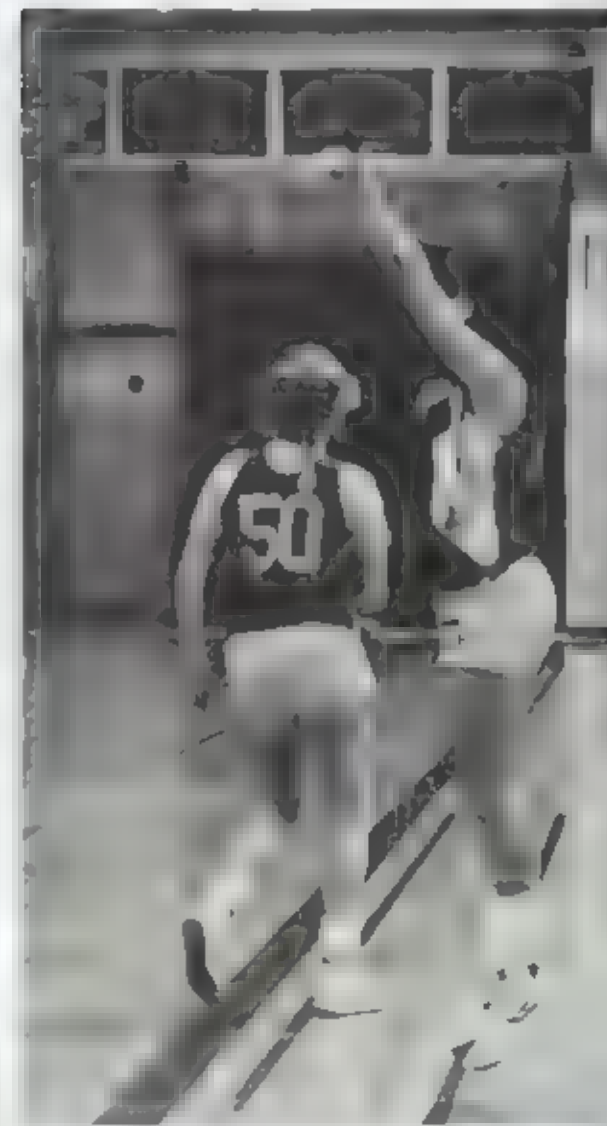

We will be working on this though so the uptempo pace becomes a habit," said Halbach.

The attitude of the players was another aspect of the success of the season. Halbach seemed to believe that the girls showed good enthusiasm and comradery.

Because of this good attitude, the girls were willing to play their best and be competitive with other teams. Some of the toughest opponents to the team were Xavier, Moon Valley, Horizon, and Shadow Mountain. The girls took on each team with a feeling of confidence and pride.

As the coach, Halbach felt his goals for the season were to play so that the team used the players skills as much as possible.

# Positive attitudes pay off

The similar philosophy of the JV and freshman girls basketball teams was not the only thing they had in common. Both coaches sighted

positive attitudes and the willingness to work hard as some of their mutual strengths.

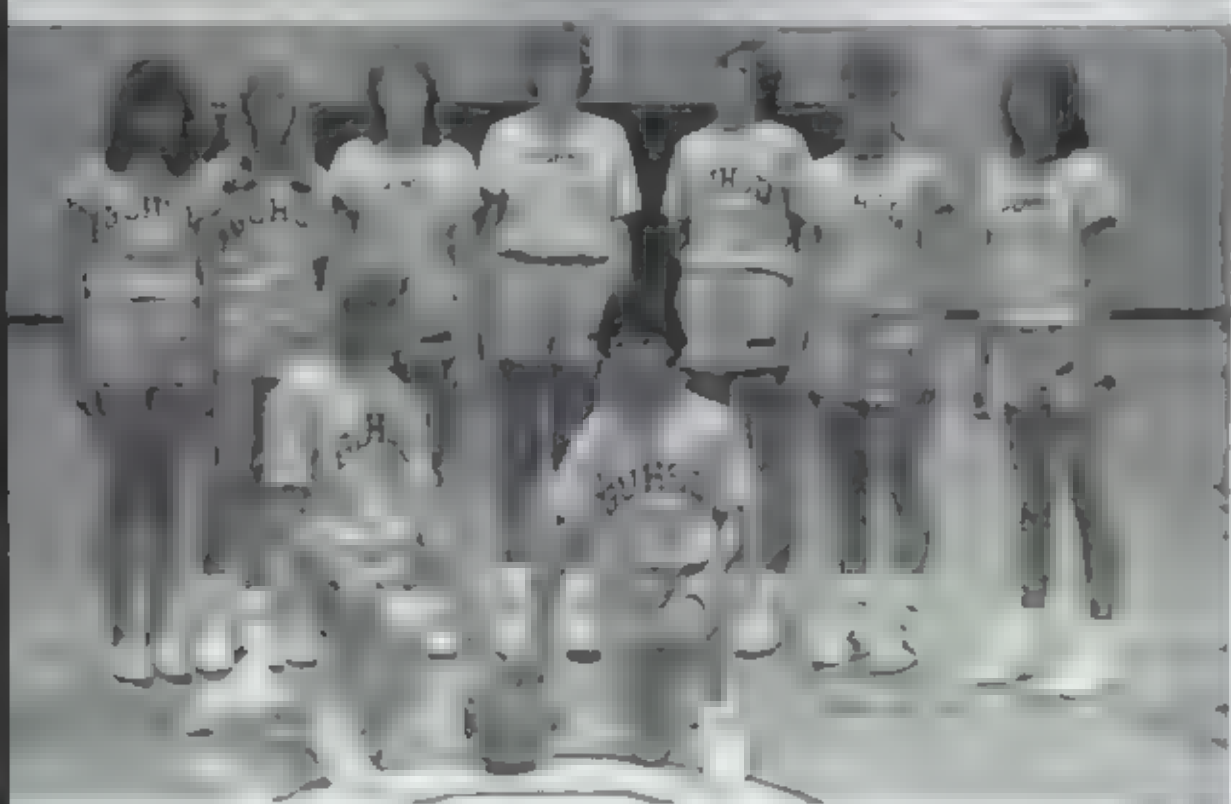

However, some of their differences were size and levels of experience. While the freshman team consisted of exclusively freshman girls, the JV team contained a variety of grade levels.

Mr. Howard Mueller, the JV coach, saw this variety as both positive and negative. He considered having junior leadership on the JV team a strength and viewed the freshmen players' inexperience as a weakness.

Coach Ceil Billings said the freshman team's strength was its height. She also hoped that the girls would learn from one another and have fun in the process.

Early in the season Coach Billings described the girls as having positive attitudes toward each other. "This attitude makes them feel good about themselves," she said.

## Tennis a demanding sport

Being on tennis is not as easy as it may seem to everyone that watches it but has never really played it. It is a much more demanding sport than it seems. The tennis team averaged three hours of practice every day after school, excluding the day of a match.

The boys' tennis team was expected to accomplish a lot this season. "We were a strong but relatively young team this year. I don't think the lack of experience made any difference in the way that we played," said Senior Kurt Bishop.

They were a young team, with only three seniors on the varsity team. But — the players were very talented so it didn't affect them at all.

There weren't any real standouts, besides Bishop. All the players on the team were relatively good players and they showed it on the tennis court.

The team was strong in singles especially, but they were also very strong in the area of doubles. "I think our strongest point was in singles," stated Bishop.

The tennis team had a very tough schedule this year. They felt that they were up to the task of beating all their opponents, and that is the only way to go. With confidence they strove for success and were able to accomplish their goals and their dreams.

## The team with best attitude

**"A** team with a little talent, and a lot of desire wins more matches than the other," said Coach Mark Heleker

"This was my first year on the team and I don't regret one minute that I spent on the court," said Junior Alisa Calderone

"The start of the season is definitely the toughest, considering many of the players are first year players," said Coach Heleker

The first match was on February 18 and the season went until May

"To be the team with the best attitude

which will lead to a winning season," Coach Heleker's main goal of the season. He also identified time as one of his major hurdles

The girls' tennis team consisted of Seniors Keri Layton, Lea Chiariello, Christine Chase, Teri Walker, Carl Darling, Junior Alisa Calderone, Chris Bamford, Sophomores, Sam Buck, Amy Duffet, Sandy Johnson, Cindy Marchiafava, Freshman Cathy Spalding, Christine Cultreri, Lisa Bacik, Julie Laverman, and Brittany R

# Success through strength

**B**oys' track experienced a different situation this season. For the first time in Greenway history, the team had no real weak points. The team had depth, which is hard to come by at the high school level. "This is the first year we have been able to score in every event, not just a few like usual," said Coach Clyde Volz.

Last year the team had an average record which was five wins and two losses. "It was a pretty good year," commented Senior Jim Kenyon.

With 18 returning lettermen and more athletes out for track, the team was expected to accomplish a lot.

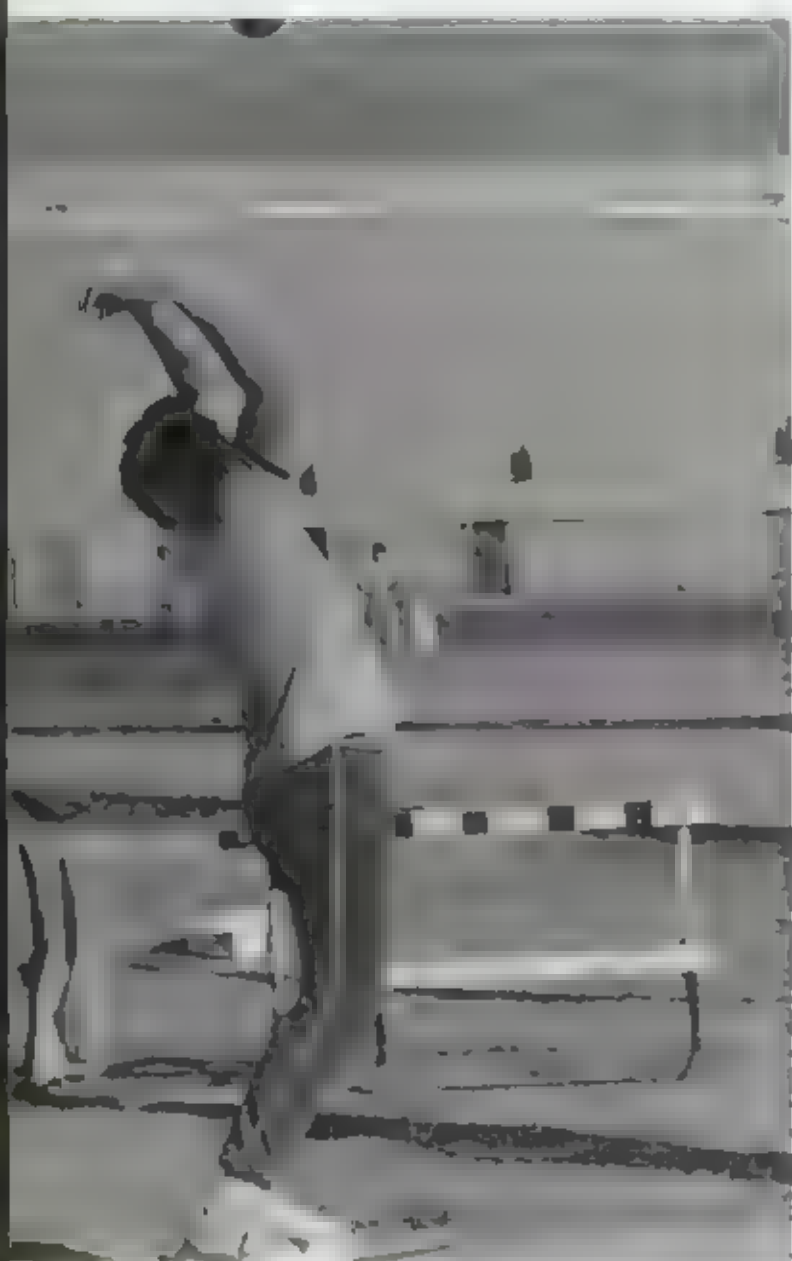

The team was strong throughout every event, but there were still those athletes who stood out from the crowd. Some of the outstanding athletes were Seniors

Scott Nash, Jim Kenyon, Ed Childs, Rick Tonn, and Dave Hiner. Among the underclassmen were Ken Smith, Blayn Beenau, and Derek Michlitsch. These were only a few of the fine athletes involved in track.

Boys' varsity track was strong in most areas but especially strong in the hurdles, sprints, the mile, and the quarter mile relays. "This is where I expected the team to score most of their points, and they did," stated Coach Volz.

In the end, this team went through a lot of pain and effort to be successful and that made all the difference in the world. "I am really proud of these boys for what they have done and hope they continue to strive for success," concluded Coach Volz.

# The varsity dynamic duo

Boys' track didn't have many real stars out for track this season, but there were a few that rose above the crowd. Two of these were Seniors Scott Nash and Jim Kenyon.

Being involved in track since his freshman year, Nash has gained a lot of experience. "I started out with the hurdles and in my sophomore year I was involved in several other events," said Nash.

Nash competes in both types of hurdling events, they include the 300-meter

intermediate and the 110-meter high hurdles. His personal best in the 300-meter hurdles, is 40.1 seconds.

"I feel that the 300 intermediate hurdles is my best event," commented Nash.

Another four-year letterman is Jim Kenyon. Kenyon specializes in the 100-meter and 200-meter dashes. "I never really liked the long distance runs. I was always better at the short sprints," stated Kenyon.

His personal best in the 100-meters is 11.4 seconds and in the 200-meters, 23.4 seconds.

"I would like to take about a second off of both of those times," said Kenyon.

These two seniors combined experience, leadership, and ability to make a strong base for the boys' track team.

# Young team strives hard for success

**T**he girls' varsity track team's strength came from "the depth of the sprinters and hurdlers, which resulted in the 400 and 1600-yard relay teams being very competitive in the Division and State meets," said Coach Clyde Volz.

The girls' team coaches were Molly Snyder, and Steve Parks, sprints; Max McBride, pole vault and long jump; and Clyde Volz, hurdles.

With only five returning seniors the team experienced a season of learning. Team captains and outstanding individuals were Tricia Herbert, distance; Cherie Guzman, sprints, and Lauren Rhetta, hurdles.

"All three athletes have been in the track program since freshman year. They have all scored in Division and State meets as Sophomores and Juniors," said Coach Snyder.

Team strengths were sprints, relays, hurdles, and distance. Many young sprinters and hurdlers added depth to the team, which enabled them to score in more events.

## Teams combine strengths

**W**ith a line-up of new talents and abilities, the junior varsity and freshmen track team combined their strengths to unite a successful team.

Although there were a few weaknesses in shot put, high jump, and long jump, the team used their strengths in sprints to help overcome the problems that needed correcting.

The coaches were Molly Snyder, girls' team coach; Steve Parks, with sprints; Max McBride, pole vault and long jump; Scott Giddings, distance; and Clyde Volze divisionals without the excellent help pro-

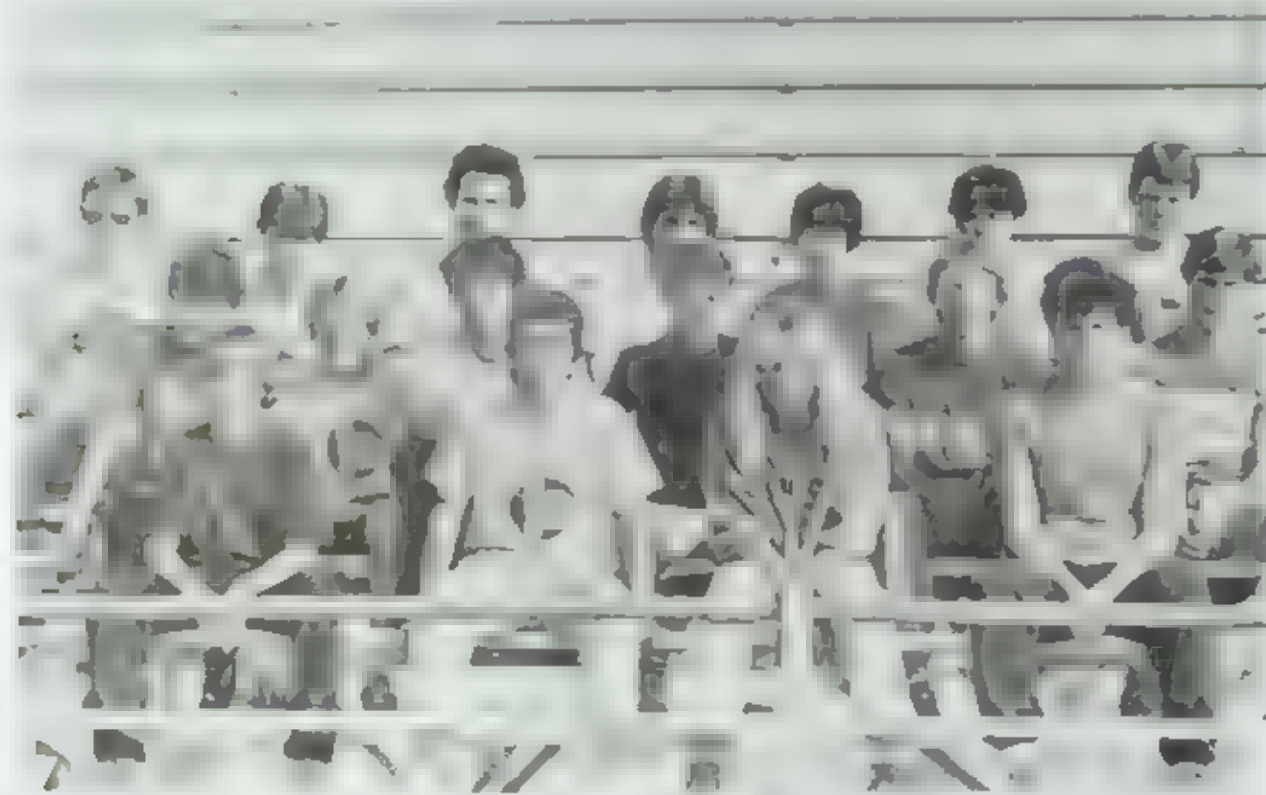

vided by them.

The team put their strengths to the test in April week after week, which according to Coach Giddings was the toughest part of the season.

The team members had many hours of practice on their side to help them achieve their main goal, an outstanding season.

# The final touch

## Closing

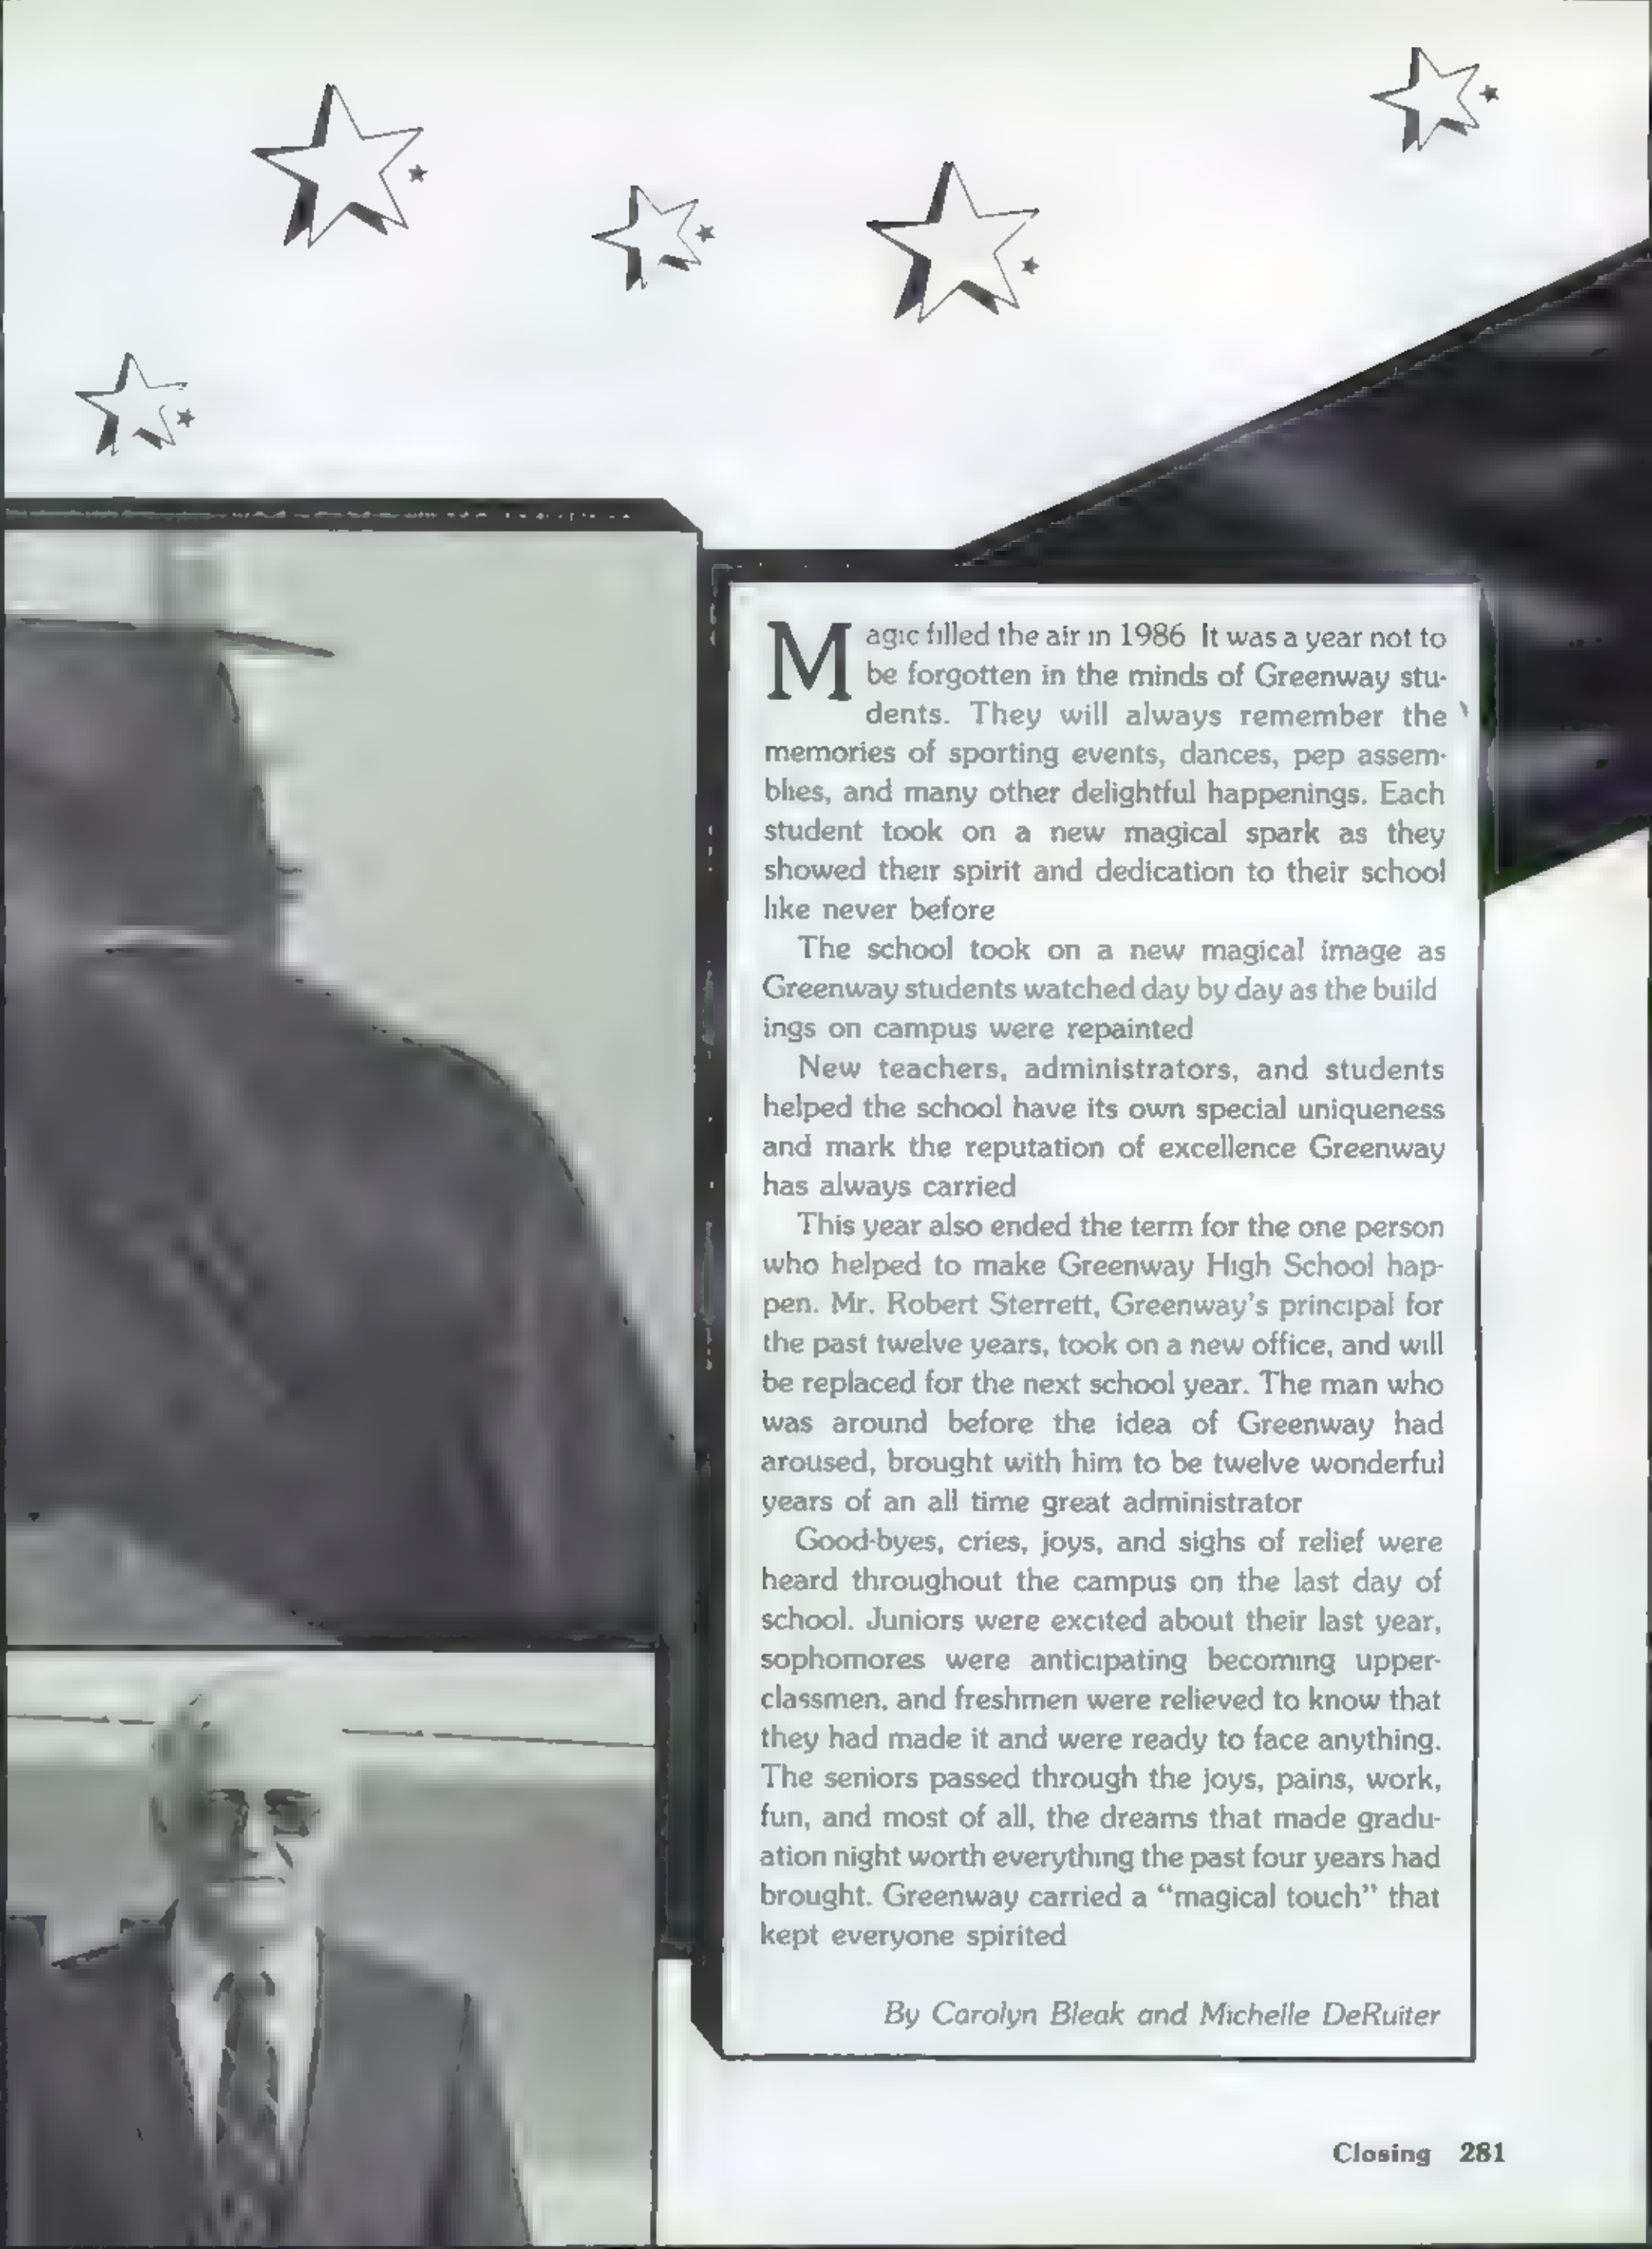

Graduation night brings about tears, love and friendship for all seniors. **Photo By Moore**

Senior Brian Frost rushes to his class so that he doesn't miss any moments in his last year. **Photo By Knack**

Drinking water, Storer gives us a final toast to our successful year and says, "I will miss you all." **Photo By D. Fletcher**

**M**agic filled the air in 1986. It was a year not to be forgotten in the minds of Greenway students. They will always remember the memories of sporting events, dances, pep assemblies, and many other delightful happenings. Each student took on a new magical spark as they showed their spirit and dedication to their school like never before.

The school took on a new magical image as Greenway students watched day by day as the buildings on campus were repainted.

New teachers, administrators, and students helped the school have its own special uniqueness and mark the reputation of excellence Greenway has always carried.

This year also ended the term for the one person who helped to make Greenway High School happen. Mr. Robert Sterrett, Greenway's principal for the past twelve years, took on a new office, and will be replaced for the next school year. The man who was around before the idea of Greenway had aroused, brought with him to be twelve wonderful years of an all time great administrator.

Good-byes, cries, joys, and sighs of relief were heard throughout the campus on the last day of school. Juniors were excited about their last year, sophomores were anticipating becoming upperclassmen, and freshmen were relieved to know that they had made it and were ready to face anything. The seniors passed through the joys, pains, work, fun, and most of all, the dreams that made graduation night worth everything the past four years had brought. Greenway carried a "magical touch" that kept everyone spirited.

## Colophon

**T**here were 1550 copies printed of the 13th volume of the 1986 Demonian yearbook. The first 16 pages were printed on 100 lb. Eurogloss paper. The remaining part of the book was printed on 80 lb. Bordeaux Special Enamel Paper.

Division page titles are 60 pt., Bingham Script. Headlines are 36 pt., Souvenir while subheadlines for the senior section are 18 pt. Souvenir Italic. Body copy is 10 pt. Souvenir and caption copy is 8 pt. Souvenir. The folios are in 10 pt. Souvenir Bold and the photo credits are in 8 pt. Souvenir Bold Italic.

The first 24 pages are in full color and the five division pages are in Purple or Colonial Blue spot color. The opening signature and endsheets used Metallic Silver and Ultra Purple spot color. The front endsheet is a short trim endsheet.

Cover art was prepared by Tom Cryer of Herff Jones Yearbooks. It is full color lithograph, with silver foil stamping and lamination.

## Capturing the magical touches

**W**ith the many changes this yearbook contains, fulfilling our dream of originality was met. We wanted to break the tradition of the yearbooks in the past and create our own unique style. The entire staff contributed their best efforts and ideas toward making this a yearbook not to be forgotten.

To the staff and our adviser, Mrs. Lopez, we thank you for all your input and dedication to the book. It couldn't have been done without the cooperation of each and every staff member. We would like to add a special thank you to all who took the time to contribute toward the making of this yearbook.

We hoped the most magical part of the book would be the cover. Many long hours were spent searching for our theme and ways to create it on our cover and throughout the book. After the theme was set, we found an idea that we knew was perfect for our cover. We then sent it to the company artist and he revised and added his own special touches.

As the book was completed, we knew that all of our hard work and time had paid off. Capturing the "magical touches" of the year was our main goal and we hope it shows throughout the book.
